☞ Homer Ramsdell, will act as Receiver of the Erie Railway Company, during the absence of Receiver Jewett in Europe.

☞ The Receiver of the Bleeker Street Railroad has filed in the County Clerk's office his report for the month of June. This report shows the receipts for the month to have been $24,137 17, making the total receipts since his receivership $129,875 97. For last month the operating expenses of the road were $16,124 50, which sum, added to his previous reports, makes the total operating expenses $89,549 61, leaving a balance of net earnings of $46,326 36. During the month there was paid for permanent improvements $15,956 45, making, with the sums previously similarly expended, $22,367 39. He has also paid since being receiver $7,744 36 on the old company's accounts.

☞ Hannibal Hamlin and William Caldwell have been appointed Trustees for the second mortgage bondholders of the European and North American Railway.

☞ J. T. Clark, Superintendent of the Mountain division of the Union Pacific Railroad, has gone to Evanston to take the Superintendency of the Western division extending to Ogden.

DIVIDENDS.

OFFICE OF THE LAKE SHORE AND MICHIGAN SOUTHERN RAILWAY COMPANY,
NEW YORK, July 5, 1876.

THE DIRECTORS OF THIS COMPANY HAVE declared a dividend of TWO PER CENT. upon the capital stock thereof, payable on the 1st day of August next, at the office of Messrs. CHASE & ATKINS, No. 18 Broad st., New York.

The transfer-books will be closed at 3 o'clock P. M. on Saturday, the 8th inst., and will be reopened on the morning of Wednesday, the 2d day of August next.

E. D. WORCESTER, Treasurer.

PHILADELPHIA AND READING RAILROAD CO.,
OFFICE NO. 227 SOUTH 4TH ST.,
PHILADELPHIA, June 29, 1876.

DIVIDEND NOTICE.

THE BOARD OF MANAGERS OF THIS COMPANY have declared a dividend of Three and a Half per Cent. upon the preferred stock, clear of all taxes, payable in cash on and after the 25th of July, to the holders of preferred stock, as they shall stand registered on the books of the Company at the close of business on the 1st of July.

S. BRADFORD, Treasurer.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD COMPANY, NEW YORK, June 21, 1876.

A DIVIDEND OF FOUR PER CENT. HAS been declared by this company, payable on the 1st day of August next to the holders of full paid shares registered at the close of the 14th day of July next, after which, and until the 5th day of August the transfer-books will be closed.

L. V. F. RANDOLPH, Treasurer.

New York, Saturday, July 22, 1876.

Business Predictions.

Our new Minister at the Court of St. James, Mr. Edwards Pierrepont, upon his arrival in England was met by a deputation from the American Chamber of Commerce at Liverpool, and, though taken by surprise, made the following cheering predictions:

You surprise me by taking me on this swift steamer before I have been recognized by the Government of England. If I had been recognized I might have had something to say, or if I had not been recognized I should not have had anything to say. (A laugh.) I am going to make an effort in a few days to be recognized; if I am successful I may have the pleasure of seeing you again, and if so, I may be able to say more than I can be expected on this occasion to say. It would be unfit at this stage that I should say much, except to thank you most heartily for your kind reception. Coming from the great commercial country of America, as I do, and having been for more than a year a member of the Cabinet at Washington, I hope I may be able to appreciate your wants and your wishes, and that I may be of some service between the two countries—("Hear!" "Hear!")—in cultivating those commercial relations and that friendship which are natural and which have so long existed. ("Hear!" "Hear!") I know that you who are engaged in commercial affairs with America are at this present time much depressed, because trade in my own country is in the most depressed condition in which it has ever been since my memory. But allow me to say this, from having been an observer and a reader of the history of the past, that the time is very short when you will see commercial relations more active between England and America—(Hear, hear, and applause)—and you will see revived commerce, and revived enterprise and great and vast activity in my country, which is now so depressed. (Hear, hear.) If you will look at it you will discover that my country was never so rich in its productions, never so numerous in its population, never with such general public health as now, never such materials for wealth and prosperity. (Hear, hear.) The reason of its present depression comes solely alone from that lack of confidence that is owing altogether to too great expansion and too great excitement, which are necessarily succeeded by reaction and depression. Now, men of capital are unwilling to embark in any lengthened enterprise; no one feeling quite certain of the future is willing to awaken and revive our drooping energies and our drooping business. But mark what I say to you here to day, that before many months shall have passed, and this pending election is over—whichever way it goes—you will discover that the public will submit to it; not only submit to it in fact, but submit to the will of the people absolutely, and cordially; and will again recommence their activities and new prosperities, which will be for the benefit of these two countries, now so closely united. (Cheers.) His Excellency again thanked the deputation and was cheered most heartily.

Delaware Shore Railroad.

The Delaware Shore Railroad, extending from Woodbury to Pennsgrove, a distance of twenty miles, will be opened for travel on the 24th inst. It will be operated with the rolling stock of the West Jersey Railroad Company, with which road it connects at Woodbury. There will be ten stations on the line of the road, all conveniently located. This road has been built at a cost of only $15,000, including three draw bridges. One third of this cost has been paid in cash, leaving a bonded indebtedness of $200,000, with no floating debt. The officers of the company are: President, Hon. Samuel Hopkins; Treasurer, Dr. S. T. Muller Secretary, D. B. Gill. Gen. W. J. Sewell has been chosen, and will act as General Manager.

Funded Debt of Ohio.

According to the Report of the Fund Commissioners, filed with the Governor on the 3d inst., the total receipts during the six months ending May 15, 1876, were $1,826,018 69, and the total disbursements $1,758,952 91, leaving a balance subject to draft of $67,065 18; to which should be added the balance on deposit with the American Exchange National Bank, New York, $31,199 99—making the gross amount to the credit of the Sinking Fund on that day $98,265 17. The total foreign debt, payable at New York, is reduced to $6,693,839 48, domestic debt, payable at Columbus, $1,665. Total funded debt, $6,695,504 48.

The Late John A. Roebling.

At Muthausen, Thuringia, on the 11th of June, there were held public services in memory of the late John A. Roebling, the engineer, who was born in that town. After a public lecture on the life and character of Mr. Roebling, the citizens marched to the house in which he was born, where a memorial plate was unveiled. Mr. Roebling built the Railroad Suspension bridge below Niagara Falls, and at the time of his death had charge of the construction of the East river bridge. He was well known here, his first work being the construction of the Aqueduct across the Allegheny river, which was the first suspension structure. He afterwards built the Smithfield street Suspension bridge, and also the first bridge over the Allegheny, at Mechanic's street. His last and most important work in this vicinity was the construction of the Sixth street Suspension bridge, one of the finest structures in the country.—*Pittsburg Chron.*

☞ The new long iron span, about to be placed on the railroad bridge across the Susquehanna at Havre de Grace, will be 305 feet, or 50 feet longer than the one it is to replace. The piles have been sunk by the torpedo process through 90 feet of water and mud to a rocky bottom foundation. The placing of the piles was accomplished without difficulty by the torpedo process. Six of the thirteen spans have been replaced by iron, so that gradually all the wood work will be removed,

when the great bridge will be transformed into one wholly of iron on granite piers.

Grand Southern Railway.

Work is steadily progressing on this road, and the force is being increased as occasion requires, that is, as fast as the engineering staff can locate the road, which is being done as rapidly as possible by three locating parties in the field. Sixteen different miles of the road are now in course of construction by a force of about 250 men and a proportionate number of horses. Mr. Green has a staff of twenty-six men engaged in locating the road and laying out work for the contractors.—*St. Croix Courier.*

Camden and Atlantic Railroad.

The earnings of this road for the years ending December 31, 1874 and 1875, were as follows:

	1874.	1875.
Passenger	$314,062 51	$316,407 12
Freight	136,419 58	131,799 58
Express (expenses deducted in 1874, but not in 1875)	24,436 52	36,604 64
Ferry	45,444 51	42,716 12
May's Landing Branch	3,601 18	4,218 92
Atlantic City horse cars	.....	7,286 35
United States Mail	3,000 00	4,500 00
Rent of real estate	2,122 50	3,046 42
News agent	800 00	1,233 35
Dividend on stock of Sea View Hotel Co.	.....	680 00
	$529,886 80	$548,482 50
Expenses, viz:		
Conducting transp.	$61,472 07	$62,078 78
Motive power	57,609 57	60,149 34
Maintenance of way	67,113 07	100,927 26
Maintenance of cars	18,363 73	14,078 30
General expenses	34,846 43	31,836 20
Express (deducted from receipts in 1874)	.....	12,176 77
Ferry	41,814 91	49,199 51
May's Landing Branch	7,419 93	7,560 97
Atlantic City horse cars	.....	2,843 34
	$288,139 71	$340,850 47
Earnings over operating expenses	$241,747 09	$207,642 03
From which deduct—		
Interest on bonded debt	$68,740 00	
Interest on mortgages	6,013 00	
Interest	912 41	
Premium on gold to pay coupon on 1st Mortgage bonds	5,059 99	
Sundry items	6,859 27	
		87,584 67
Net earnings for the year 1875		$120,057 36
Deduct dividends of May 1 and October 1, 1875, amounting to seven per cent for the year, on the preferred and common stocks		85,088 50
Surplus for the year		$34,968 86
To this surplus add—		
Increase of floating debt		27,169 01
Express teams sold		67 50
Total		$62,205 37
Disposed of as follows:		
Construction		$16,799 84
Equipment		14,759 87
Equipment, Atlantic City Horse cars		5,225 26
Real estate		6,281 93
Subscription to stock of Centennial Board of Finance		5,200 00
Preferred stock scrip redeemed in cash		117 18
Increase of assets		13,821 29
Total, as above		$62,205 37

For the year ending December 31, 1874, the earnings were $529,886 80, the expenses $288,139 71, and the net earnings $241,747 09. The payments in that year were: for interest on bonded debt, premium on gold, etc., $83,715 55, and for dividends, (7 per cent on preferred stock and 3½ per cent on common stock), $71,869—a total of $155,584 55, leaving a balance of $86 162 54, which added to the balance at the close of 1873, give the total as in General Balance Sheet of $174,864 84. It will be seen that the gross earnings show an increase in the past over the previous year of $18,605 70, with an increase in expenses of $52,710 76, making a decrease in the net earnings of $34,105 06. The report says:

It is gratifying to state that we enter the coming year without any material floating debt, after having purchased 1,134 tons of iron rails and 202 tons of steel rails, and having had 207 tons of old rails rerolled, and made considerable outlay for a commodious ferry-house at Vine Street wharf. Under the circumstances, we may congratulate you that the receipts from our road have not only kept up with all previous years, but have been somewhat in excess of them, showing, under more favorable circumstances, what we may expect in the future, when trade and commerce revive, as we must soon look and hope for them to do, from the energy and enterprise of the people of our country.

The company have 12 locomotives, 8 first-class, 19 second-class and 25 third-class passenger, 2 smoking, 2 mail, 47 house, 68 flat, 3 timber and 18 (4-wheel) lime cars. The total mileage of locomotives was 285,143, divided as follows: main line, 225,413; May's Landing Branch, 9,780. The main line mileage shows an increase of 6,238 miles over 1874. The average cost per mile for repairs, fuel, wages, oil, tallow and waste was 20.91 cents. The superintendent in his report says:

The expenses of the roadway department, compared with 1874, are as follows:

	Renewal of iron rails.	Ordinary repairs.	Total.
1875	$52,081 03	$48,846 23	$100,927 26
1874	28,693 03	38,420 04	67,113 07
Increase.	$23,388 00	$10,426 19	$33,814 19

1,106 tons of new iron rails and 207 tons of rerolled iron were put in the track, a total of 1,313 tons against 695½ in 1874. 885 tons of old rail were cut and relaid. 20,857 cross-ties were bought during the year; there were 1 518 on hand at the first of the year, making in all 22,375; of this number 308 were used in the car department for repairs, etc.; 20,820 were used for track repairs and new sidings, leaving 1,647 on hand at the close of the year. 588 switch ties were also bought. Twelve steel rail frogs and twelve cast-iron steel-faced frogs were put in the track in place of the same number of the iron frogs heretofore used—the greater durability and safety of these frogs will amply repay the company for the increased first cost. A new steel rail crossing was put in at the crossing of the Amboy Division of the Pennsylvania Railroad, in place of the iron crossing, which was entirely worn out.

The track over the meadows, between Absecon and Atlantic, has been thoroughly overhauled, raised up out of the reach of the ordinary high tides, and staked and embanked on the landward side.

The general condition of the roadway is very good, and it is rapidly approaching a first-class condition.

The only portions of the road in which the old U rails still remain are, the track in Camden yard, between forty-third and forty-seventh mile posts, and from Absecon to Atlantic City, being about twelve miles, exclusive of Camden yard. The remainder of the line is laid with fifty-seven and fifty eight pound iron T rails. We have 200 tons of sixty pound steel on hand to put in during the coming year.

The number of tons of freight carried during the year was 113,731; do. carried one mile, 2,871,391. Number of passengers carried, 502,690.

CONDENSED BALANCE SHEET, December 31, 1871.

President.—ANDREW K. HAY.

Directors.—Andrew K. Hay, Anthony J. Antelo, W. Dwight Bell, John Lucas, James B. Dayton, Enoch A. Doughty, Thomas H. Dudley, William Massey, Charles R. Colwell, Samuel C. Cooper, William C. Allison, George T. DaCosta.

Secretary and Treasurer.—D. M. ZIMMERMAN.

Superintendent.—F. A. LISTER.

☞ The Northeastern Railroad, extending from Belton, a point on the Atlantic and Richmond Air-Line Railroad, to Athens, Ga., was completed on the 14th inst., and an excursion train passed over the entire line. Athens is a terminus of the Georgia Railroad (Augusta and Atlanta.) The Northeastern Railroad is the same gauge as the Richmond and Danville and Atlanta and Richmond Air Line. Belton is 67 miles east of Atlanta, and the distance from Richmond to Atlanta by this line will be 520 miles.

☞ A despatch from San Francisco says that advices from Los Angeles state that daylight was let through the San Fernando tunnel on the 15th. This is the longest railroad tunnel in the United States except the Hoosac, and the last completed of eighteen on the line of the Southern Pacific

Railroad between San Francisco and Los Angeles. By the connection of the now separated lines through the big tunnel there will be a continuous railroad from San Francisco nearly to Fort Yuma, a distance of over 600 miles.

Commerce of New York.

The foreign imports at New York for the month of June, 1876, are officially stated as follows:

	1875.	1876.
Entered for consumpt'n.	$9,211,056	$8,065,972
Do. for warehousing....	10,322,510	6,861,930
Free goods.....	7,447,296	5,682,205
Specie and bullion.....	1,126,920	498,680
Total entered at port...	$28,107,782	$21,108,987
Withdrawn fr. wareh'use	6,732,115	6,518,509

The foreign imports at New York for six months from January 1, were:

	1875.	1876.
Entered for consumpt'n	$79,295,382	$65,265,116
Do. for warehousing...	55,179,524	47,741,080
Free goods.....	50,236,507	43,079,705
Specie and bullion.....	7,540,977	2,251,285
Total entered at port..	$192,252,390	$158,337,186
Withdrawn fr. wareh'se	48,660,956	41,757,396

The foreign imports at New York for the fiscal year ending June 30, were:

	1875.	1876.
Entered for consumpt'n.	$162,538 613	$132,027,678
Do. for warehousing...	94,900,869	81,902,121
Free goods.....	98,485,746	84,635,051
Specie and bullion....	11,437,898	8,148,865
Total entered at port..	$367,363,126	$306,713,715
Withdrawn fr. wareh'se.	96,378,837	89,607,453

The following is a description of imports for the fiscal year ending June 30:

	1875.	1876.
Dry goods.....	$106 501,249	$88,058,966
General merchandise...	249,423,979	210,505,884
Specie and bullion.....	11,437,898	8,148,865
Total imports.....	$367,363,126	$306,713,715

The duties received at New York for the fiscal year ending with June, were:

	1874-'75.	1875-'76.
July.....	$9,654,569 49	$9,273,546 61
August.....	11,802,593 20	11,417,505 51
September.....	11,400,273 11	10,163,829 28
October.....	8,678,567 56	8,208,816 27
November.....	6,364,435 53	7,034,576 89
December.....	6,312,995 27	5,349,574 79
January.....	8,072,846 12	8,160,728 44
February.....	11,811,046 95	9,473,003 56
March.....	10,323,619 78	10,237,275 36
April.....	9,603,087 82	7,764,457 04
May.....	7,474,171 61	7,575,997 28
June.....	6,656,462 06	6,619,735 25
Total.....	$108,154,668 50	$101,278,545 78

The exports from New York to foreign ports in the month of June, were:

	1875.	1876.
Domestic produce.....	$23,403,223	$22,060,231
Foreign free goods.....	129,802	97,494
Do. dutiable.....	783,617	1,013,637
Specie and bullion.....	17,679,494	4,839,205
Total exports.....	$41,996,136	$28,010,567
Do. exclusive of specie.	24,316,642	23,171,362

The exports from New York to foreign ports for six months from January 1, were:

	1875.	1876.
Domestic produce.....	$117,188,914	$118,810,717
Foreign free goods.....	1 300,257	1,650,759
Do. dutiable.....	3,028,397	3,595,853
Specie and bullion.....	50,355,338	28,626,333
Total exports.....	$171,872,906	$152,683,662

Specie and bullion.....	81,958,900	45,827,645
Total exports.....	$343,984,992	$304,829,574
Do. exclusive of specie.	262,026,092	258,001,929

Lumber Product of the United States.

Colonel Chas. D. Robinson, of the Green Bay Advocate, has been long engaged in preparing statistics, showing the entire lumber product of the United States for a single year—that of 1875. He states that the following estimates of the lumber product are as nearly correct as can be obtained:

States.	No. of feet.
Michigan.....	2,746,866,181
Wisconsin.....	1,035,576,900
Minnesota.....	342,623,171
Mississippi River.....	291,487,000
Pennsylvania.....	263,225,000
New York.....	10,680,000
Maine.....	45,344,000
Georgia.....	17,750,000
Florida.....	26,300,000
Alabama.....	7,500,000
Pacific Coast.....	362,000,000
Total feet.....	5,149,352,000

These figures estimate the product of the main mills of the chief lumbering points along the coast and inland waters where lumber is made for shipment and wholesale trade, and do not include the inland mills, which supply the local and country trade, which Mr. Robinson estimates to be 10,000,000,000 (ten thousand million feet) as the product of the United States for a year. That amount of lumber would load every year 1,424,242 railroad cars, each carrying 7,000 feet—an average car load—and would make a train 8,500 miles in length, or over one-third around the globe.

Washington City, Virginia Midland and Great Southern Railroad.

At Warrenton, Va., on Friday, July 14th, Judge Keith, in chambers, in the suit of Graham and others vs. the Washington City, Virginia Midland and Great Southern Railroad Company and others, pending in the Circuit Court for the city of Alexandria, appointed John S. Barbour, president of said company, the receiver thereof. The Alexandria Gazette furnishes the following particulars of the proceedings in the case:

This suit was instituted in the Circuit Court of Alexandria on the 17th of June last by John C. Graham, the owner of certain mortgage bonds of the railroad company, in behalf of himself and other creditors of the road, for the purpose of collecting his bonds, and asking for an injunction restraining the officers of the road from further exercising any control over its property, and for the appointment of a receiver to take charge thereof under the orders of the court. It appeared, on the motion made before the Judge by the complainant in the suit for the receiver, that notice of the motion had been duly served on the trustees of the several mortgages of the Virginia Midland Railroad Company, and the companies constituting this company, all of whom were represented by counsel at the hearing of the motion; also bondholders, representing over four million of the mortgaged indebtedness, had become parties to the suit by petitions filed in the cause.

Among these were embraced nearly all of the bondholders of the towns and counties along the line of the road, as well as the cities of Lynchburg and Danville and the county of Pittsylvania, the owners of a large amount of the stock of the company, acting under their proper boards. Thus it was that a majority of the whole indebtedness of the road and nine tenths of the stock of the company were represented in the suit. Accompanying the petitions of the parties were written requests that John S. Barbour, Esq., should be appointed receiver if the court saw fit to make any appointment. It was brought to the attention of the judge on the hearing of the motion that a similar suit had been instituted in the United States Circuit Court on the 19th of June, a few days subsequent to the institution of the proceedings in the State Court. There is a universal sense of gratification at the above result—that the control of this matter, of such general interest should be retained in our State courts, and under their orders, in hands that guarantee the faithful and economical administration of the affairs of the road.

Cincinnati Southern Railroad.

At the regular monthly meeting of the directors of the Baltimore and Ohio Railroad Company, held in Baltimore on the 12th inst., Mr. John W. Garrett, President, gave a sketch of his recent trip of 7,000 miles over the connections of the Baltimore and Ohio railroad to the Pacific. He stated the prospects for increased business, in view of the great advantages of the port of Baltimore and its geographical location to the cities of Chicago, St. Louis, Cincinnati, Louisville, &c.

He called attention to the fact that the Cincinnati Southern road would be open for one hundred and sixty miles from Cincinnati to a point south of Danville, Ky., by January 1 next, and that it was expected by the trustees that the entire line from Cincinnati, through Kentucky, to Chattanooga, Tenn., 338 miles, would be completed by July 1, 1877. The city of Cincinnati has already appropriated $16,000,000 to the construction of this work.

From arrangements in progress he anticipated a large business with the Central Pacific and Union Pacific railways in teas and other goods from China, through San Francisco, via Baltimore to Europe. Also through changes of tariff by the Pacific railways of large business from local points east of the Pacific coast, especially of ores, bullion and general merchandise and live stock.

The relief from the present depression in the business of the country and a restoration to its normal condition will, he said, realize such a flow of advantages and permanent developments as cannot fail to advance the interests and prosperity of our people with extraordinary rapidity.

☞ The Navy Department has issued an order to stop all work on the monitors now being built by the Harlan & Hollingsworth Company, Wilmington; John Roach & Son, Chester; William Cramp & Sons, Philadelphia, and J. F. Rowland, New York. This was rendered necessary because no appropriation has been made by Congress to continue the work.

☞ The Pennsylvania Railroad Company have commenced running steam passenger trains from Sixteenth and Market streets to the Centennial grounds. Eight trains daily each way are run. They are drawn by small shifting engines and run at a moderate speed until after they cross the bridge.

☞ The Coshocton (Ohio) Age says that a large force of workmen are engaged in building the Massillon and Coshocton Railroad.

Railways of Europe.

The Railways of Europe in Operation: by C. L. C. Hochsteyne, ex-official of the Direction-General of the Grand Central of Belgium Railway.

In the above work M. C. L. C. Hochsteyne has compiled in a very comprehensive form what may be called a general Directory and handbook of all the Railways in Europe. M. Hochsteyne divides his book into two parts. In the first he gives an alphabetical list of all the Railway Companies working or in construction in Europe, and also in the same order a description of the different Companies and groups of Railways on the Continent and the United Kingdom, with the names of the members of their several Boards of Direction and administrative staff. The names of the stations upon the several lines, with the progressive distances between each, are likewise given in this part of the work, and also information as to the geographical position of each line, and the name of the working Company. This portion of the book contains 431 pages of letterpress, and deals with no less than 992 railways. The second part of the work gives an alphabetical list of the several stations, and exchange of traffic junctions, etc. A copious vocabulary giving the pronunciation of the stations in the principal languages in Europe. Alphabetical tables are also appended of all the stations, and of the several functionaries and officials attached to the different Companies. The book, upon the whole, is a most comprehensive and useful volume of reference. The information is stated to have been compiled from authentic and official sources, and as a first year's publication the entire work reflects credit on the compiler, M. Hochsteyne, who has evidently taken pains to render the work as complete as possible.

Kansas Pacific Railroad.

The following is an abstract of the report of this company for the year ending December 31, 1875. The length of road operated during the year remaining the same as in 1874, viz: 678 miles.

EARNINGS AND OPERATING EXPENSES.

Freight earnings:	
Ordinary	$2,090,844
Government	66,824
	$2,157,168
Passenger earnings:	
Ordinary	$885,678
U. S. troops	47,802
Expresses	115,386
U. S. mails	124,381
	1,173,247
Miscellaneous	33,345
Total earnings	$3,363,760
Expenses:	
Conducting transportation	$497,823
Motive power	525,454
Maintenance of cars	159,303
Maintenance of way	488,481
General expense	124 819
	1,790,880
Earnings over operating expenses	$1,572,880
Distribution of gross earnings:	
Government	$238,507
Other	3,125,253
Total	$3,363,760

As the Government refuses to pay in cash for any part of the service rendered, but withholds the whole, no part of that portion of the earnings is available, at present, towards paying expenses or discharging the obligations of the company.

The following shows the detailed comparative earnings, from 1870 to 1875, inclusive:

	1870.	1871.	1872.	1873.	1874.	1875.
Freight	$2,242,419	$1,980,289	$2,294,209	$2,077,169	$1,965,655	$2,157,168
Passenger	1,078,602	1,285,748	1,339,560	1,424,861	1,392,948	1,173 247
Miscellaneous	39,763	46,480	89,863	61,268	58,146	33,345
Total	$3,360,786	$3,312,517	$3,728,713	$3,563,299	$3,356,749	$3,363,760

The following shows the comparative expenses, by departments, from 1870 to 1875, inclusive:

	1870.	1871.	1872.	1873.	1874.	1875.
Conducting transportation	$658,586	$625.209	$615,865	$559,426	$466,215	$497,823
Motive power	876,765	721,361	719,534	665,684	512 638	525,454
Maintenance of cars	220,752	200,545	176,322	193,046	141,871	159,303
Maintenance of way	592,526	601,979	604,261	596,634	419,182	488,481
General expense	137,410	153,493	118,280	102,198	141,138	124,819
Total	$2,480,040	$2,302,589	$2,229,265	$2,116,990	$1,671,045	$1,790,880
Percentage, exclusive of taxes used in operating	73 79–100	69 51–100	59 87–100	59 41–100	49 78–100	53 53–100

By these statements it will be seen there was an increase in gross earnings in 1875 of $7,011; an increase in expenses of $119,885; and an increase in net earnings of $112,824.

The net receipts from sales of land during the year amounted to $129,669. The average per acre was: gross, $3 56; net, $3 38. Number of acres sold, 36,613. The lands remaining unsold at the end of the year were 2,047,437 acres in the Kansas Pacific Land Trust, and 2,948,666 acres in the Denver Extension Trust.

A statement is given of the progress made in funding the deferred interest on the bonds of the company into coupon certificates, showing that of the $16,068,000 outstanding, $14,025,000 have been funded, leaving unfunded the sum of $2,043,000. The report says:

Our relations with the Government remain unchanged. Notwithstanding the Supreme Court of the United States has decided that the Government can rightfully retain but one-half the amount of service performed by the Pacific roads, yet the Departments refuse settlement. Their failure and refusal to do so has been a source of much disappointment and embarrassment to your Board of Directors. The amount of service performed and unsettled up to December 31st, 1875, was $783,098; one-half of which, or $391,596, should be paid to your company in cash. The suit by the Government against the company for five per cent of the earnings, mentioned in the report of last year, remains yet untried.

So many minor points are yet required to be adjusted in our arrangements for consolidation with the Colorado Central R. R. Co., that its consummation has been delayed until the present time. It is desirable to finally perfect it without further delay, and file the articles, as required by law; immediately upon doing which, the two companies will become one corporation. To this end you will be asked to ratify and confirm the articles as they have been prepared.

During the past year, the Arkansas Valley Railway has been extended up the Arkansas River about twenty miles, and a station established there, called La Junta. Your board deem it of the greatest importance to every interest of your company, that this line shall be further extended, this season, to Trinidad—eighty miles south. It is hoped the Junction City and Fort Kearney branch will also be extended from Clay Centre to Concordia, on the Republican River, forty miles, without material aid from your company.

No general balance sheet is given, and no reference is made to the capital stock of the company, which has recently been doubled. The miscellaneous resources and liabilities of the company are as follows:

RESOURCES.

Bonds, stocks, etc., on hand		$1,978,061
Cash in hands of treasurer, auditor, land commissioner, and all agents		205,764
Value of material and supplies on hand		201,298
Bills receivable—		
Land and real estate	$454,142	
Miscellaneous	4,834	
		458,976
Due from foreign roads—		
For labor and material furnished		159,929
Individuals and companies—		
Balances, book accounts		759,299
U. S. Government—		
Unadjusted balances	$783,093	
Less 50 per cent to be retained by U. S. Government account, interest on U. S. bonds	391,546	
		891,546
Total		$4,154,876

LIABILITIES.

Bills payable—		
Accommodation and business paper		$1,541,300
Land scrip notes, $10,915; pay checks, $137,297		148,212
Accounts payable—		
Vouchers, $158,264; pay rolls, $98,791.		252,055

" " currency, '75	42,000	
	$2,512,086	
Less payments made on account same	885,684	
		1,626,451
Foreign roads—		
Balances, ticket, freight and mileage		100,672
J. C. & F. K. R. R., as per terms of lease		18,380
Arkansas Valley Railway, as per terms of lease		5,695
Balance		458,516
Total		$4,154,876

The earnings of the Junction City and Fort Kearney Railway were $29,468, the expenses $15,053, and the net earnings $14,405.

The earnings of the Arkansas Valley Railway were $91,911, the expenses $38,331, and the net earnings $53,579.

☞ The Empire Car Works Company, of York, Pa., have received a contract for four hundred freight cars designed for use on the Texas Pacific railroad. The work will commence at once, and will employ several hundred hands for some months.

Intercolonial Railway.

The Intercolonial Railway, so long ago projected, and so long in building, has been open for traffic a few days, and will be formally opened today by the running of express trains from Quebec to St. John and Halifax, and from St. John and Halifax to Quebec. Perhaps no railway route was ever more cordially abused, and perhaps no railway has ever approached completion amid a more nearly unanimous expression of adverse opinion as to its commercial prospects. It is, therefore, especially interesting to note the practical prospects of the work, as indicated by the freight and passenger traffic drawn to it at the beginning, because we are all deeply interested in its success. A member of the News staff went over the road last week, from St. John to Riviere du Loup, where the Intercolonial meets the Grand Trunk, and back, and saw enough to disprove many gloomy predictions. Most of the road looks as though it might be easily kept free from snow; the exposed portions are protected by snow fences, and the principal cuts are securely covered. The road is remarkably straight, often stretching away before and behind the cars until the gap in the trees seems no wider than the hand. There are some long bridges, some very expensive rock cuttings, and some long and high embankments; but the number of these works is not out of proportion to the length of the road, and the route, on the whole, must be considered a favorable one for railway building. From Moncton to Miramichi, 78 miles, the road passes over an almost level and seemingly barren waste, the fire having been the only previous traveller over the region. The country, if good for nothing else, is just the thing for easy railway building. Much of the land is said to be fair, and a few settlers are locating along the route. At Weldford five or six new buildings are going up, and several acres of land are preparing for cultivation. A few patches are chopped at other points, and, in time, much of this portion of the route may be bordered with farms. At present, however, the traveller sees nothing of interest until the great Miramichi bridges are reached, when the noble rivers, the town of Newcastle, and Chatham in the distance, combine to form a picturesque and interesting prospect.

From Miramichi to Bathurst, 44 miles, the country is undulating, the vegetation rich and varied, the scenery attractive, and evidences of civilization considerably more frequent than the stations. At Bartibogue the appearance on a side track of several cars used as family residences by railway employes, attracted considerable attention. Children were playing around the wheels, women standing in the doors, and men sitting outside and smoking. Life in that moving village must be a study for the seeker after the curious phases of civilization.

From Bathurst to Metapediac, 76 miles, the road skirts the Bay Chaleur and the Restigouche, passing through a beautiful and well cultivated farming country, crossing many lovely streams, and affording frequent glimpses of the bay and river with their ships, weirs and boats. The view at Metapediac, 18 miles beyond Campbellton, where the road crosses the Restigouche into Quebec territory, is a charming combination of grandeur and beauty. Hills with precipitous wooded sides and round tops, the passes between them being but little above the water level, nearly enclose the spot, the Metapedia valley forming an opening towards the north and the Restigouche, showing an outlet to the east.

The valley of the Metapedia, which the road traverses for the next sixty or seventy miles, presents many fine views. It is shut in by lofty hills, and possesses a wild beauty that is, perhaps rendered all the more weird by the light of the moon and stars, the trains passing through it each way in the night. The valley is almost uninhabited.

Leaving the valley, the road crosses the water shed between it and the St. Lawrence, winding around rugged hills, crossing high embankments, and passing through deep rock cuttings.

At St. Octave, 88 miles from Metapediac, where the St. Lawrence is sighted, the road winds over a long and high embankment and then enters a deep and roofed rock cutting of great length. A site for a station building is excavating here, there being no level land to be had without excavating or filling. There the signs of ancient French civilization are visible, and the road runs almost uninterruptedly across the narrow farms of the habitants for the 98 miles intervening between St. Octave station and Riviere du Loup.

St. Flavie, 9 miles from St. Octave, is considerable of a village. Rimouski, 18 miles further up the St. Lawrence, is the railway headquarters for the entire section between Campbellton and Riviere du Loup, and the point of departure and arrival of the European mails. A short branch runs down to the pier, where a steamer, built for the purpose, lies ready to intercept the outgoing and incoming steamers. The mails for New Brunswick and Nova Scotia, via the Canadian line, are received 48 hours earlier than formerly.

Otte Bay, three miles from Bic, which is considered a splendid site for a watering place, much more attractive in every respect than Cacouna, has already attracted the attention of speculative capitalists, and may at no distant period be a fashionable resort.

The road hugs the side of Bic Mountain, 280 feet below the top, and about 100 feet above the level of the water, and there is said to be considerable danger from falling fragments of rock. This is the famous diversion that was made for the benefit of McDonald, the original plan being for an embankment that would have made the road bed free from danger.

After passing through the Valley of the Bic and the St. Fabien Valley, broad strips of level land shut in on either side by ranges of low hills, the road sights the river again, follows it for some distance, and then, crossing the base of a small promontory, comes to the St. Lawrence again at the mouth of the Riviere du Loup, and effects a junction with the Grand Trunk.

The time between Moncton and Riviere du Loup, 374 miles, is 21¼ hours, including stoppages, which is pretty good time for a freight and accommodation train.

Not much local traffic has been developed on the Quebec part of the line so far, the Frenchmen having little to send to market and few wants to be supplied by imported articles. But the through traffic offering surprises the most sanguine. On Thursday fifteen loaded cars arrived at Riviere du Loup by the Grand Trunk for the Maritime Provinces, and the train that left that point on Friday had nineteen Grand Trunk cars with loads for various points in New Brunswick and Nova Scotia. The present prospects of the road are, therefore, bright, and there is every reason to suppose that its traffic will increase.—*St. John News, July 5.*

Corrugated Iron.

Specimens of a new style of corrugated iron for building purposes have been submitted by an Austrian engineer named Pitze, to the Austrian Association of Architects and Engineers. The chief novelty in Pitze's patent is the shape of the corrugations; the walls of each being higher than their distance from each other, and having a vertical profile when the corrugated sheet is placed horizontally. This vertical position of the walls of each groove enables the corrugated sheet to bear its maximum load, and thus to fit it for general use in construction. It is being used for roofing in a new building in Vienna, at the corner of the Lichtenauergasse.

☞ The Orange Branch of the Montclair Railway was opened on the 10th inst. This road, formerly known as the Watchung Railroad, was started as an opposition to the Morris and Essex company, but the projectors failed, and it laid idle for a long time, and is now leased by the Montclair Railway Co.

A Home and A Fortune.

The Kansas Land and Immigrant Association, with a Capital stock of $1,000,000, Chartered by the State of Kansas, a most laudable enterprise, started in our city for the promotion of immigration by the free distribution to the shareholders of the Association of $770,800 in cash and some of our most choice and valuable real estate, farms, brick blocks, residences, &c., is meeting with unprecedented success. From every section of the country orders for shares or tickets are coming thick and fast. The inducements offered are unparalleled. There will be *no postponement.* The drawing and distribution of the prizes will take place positively Aug. 25, 1876, or the money will be refunded in full. The managers of this enterprise are gentlemen of undoubted integrity, honesty, uprightness and ability to do exactly what they say. They are gentlemen who are prominent in our State, and whose public and private characters are beyond even suspicion, and the management of this stupendous distribution will be conducted with an impartiality that cannot and will not be disputed.

The Atchison Board of Trade, composed of all the leading business men of our city, at a recent meeting, unanimously adopted the following endorsement:

"Knowing the several persons composing the 'Kansas Land and Immigrant Association' we cordially endorse them as gentlemen of honesty and integrity, and recommend their enterprise as worthy the support of the public."

Every ticket holder will be fairly represented at the drawing. Price of the shares of tickets are put at the low price of $5 each. Parties desiring a more particular description of this meritorious enterprise, inducements offered, terms to Agents, special offer to clubs and purchasers of two or more shares, manner of drawing, references, &c., send their address to S. M. Strickler, Secretary, Atchison, Kansas, and they will have mailed them free an elegant four page illustrated paper "The Kansas Immigrant," describing the enterprise and the advantages and resources of Kansas, &c. Send for it.—*From the Atchison, Kan., Dailg Patriot.*

Scioto Valley Railroad.

The Ohio State Journal says that the earnings of the Scioto Valley Railroad for June increased fifty per cent. over May. The earnings for July, with the increased length of road to Chillicothe, are making material increase in the income of the road. The passenger travel is good, and the amount of freight carried is much larger than was at first anticipated. The Journal adds:

Two corps of engineers are out on the road—one running a line on the coal branch, and the other on the main line below Chillicothe. The coal branch will probably come in near Circleville—at least that is the intention at this time. The engineers on the line below Chillicothe have reached Portsmouth. The line, as surveyed, runs on the west side of the Scioto river, leaving Waverly about two miles to the east.

☞ The Tehama Tocsin of June 29th says the track is laid for thirty eight miles on the road from Woodland to Williams, which latter point is eight miles west of the town of Colusa. That completes the work of the Central Pacific Company on the west side of the Sacramento valley for the season. The road from Ione to Galt, thirty miles, will soon be completed, and that from Oakland Point to Berkely, nine miles also. This will probably complete the season's work of the Central Pacific Company, which will thus have built about 216 miles of road in California in 1876, and if we estimate the average cost at $30,000 per mile, we have a total expenditure of $6,000,000 for the construction account of the year.

Railways in Central Asia.

Colonel Venyukoff, the Russian official geographer, sends to the *Invalide Russe* the following account of the contemplated railway lines in Central Asia:

Railways now-a-days have such strategical and political importance that the direction of new lines is everywhere made dependent upon the consent of the War Office. The more a line seems to affect political and international interests, the greater the necessity of adapting it to strategical demands. Perhaps the most important of all questions of this nature that could have arisen in Russia refers to the lines intended to connect the European and Asiatic portions of the empire. Government, recognizing the gravity of the matter, adopted preliminary measures for the construction of the Siberian and Turkestan lines, and a short survey of the various schemes submitted will be interesting.

Beginning with our south-eastern frontier, it has been proposed to carry a line from the Trans-Caucasus through Gilan, Mazanderan, Khorassan, Seistan and Beloochistan to the mouth of the Indus. This line, which from Poti to Shikarpur would traverse a distance of 3,480 versts, has not many to speak in its favor. Its advantages would be these: It would connect India with the European sea nearest to it. It would only pass through fertile and well watered lands. It would join the rich regions of the Trans-Caucasus and the Caspian Provinces of Persia to the great markets of the world. It could be constructed without the inconvenience of crossing great rivers or high ridges of hills. But these advantages are counterbalanced by considerable drawbacks, which, taken together, are so serious that there is no chance of the line being laid down in our day. A distant future may see it realized.

Another line from the eastern shores of the Caspian to India might be projected in two different directions. It might either follow the course of the Attreck, through Seidan to Meshed, or proceed from the Balkan Bay (Krasnovedsk) to Kizil Arvat, and farther on along the northern slopes of the Keit Dag hills to the Turcoman forts, where the country is well watered and perfectly habitable. Both lines would meet in the valley of the Gerirud, at about 1,000 versts from the Caspian, whence their direction coincides with that of the Khorossan line.

The third project, confining itself to Russian soil, connects Krasnovodsk with Khiva. From a strategical point of view, this line can never be important.

The fourth line is the one projected two years ago by M. Baronovski. It proceeds from Saratov, crosses the river Ural somewhere near Kalmikoff, and going on to the Emba, ascends the Urst Urf, and reaches the Khiva oasis by the western shores of the Aral. From Khiva it follows the Oxus, and makes for the Hindoo Koosh by Balkh. It was proposed that this road, which from Saratov to Balkh would be 3,100 versts long, should be international; that the Hindoo Koosh should be tunneled; and that Attock should be reached through the Valley of the Kabul Darya. This project cannot stand the test of serious discussion. Traversing Russian territory chiefly, this line would never attract a large amount of English merchandise, now that the Suez Canal has become a fact. The same remark applies to other Central Asiatic lines projected by MM. Lesseps, Barraud, etc.

Turning to the north-east, we come to a region the favorite haunt of projectors. Many imaginary lines have been laid down through the Kirghiz steppes to Turkestan. The schemes announced are in three directions — Orenburg, Kasalinsk, Tashkend; Orenburg, Turgai, Djulek, Tashkend; Yekatarinburg, Troitsk, Diulek Tashkend. It must not be forgotten that all these would be Steppe lines—that is, lines traversing uninhabited regions, supplying comparatively few freights, and exposed to snowstorms likely to hinder traffic in winter. Yet there is no denying that Russia has to construct these railroads. She wants them to secure her hold upon Turkestan which she would else have to fill with troops, daily becoming more expensive. She will get part of her outlay refunded by promoting her trade with Central Asia; though it is none the less desirable that everything should be done to cut down the expenses of the line. A narrow gauge, rolling stock of a light description, the reduction of stations to a minimum, and the putting up of *yurts* (Khirgis tents of black felt) instead of guards houses in the Steppe—all these are economies imperatively required. The wish to reduce the expenditure has divided the partisans of the East Tashkend line into two camps —the Orenburg and the Yekatarinburg Troitzk faction. Both have given us an estimate of their cost, and both, in the absence of exact surveys, have failed to persuade us of the relative superiority of their propositions. Thus much, however, may be safely said—that the Orenburg-Tashkend route is strategical as well as commercial, while the Yekatarinburg Tashkend line is principally commercial. The latter line, if the Siberian line is once carried across the Ural mountains, may not produce any very considerable deficit; the former will be, no doubt, costly, but will do us important service in the event of a political crisis in Central Asia. The first must be constructed by the Government; the second, as it may prove lucrative, should be left to private persons unassisted by Government guarantees. A definite decision on all this will be arrived at by the special commission appointed by the Ministry of Communications.

After a few words upon a proposed railway from Tashkend to Akmolinsk, Semipalatinsk, Vernoye, and Dzungaria, the writer turns to the plans of MM. Lesseps and Barraud:

The project of MM. Lesseps and Barraud can hardly be seriously entertained. M. Lesseps crosses the Himalaya and Thian-Shan, tunneling no less than eight ridges, each over 10,000 feet high; M. Barraud combines a whole network of Turkestan railways with the irrigation of the Steppes, for which he requires a loan of 180,000,000 roubles—a sum which would cost us very dear, if it could be raised for the purpose; and this when M. Barraud's estimates are obviously much too low. To wind up our remarks upon Central Asiatic lines, one may safely say that Russia for a long time to come will be satisfied with a system whose centre is Urkatsch, and whose circumference is marked by Orenburg, Yekatarinburg and Tashkend. Any railway that may be constructed in the interior of Turkestan—as, for instance, from Tashkend in the direction of Kokhand and Samarcand—will be of merely local importance. Only if our possessions should come to include the entire Aral-Caspian Basin would the extension of our lines to the frontier acquire political significance. As to our Asiatic lines ever becoming international railways, this is improbable, except, indeed in the direction of China.

The author then discusses the various projects for laying down railways in Siberia; but none of these will be taken in hand before the completion of the European Siberian line Yekatarinburg-Tumen, (335 versts). As to the Orenburg-Urkatsch line, which is the first section of the Orenburg-Tashkend line, it will probably be begun in the course of the year.

☞ Tracklayers are at work on the Cincinnati Southern road south of Nicholasville, Ky., and large quantities of rails are being shipped thither by the Kentucky Central.

☞ Judge Keith, in chambers at Warrenton, Va., has appointed John S. Barbour receiver of the Virginia Midland railroad in the suit of Graham and others, entered at Alexandria on the 17th June.

The First Chinese Railroad.

The works of the Woosung Railway, as the railway approaches completion, have fairly roused the curiosity of the Chinese of all classes. During the past week, but especially since Sunday, they have each day flocked literally in thousands, not only from the settlements and native city, but also from the villages and districts for miles around, along its whole length. The streams of visitors are incessant from morning till night, and hundreds of jinrikshas, wheelbarrows and other vehicles, all occupied, throng the route to and fro. Yesterday afternoon (March 29), for instance, the road was almost impassable, so great was the crush. The visitors comprised men, women and children (the latter in large numbers), and all seemed anxious to see and understand what the foreigners were doing. The great centre of attraction was the little "Pioneer," now engaged in running trucks of pebble ballast for the purpose of filling in the interspaces of the sleepers; and wherever the engine came to a stop, it was instantly surrounded by dense crowds, who gazed at it with wonder, those nearest examining every part of its visible machinery with attention, and talking and gesticulating with an earnestness that must be seen to be believed, strongly reminding one of the excitement evinced by the country people, especially during the days of railway construction in England. Preparatory to starting on its brief journeys, the "Pioneer's" whistle was, of course, sounded, and it was amusing to witness the crowd hurrying off in all directions, amid shouts of laughter and other tokens of unmistakable delight and approval, to make way for it. It may credibly be asserted that such a sight has never been witnessed in China before; and it affords clear proof that, so far as the people are concerned, there would be no obstacle in the general adoption of this mode of transit throughout the empire. —*North China Daily News.*

The Coal Trade.

The coal tonnage for the week ending the 8th inst., as reported by all the companies, amounted to 178,004 tons, against 441,618 tons in corresponding week last year, a decrease of 263,614 tons. The total amount of anthracite mined for the year is 7,882,337 tons, against 7,408,069 for same period last year, an increase of 474,268 tons. The quantity of bituminous coal sent to market for the week was 65,381 tons, against 72,452 tons for corresponding week last year, a decrease of 7071 tons. The whole bituminous tonnage from the beginning of the coal year is 1,749,141 tons, against 1,678,523 tons in corresponding time last year, a decrease of 75,618 tons. The total tonnage of all kinds of coal for the week is 243,385 tons, against 514,070 to corresponding date last year, a decrease of 270,665 tons, and the total tonnage for the coal year is 9,631,478 tons, against 9,081,592 tons to same date last year, an increase of 549,886 tons. The quantity of coal and coke carried over the Pennsylvania Railroad during last week was 84,548 tons, of which 69,189 tons were coal and 15,359 tons coke. The total carried this year is 2,054,080 tons, of which 1,693,882 were coal and 360,256 coke. This total embraces all the coal carried over the road, east and west. The receipts of coal at Perth Amboy for the week ending on the 8th instant were 4814 tons, against shipments in the same time of 12,076 tons, leaving on hand 79,421 tons. Freights thence to Boston, 90 cents; Hartford 85 cents; New York, 40 cents. —*Phila. Ledger, July* 17.

☞ The directors of the North High Street (Columbus, Ohio) Railway Co., recently elected, are: W. Neil Dennison, John Short, L. Donaldson, W. A. Hershiser, G. A. Frambes, H. M. Neil, and A. H. Fritchey.

☞ The Los Angeles *Herald* says that Indian Wells is now substituted in the time-table of the Southern Pacific Railroad in place of Seven Palms as the terminal station.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

American Railroad Journal.

Saturday, July 22, 1876.

Financial and Commercial Affairs.

Money has been very plenty all through the week. Responsible borrowers have experienced no difficulty in providing for their immediate wants at the low rates of 2@3 per cent on call, and 4@6 per cent per annum in the discount form. From all sources the inquiry for accommodation has been on a restricted scale, as well for speculative purposes as for mercantile use. The City banks report less demand for aid from their customers, and this is reflected in their latest return of loan and discount averages, which showed a falling off of nearly millions in this item for the week. The city bank deposits have been increased about half a million. The legal tender item has been enlarged over 1¼ million. The specie reserve has been reduced nearly to the same extent. A further contraction of the item of circulation is noted. The Government office here reports a reduction in its reserves, as the result of the week's movements, of over two millions in the currency, and nearly 1¼ millions in the specie balances. National Bank notes received at the Treasury Department last week for redemption were to the amount of $4.764,000. The City Banks have had their deposits again augmented $463,400; and their legal tender reserve $1,296,300. The specie average has been cut down $1,210,000. The loan and discount item was contracted $2,692,200. The circulation $121,300. The U. S. Sub Treasury in this city closed the week with a currency balance of $32,142,813 against $34,250,523 the preceding week; and a coin hoard of $33,525,991 against $35,282,595 on the previous return. The City bank exchanges in currency reached

$328,625,493, or a daily average of $54,770,915. The customs revenue of the port during the week was $1,763,000.

The City banks reported their average of gold last week at $22,440,100, and their greenback average at $54,677,500. Their deposits stood at $224,167,500. The loan item was $252,961,100. The circulation was $15,442,300.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $21,075,725 as against $21,105,777, the preceding week.

The aggregate of the outstanding U. S. currency, of all denominations, July 1st was $404,723,601. The outstanding amount of legal tender notes is $369,772,384. The National bank circulation is now $329,519,184, including $2,099,190 of national gold bank notes.

On Tuesday of this week the cash balances of the Treasury Department at Washington were: of Currency $11,761,105; special deposit of legal tenders for the redemption of certificates of deposit, $33,705,000; Coin, $61,535,708; Coin certicates, $30,567,700.

The week's import entries of Foreign Merchandise at New York were $5,871,584, including $911,530 of Dry Goods.

The income of the Government from internal revenues thus far in the current fiscal year, commencing with July 1, 1876, has been about 9 millions; and from Customs, 7 millions.

Gold has been devoid of life, in the speculative dealings, and the price has varied very little through the week. The customs demand for coin has been moderate. The export drain has been somewhat heavier. The extremes of the price during the week have been 111⅜@111¾, closing on Wednesday at 111⅜, as against 111¾ on Wednesday of the preceding week. The specie outflow last week was $2,675,878 against $1,486,900 the previous week. The imports of specie at this port last week were $115,542, and since January 1st $2,441,630 as against $7,687,147 same time last year. The customs demand for gold last week averaged $293,833 per day. Foreign Exchange has been quoted generally firm, though without notable activity. Bankers sixty day bills on London closed on Wednesday at $4 88@$4 89; sight bills on London at $4 90@$4 91 to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $5,882,961. The week's imports of Dry Goods and general merchandise were to the specie value of $5,371,584 as against $6,641,229 the corresponding week of 1875.

Government Securities have been in active demand on investment account at generally firm and, toward the close, buoyant prices. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $340,922 850.

U. S sixes of 1881 closed on Wednesday of this week (ex July coupon) at 120¼@120⅜; U. S. Five-Twenties of 1865, at 116¼@116½; U. S. Five-Twenties of 1865 consolidated, (ex July coupon) 117⅝@117⅞; U. S. Five-Twenties of 1867 119⅝@119⅞; U. S. Five-Twenties of 1868, 121⅜@121⅞; U. S. Ten-Forties at 118¾@119; U. S. Fives of 1881, (Funding Loan) 117¾@118; Six per cent. currency Sixes 125½@126.

State and Railway bonds have been more sought after on investment account and prices of the more substantial loans have been quoted stronger. And in the line of Railway and Miscellaneous share property a moderate show of activity has been apparent with prices quoted variable through the week, leaving off, as a rule, heavily.

General business has been moderately active in the line of domestic produce, but at lower prices in nearly all instances. Foreign merchandise has been, as a rule, comparatively quiet and depressed. Sugars have been exceptionally active, at higher figures for both raw and refined. The Metal trade has been somewhat brisker, but without improvement as to values. Of the important sales were 300 tons new Iron Rails, and 6,000 tons new Steel Rails on p. t.; and 1,200 tons old T Rails, part at $21 50. Eglinton Pig Iron quoted here at $27 50@$28; Glengarnock $28 @$29; Coltness $29 50 @$30 50; No. 1 American Pig at $22@$23; No. 2 do. at $20@$21 50; Forge $18@20; American Rails at works $42 50@$45 00; Old Rails $21@$22. Wrought Scrap 28. Ocean freights have been more active quoted generally firmer. with the main demand reported for accommodation for Grain, Petroleum, Provisions, Tobacco and Cotton.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—Cleveland and Toledo 7s, S. F., 107; Canada Southern 1st mort., coupon on, 55; Winona and St. Peter 2d mort., 75; Cincinnati, Hamilton and Dayton 7s, consol, S. ☞ The amount of subsidiary coin paid out since the passage of the act providing for the redemption of fractional currency is $11,748,931. Of this amount $3,962,852 was paid out in exchange for greenbacks and $7,786,079 in exchange for fractional currency. The amount of silver on hand to date is $6,058,120, and the amount of fractional currency outstanding to date is $33,915,975 39. The new Silver bill provides for the issue of $50,000,000 in silver coin. Add to this $6,058,120, the amount of silver coin now on hand, and a total is given of $56,058,120.

☞ The whole line of the Southern Maryland Railroad, from Washington City to Point Lookout, at the confluence of the Potomac river and Chesapeake bay, has been placed under contract to be completed for operation by the 1st of January next. The completion of this road in connection with a line of steamers from Point Lookout to Norfolk, will greatly reduce the time between the latter city, Washington and Baltimore.

☞ The durability of car wheels was shown the other day when a set was taken from beneath the baggage cars of a California and Oregon express train at Sacramento. The wheels had traveled, in daily use, 91,800 miles, and were then not worn out, but had become loose on the axle.

☞ The Pennsylvania Railroad Company are about making arrangements to straighten their road bed at the gap in Lancaster county. Whether to do it by means of a tunnel or otherwise is the question under consideration.

Suez Canal.

At the meeting of Shareholders in Paris last Tuesday, M. de Lesseps referred to the early opposition of England to the canal, and eulogised the foresight of the present English Government, headed by Mr. Disraeli, in the purchase of the Khedive's 176,602 shares. Three English Directors to represent the English Government were added to the Canal Board, namely, Colonel Stokes, Mr. Rivers Wilson, and Mr. E. J. Standen.

A dividend was declared of 1f. 88c. per share.

The total receipts of the Canal in 1875 were 30,827,194f.

"An English ship, the Hankow, by passing from one sea to another with a draught of eight metres 47 centimetres, has shown the perfect condition of the Canal. In 1875 1,494 ships passed through the Canal.—*Herapath, July* 1.

☞ The Eastern Railroad Company give notice that a mortgage from that company to William C. Rogers, William B. Bacon and Willard P. Phillips under the Act entitled "An Act for the relief of the Eastern Railroad Company and the securing of its debts and liabilities," being Chapter 236 of the Acts of Massachusetts of the year 1876, has been duly executed and recorded according to the provisions of said Act. All creditors of said corporation are notified to present their claims to said corporation, or to said trustees at their office No. 60 Devonshire street, in Boston.

☞ The directors of the Boston, Winthrop and Point Shirley Narrow Gauge Railroad Company, elected on the 3d inst., are: John L. Butman, Clarence A. Parks, William A. Maynard, Joseph A. Harwood, Franklin Mead, John M. Burt, J. Wingate Thornton, Edward Magee, Samuel G. Irwin, David P. Matthews, E. S. Reed, Herman B. Tewksbury, E. G. Allen. James R. Nute, Charles H. Smith. At a subsequent meeting of the directors John L. Butnam, of Fitchburg, was chosen President; Clarence L. Parks, Vice President; Frank H. Hills, Treasurer, and E. G. Allen, Clerk.

☞ Warrants were drawn on the 13th inst. by the Governor and Council of Massachusetts on account of the construction of the Troy and Greenfield Railroad and Hoosac Tunnel, amounting to $253,930 66. This includes the last draft upon he Treasury for the completion of the tunnel. The through trains commenced running on Monday. A telegraph line has been run through the tunnel, and guards are now stationed at each entrance so that all persons are prevented from walking into the tunnel.

☞ A narrow gauge Railroad is projected from Truckee to Sierra Valley. Initiatory steps, such as running and locating the most feasible line, have already been taken by interested parties. This railroad, if completed, will skirt the lofty ridge that forms the western summit of the Sierras pass close to the Meadow Lake mines and Webber and Independence lakes.

☞ The St. Mary's (Md.) Beacon says the Southern Maryland Railroad Company "seems to have gone honestly and earnestly to work, and we now really anticipate that a connection by rail between Point Lookout and the cities of Washington and Baltimore will be accomplished within a reasonable time.

☞ Work on the Manchester and Keene (N. H.) Railroad was commenced at Keene on the 12th inst.

CORNWALL CANAL ENLARGEMENT.

NOTICE TO CONTRACTORS.

SEALED TENDERS addressed to the Secretary of Public Works, and endorsed "Tender for the Cornwall Canal," will be received at this office until the arrival of the Eastern and Western mails, on WEDNESDAY, the NINTH DAY OF AUGUST NEXT, for the formation of a new entrance—south of the present one—at the lower end of the Cornwall Canal, embracing the construction of two Lift-locks, Waste-weir, &c.

The works will be let in one section, as indicated on the map of that part of the line, which, together with plans and specifications of the various works, can be seen at this office, and at the office of the Canal Superintendent, Cornwall, on and after FRIDAY, the TWENTY-EIGHTH DAY OF JULY (INSTANT), at either of which places printed Forms of Tender can be obtained.

Contractors are requested to bear in mind that Tenders will not be considered unless made strictly in accordance with the printed forms, and—in the case of firms—except there are attached the actual signatures, the nature of the occupation, and place of residence of each member of the same; and further, an accepted bank cheque, or other readily available security, for the sum of FOUR THOUSAND DOLLARS, must accompany each Tender, which shall be forfeited, if the party tendering declines or fails to enter into contract for the works when called upon to do so, at the rates stated in the offer submitted.

The cheque or money thus sent in, will be returned to the respective parties whose tenders are not accepted.

For the due fulfillment of the contract, satisfactory security will be required on real estate, or by deposit of money, public or municipal securities, or bank stocks, to the amount of five per cent. on the bulk sum of the contract, of which the sum sent in with the Tender will be considered a part.

Ninety per cent only of the progress estimates will be paid until the completion of the works.

To each Tender must be attached the actual signatures of two responsible and solvent persons, residents of the Dominion, willing to become sureties for the carrying out of these conditions as well as the due performance of the works embraced in the contract.

This Department does not, however, bind itself to accept the lowest or any Tender.

By Order,
F. BRAUN,
Secretary.

Department of Public Works,
Ottawa, 10th July, 1876.

☞ A letter from Richmond, Va., says: "It seems to be understood that an order for the sale of the Chesapeake and Ohio Railroad will be entered at the October term of the court. It is highly probable that the road will be purchased by the bondholders under the first mortgage of the Chesapeake and Ohio Company. Prior to that is a mortgage for about a million or million and a half on the old Virginia Central."

☞ The President has signed the bill granting the right of way for a railroad and telegraph line to the Walla Walla and Columbia River Railroad Company across Fort Walla Walla military reservation, in Washington Territory.

☞ The work of substituting stone or iron bridges on the line of the Boston and Albany Railroad for the old wooden structures is progressing favorably on the eastern division.

☞ A. B. Powell has been appointed General Superintendent of the Illinois Midland Railway vice W. H. Cruger, resigned.

Texas and Pacific Railway.

A correspondent of the Philadelphia Press, writing from Marshall, Texas, on the 4th inst., says: East of this the main line of the Texas Pacific Railroad extends to Shreveport, on the Red river, 40 miles, and west 152 miles to Eagle Ford, 6 miles beyond Dallas; north 74 miles to Texarkana, on the Jefferson division, at which point it connects with the St. Louis and Iron Mountain Railway. The Transcontinental division will extend from Texarkana to Sherman, 155 miles, and Fort Worth, 80 miles, making 235 miles; but at present only 74 miles are completed from Sherman east to Blossom. On this division the contractors are working rapidly, as well as from Eagle Ford to Fort Worth, 25 miles, on the main line, so that early in August the Texas and Pacific Railway will have 446 miles of road, in actual operation.

The New Postal Law.

The section in the Post Office Appropriation Bill in relation to third class matter which went into effect on the 14th inst. is as follows:

Transient newspapers and magazines, regular publications designed primarily for advertising purposes, or for free circulation, or for circulation at nominal rates, and all printed matter of the third class, except unsealed circulars, shall be admitted to and transmitted in the mails at the rate of one cent for every two ounces or fractional part thereof, and one cent for each two additional ounces or fractional part thereof; and the sender of any articles of the third class of mail matter may write his or her name or address thereon or on the outside thereof, with the word "from" above or preceding the same, or may write briefly or print on any package the number and name of the articles enclosed.

Publishers of newspapers and periodicals may print on the wrappers or magazines sent from the office of publication to regular subscribers the time to which the subscription therefor has been paid, and addresses upon postal cards and unsealed circulars may be either written, printed or affixed thereto at the option of the sender.

New Brunswick Railway.

Statement of earnings and working expenses of the New Brunswick Railway for the months of May and June, 1876:

MAY.

Gross earnings	$7,437
Operating expenses	3,918
Net revenue	$3,519

JUNE.

Gross earnings	$9,142
Operating expenses	4,036
	5,106
Net revenue two months	$8,625

A. GIBSON, President.

American Railways.

The American railway reports for 1875 speak of a continued decline in receipts, but of corresponding economy in operating expenses. There are striking co-incidents in the way that the one counterbalances the other. The Chicago, Milwaukee and St. Paul shows total earnings of $8,750,000 against nearly $9,000,000 in 1874. The expenses which had been $5,871,000, are contracted to $5,170 000, and the net earnings come out at $4,000 above what they had been in 1874. In the case of the Lake Shore and Michigan Southern a serious reduction of net earnings is admitted, namely, from nearly $6,000,000 to less than $4,000,000. But there was still $1,000,000 over to distribute in dividends. A two-dollar dividend is not what the Lake Shore stockholders have been accustomed to, but considering that their traffic had fallen away to the extent of $3,000,000 on the year, they did not fare badly. Some of the eastern lines have maintained their standard dividends with the help of their reserve funds. These are at last admitted to be practically exhausted, and this year there will be only genuine earnings to distribute. Quotations have suffered from this disclosure, though it should, in point of fact, have been expected sooner and been prepared for. The Philadelphia exhibition is evidently not stimulating trade as was anticipated.—*British Trade Journal.*

☞ The Baltimore Sun of July 13th says: "The Phoenix Iron Company of Pennsylvania have this week been shipping an immense permanent bridge span, 307 feet in length. It is the largest continuous span that company has ever turned out, and is destined for the Philadelphia, Wilmington and Baltimore railroad bridge across the Susquehanna at Havre de Grace."

☞ The first railway in China, from Shanghae to Woosing, was opened formally on the 1st of July.

☞ The new railroad from Kingston station to Narragansett Pier was opened for travel on the 17th inst.

DIVIDENDS.

OFFICE OF THE LAKE SHORE AND MICHIGAN SOUTHERN RAILWAY COMPANY,
NEW YORK, July 5, 1876.

THE DIRECTORS OF THIS COMPANY HAVE declared a dividend of TWO PER CENT. upon the capital stock thereof, payable on the 1st day of August next, at the office of Messrs. CHASE & ATKINS, No. 18 Broad st., New York.

The transfer-books will be closed at 3 o'clock P. M. on Saturday, the 8th inst., and will be reopened on the morning of Wednesday, the 2d day of August next.

E. D. WORCESTER, Treasurer.

PHILADELPHIA AND READING RAILROAD CO.,
OFFICE NO. 227 SOUTH 4TH ST.,

Atlantic and Pacific Railroad.

The reorganization of this company is to take place after the 8th of September—the day of sale under the decree of the Court in foreclosure proceedings—upon the following basis:

A committee of bond and stock holders, consisting of Andrew Pierce, Joseph Seligman, Joseph D. Fish, James Baker, W. H. Coffin and James P. Robinson, will purchase the property and at once organize the "St. Louis and San Francisco Railway Company," to which corporation the property will be deeded. Such corporation will create a new issue of bonds, known as second railroad and land grant bonds, of sufficient volume to equal the issues of the Atlantic and Pacific Railroad Company, known as its second land and income bonds (say $5,200,000) bearing interest at two per cent for two years, three per cent for three years, four per cent for one year, five per cent for one year, and thereafter six per cent, gold; and a new issue of bonds for $500,000, to bear six per cent, gold, in full; and a first preferred stock of sufficient amount to equal the unsecured bonds of the Atlantic and Pacific Railroad, together with past due coupons of all kinds, and the difference between the above rates of interest and six per cent, gold, for the deferred period—say six years. This stock to have preference of dividends, after interest on the funded debt is paid, up to seven per cent per annum over all other stock from all net revenues, for say $4,500,000; and a preferred stock of sufficient amount to equal the amount of preferred stock issued by the Atlantic and Pacific Railroad Company, for say $10,000,000; and a common stock of sufficient amount to equal the amount of common stock issued by the Atlantic and Pacific Railroad Company, and for say $8,000,000; and will offer to all present holders of such Atlantic and Pacific bonds and stock the privilege of subscribing to the bonds and stock of the "St. Louis and San Francisco Railway Company" an equivalent of the stock and bond obligations of the Atlantic and Pacific Railroad Company they hold, and pay for the same with such obligations, dollar for dollar, provided they will simultaneously subscribe for the $500,000 six per cent gold bonds and pay cash therefor. The following percentage of the following classes any person may hold, to wit:—Atlantic and Pacific land, second mortgage or income bonds, 1½ per cent; Atlantic and Pacific six per cent unsecured scrip bonds, 5 per cent; Atlantic and Pacific preferred stock, 1 per cent; Atlantic and Pacific common stock, ¼ per cent. Persons interested can file their amounts with the Secretary at any time hereafter until August 15, 1876. This proposition leaves the first mortgage of the South Pacific Railroad Company intact, and by reason of the proposed modification in interest of other classes of the company's securities, it is alleged, will add strongly to their present character as a first class bond. The importance of this reorganization will be recognized by the fact that some $30,000,000 of interest concur in the projected change.

The California Pacific Railroad Co. and the German Bondholders.

The San Francisco Bulletin of July 11th has the following:

Upon the opening of the Nineteenth District Court this morning George Cadwalader said that the clients he represented (the German bondholders of the California Pacific Railroad), are the holders of $3,500,000 bonds of the California Pacific Railroad Company. In December, 1875, they agreed to accept in lieu thereof $2,000,000 bonds of that company, provided their payment was guaranteed by the Central Pacific Railroad Company. The time for the completion of this contract has arrived, but his clients decline to accept the two millions of bonds guaranteed by the Central Pacific Company, doubting the power of that company to make the guarantee. They had accordingly made an agreed case. The Supreme Court being in session, it is agreed to submit the case and take immediate judgment, not caring much which way it goes. Judge Wheeler said that he supposed it would be only a pro forma judgment. It appeared to him that if the statute gives one railroad power to lease to another road, the necessary power is given to the latter road to pay. It seemed to him, without giving the subject a careful examination, that the bonds were valid. Judgment was ordered to be entered accordingly. The Court then signed the following form of judgment, submitted by Mr. Cadwalader (after stating the title of cause):

"Now, on this day the controversy in the above entitled cause is submitted to the Court, upon the agreed statement filed herein, and the Court having considered the premises doth order, adjudge and determine that the guarantee of the Central Pacific Railroad Company, mentioned in said agreed statement, is valid and binding upon it, and doth further adjudge that the defendants against the plaintiff recover the costs of this proceeding."

The Smallest Steam Engine in the World.

The Philadelphia Press relates the following incident which occurred in Machinery Hall on the 20th inst., which is well worthy of recording, as it exhibits the unparalleled advancement of American genius in small as well as in great things:

While a large throng of visitors from all countries were standing silently around the mighty Corliss engine watching its gigantic movements with feelings partly of delight and partly of awe, a gentlemen, who subsequently gave his name as Levi Taylor, of Indianola, Iowa, after watching the motions for a few moments, passed around to one side, and extracting from his pocket a small tin case took from it what looked like a diminutive alcohol lamp, and, striking a match, started a miniature flame and placed the contrivance on a corner of the platform which surrounds the mighty steam giant from Rhode Island. At first glance nothing could be discerned over this lamp but a small excrescence which looked more like a juvenile humming bird than anything else; but a close inspection showed that what was taken for lilliputian wings was the fly-wheel of a perfect steam engine, and persons with extra good eyes could after a close examination discover some of the other parts of the curious piece of mechanism.

This engine has for its foundation a 25-cent gold piece, and many of its parts are so tiny that they cannot be seen without a magnifying glass. It has the regular steam gauge, and though complete in every particular the entire apparatus weighs only 7 grains, while the engine proper weighs but 3 grains. It is made of gold, steel and platinum. The fly-wheel is only ¼ of an inch in diameter; the stroke is 1-24 of an inch and the

cut-off 1-64 of an inch. The machinery, which can all be taken apart, was packed in films of silk. It is to be hoped that this wonderful piece of work may be placed on exhibition alongside of its grand antithesis, but it is now probably too late to make an entry.

The Hudson River Tunnel.

Active preparations are now in progress for the construction of the Hudson River tunnel on the Jersey shore. The entrance to the tunnel is located on Jersey avenue, near Fifteenth street, and the excavation will be carried in a northeasterly direction, terminating in Washington square, New York. The tunnel will be two miles in length, and it is calculated the cars will pass through it in three minutes. The road bed will be 23 feet in width. The shaft at the foot of Fifteenth street, Jersey City, is 100 feet in circumference and the brick wall is three feet and four inches thick. The shaft has been sunk to the depth of twenty feet, and will be further excavated to the depth of sixty-two feet, when the excavation beneath the river will be commenced. The machinery for the work is now in position, and it is stated that the excavation of the shaft will be completed within twenty days. The eastern grade of the tunnel is two in a hundred feet, descending from Jersey City, then ascending on the New York side two in a hundred feet. As soon as the shaft is sunk to the required depth a few feet will be excavated in the tunnel, when an iron cylinder with hinged doors will be inserted, so that the laborers can proceed with the work. Compressed air will be forced from the surface into the cavity. Very little blasting will be necessary, the first vein of rock being 1,000 feet from the New York side, and the rock is soft. The depth of earth over the masonry will not be less in any part than thirty-five feet, so that no injury can occur from the anchorage of vessels. The cost of this stupendous enterprise will be $15,000 000, of which $10 000,000 has been already subscribed. After several legal contests the Hudson River Tunnel Company has been triumphant, and the president, Colonel Haskin, declares his determination to proceed vigorously with the work.

North Pennsylvania Railroad.

The earnings of this road for the years ending October 31, 1874 and 1875, were as follows:

	1874.	1875.
From passengers....	$505,916 89	$484,392 90

Interest, ground rent and taxes.....	361,527 95	351,665 33
Balance carried to profit and loss.....	$233,209 60	$160,557 01

Compared with the previous year the gross earnings of 1875 show a decrease of $6,728 57, with an increase in expenses of $75,816 64, making a decrease in the net earnings of $82,545 21. The balance carried to profit and loss shows a decrease of $72,682 59. The total amount to credit of profit and loss October 31, 1875, was $367,152 41, against $514,371 65 on the 31st of October, 1874, a decrease of $147,219 24.

The capital stock at the close of the year amounted to $3,978,150, against $3,699,450 at the close of the preceding year, an increase of $278,700.

Two semi-annual dividends of three per cent each were declared, the first payable August 2, 1875, and the second February 1, 1876.

The earnings of the North East Pennsylvania Railroad were $24,645, being an increase over the previous year, of $6,495 38; and the earnings of the Stony Creek Railroad were $18,642 22, being an increase of $2,009 87. Both these branches are worked by the North Pennsylvania Railroad Company.

The gross earnings of the Main Line and Doylestown Branch, as given above, were $1,417,784 61, showing a decrease of $6,728 57; while those of the North East Pennsylvania have increased $6,495 38, and those of the Stony Creek Railroad have increased $2,009 87—so that on the total railroad mileage worked by the North Pennsylvania Railroad Company, the increase has been $1,776 68.

The company have 54 locomotives, (two of which have been added since the close of the year); 54 passenger, 2 smoking and baggage, 24 baggage, mail and express, 600 freight, 448 coal and 61 dump cars. Number of miles run: passenger, 515,225, freight and coal, 310,635, total, 825,860, against 736,775 in the previous year, an increase of 89,085 miles. Number of passengers carried, 1,067,494, equal to 847,094 through passengers. Number of passengers carried one mile, 18,748,201. Tons of freight moved, 912,003; tons moved one mile, 36 757,567. Rate per passenger per mile, 2.62 cents; do. freight do., 2.53 cents.

At the close of the fiscal year the total length of road operated by the company was 87.8 miles, viz: main Line from Philadelphia to Bethlehem, 55.6 miles; branches from Lonesdale to Doylestown, Penn., 10.3 miles, and from Hellertown to Shimerville, 1.8 miles; and the North East Pennsylvania Railroad (leased), 9.8 miles, and the Stony Creek Railroad (leased) 10.8 miles. The length of sidings is 26.99 miles, and of second track, 26.5 miles.

The Delaware River Branch, fully described in the previous annual Report of the company, extending from Jenkintown to the middle of the Delaware River, 20.5 miles, was opened for travel on the first of May, 1876. The accounts of this branch have been kept separate from the other accounts of the North Pennsylvania Railroad Company; and the expenditure on account of that work, up to the end of the fiscal year, was $1,095,367 53. The whole of the track upon the Branch, as well as the track between Jenkintown and Philadelphia, has been laid with steel rails of 66 pounds per yard. The Delaware River Branch, in connection with the Delaware and Bound Brook Railroad and the Central Railroad of New Jersey, form a through route from Philadelphia to New York 88 miles in length.

The amount expended for construction during the year, not including the new branch, was $54,538 19; and for equipment, $121,678 03.

Engineer and Sup't.—Solomon W. Roberts.

Railroad Returns and the New York Stock Exchange.

The following is a copy of a circular which has been sent by the Committee appointed some time since by the New York Stock Exchange to every corporation whose securities are dealt in at the Board:

New York Stock Exchange, July 10, 1876.

To the President and Directors of——:

Gentlemen: The requests for reports sent hitherto by the undersigned to the various corporations represented at the New York Stock Exchange have been so far complied with that we have felt justified in forming a plan, by which such reports shall be filed, published, and preserved for convenient reference.

Accordingly, we send to you herewith two books of blanks, one for gross earnings, the other for expenses, and we beg you will cause one of the blanks to be filled and sent to us at such times as may be convenient to you. It is our earnest wish to have monthly reports, and to get them with as little delay as possible. We assume that any company can, if so disposed, give us a report of gross earnings soon after the close of the month, and even if we are obliged to wait one or two months for the reports of expenses, we shall then have much more prompt and reliable information than we now receive. A suitable book for compilation and reference has been prepared, and will be kept at the Stock Exchange, and reports will be entered therein as soon as received. Having done all in our power to facilitate the work, we think we are justified in expecting from you a prompt compliance with our request. Should you give it, we are convinced that your interest will not suffer,

and that the public welfare will be materially promoted.

BRAYTON IVES, Chairman,
HENRY MEIGS,
DONALD MACKAY.

New Narrow Gauge Coal Railroad.

About four years ago Mr. O. D. Robbins, civil engineer, and superintendent of the Maryland coal company, proposed and elaborated a narrow gauge railroad plan, starting from the vicinity of Lonaconing, running across Pompey Smash hill, through Sandy Gap, by way of Cresaptown, to a junction with the Baltimore and Ohio railroad and Chesapeake and Ohio canal just above this city. It has been estimated that such a road could be built for about $750,000. It could be constructed in about a year's time. Its gauge would be 3 feet 6. Its heaviest ascending grade with load would be about 65 feet to the mile; descending, 140. It would be equipped with 3 pot hoppers, holding about 6 to 8 tons, which would be loaded at the mine dumps and unloaded at wharves or chutes here. Such a road, running to Cumberland from the centre of the coal region at Lonaconing, if backed alone by the Maryland, American, George's Creek and New Central, could not fail to be remunerative, and if circumstances demanded could be extended to Westernport, the headquarters of the small veins, and within easy access of the Elk Gardens region. We believe that this subject will receive the mature deliberation of those interested. We have heard of one responsible contractor who expresses a willingness to assist in constructing the new road and take a large portion of his pay in stock. We have also heard that others outside of the coal companies are willing to subscribe stock in larger or smaller quantities.—*Cumberland News.*

Emlenton and Edenburg Narrow Gauge Railway.

Work is progressing rapidly on the narrow gauge railway between Emlenton and Edenburg, which is expected to be finished in good time for a large portion of the fall traffic. The grading is already completed almost to Agnew's mills, whence it will be hurried through Turkey City with great dispatch. Next week track laying will commence, with iron of the best quality the Lochiel Works, at Harrisburg, can supply. A locomotive is ready for shipment from the Brooks Locomotive Works, at Dunkirk, N. Y., and will arrive whenever the rails are laid through town. The two trestles on Richey Run are receiving the finishing touches, and will be entirely completed by Wednesday. The Valley Railroad authorities have granted the company permission to run the line to their depot, and workmen are busy grading for this purpose. Rolling stock is in process of manufacture, and will be on hand in due season. By the end of August it is believed the road will be open to Dogtown, reaching Edenburg not later than the beginning of October, and Shippenville during the winter. The enterprise is under first class management, that will insure its success from the outset, and no doubt exists as to its proving highly remunerative and advantageous in every respect. Thirty or forty Swedes are grading for the new railroad in the neighborhood of Agnew's mills, three miles from Emlenton.—*Oil City Derrick.*

Metallic Railway Cars.

The building of Metallic Railway Cars has been in course of experiment for some time. Steel freight cars are suggested, as they are far less in weight than those constructed of wood, thus saving wear and tear of the tracks. It is claimed that a steel car can be made weighing no more than seven tons that will carry twice that weight of freight. If the trucks are of steel a car of ten tons weight can be made that will carry twenty five tons of freight. The construction of these vehicles is also stronger and more durable than the wooden cars. Already many iron coal cars are in use, and freight cars of sheet iron have been made at Pittsburg, and the belief is expressed that the new style of freight car can be successfully constructed. But before it can be generally introduced its cheapness in the long run must be made apparent, as that is the element which, after all, will decide whether cars are to be of wood, iron or steel. At present wood is much the cheaper and most easily worked material, and it will continue to be used until iron and steel can underbid it either in actual first cost or else in the demonstration of a much greater durability that will compensate for increased original expense.—*Phila. Ledger.*

Worcester and Somerset Railroad.

The Snow Hill (Md.) Messenger says that the Worcester and Somerset Railroad will be immediately extended from Newton to Nashville, on the seaside, and from thence down through Eastern Virginia to Cherrystone, the Southern extremity of the peninsula. The bridge over the Pocomoke at Newtown, which is now undergoing repairs, will be temporarily used by the company until an entire new one can be built by them. The Philadelphia, Wilmington and Baltimore Railroad Co. are at the bottom of the project, and operations will commence at once. The route from Newtown to the seaside was surveyed last fall, and this portion of the extension will no doubt be in running order in time for the oyster trade.

☞ The joint resolution amendatory of the act admitting free of duty articles intended for the Centennial Exhibition, has been approved by the President. It declares the entire stock of each exhibitor liable for the payment of duties accruing on any portion thereof, in case of the removal of such portion from the Exhibition buildings without the payment of lawful duties thereon, and permits the sale and delivery during the Exhibition of any goods heretofore imported and now in the Exhibition buildings.

☞ The wonderful progress of agriculture in the West during the last quarter of a century may be gathered from the fact that in Minnesota, according to reliable statistics, where in 1850 only 3000 acres were under cultivation, and the production was 1400 bushels of wheat, 6000 bushels of corn, and 16,000 bushels of oats, there were in 1875 2,816,413 acres under cultivation, and the products aggregated 31,475 bushels of wheat, 15,775,000 bushels of oats, and 9,500,000 bushels of corn.

☞ Sealed proposals for grading and bridging the portion of the Bellaire and Southwestern Railway between Armstrong's Mills, Belmont county, and Beallsville, in Monroe county, will be received at the office of the Engineer of said company, in Bellaire, Ohio, until the 8th day of August next. Profiles and specifications furnished any time after the 1st day of August. Address T. D. Paul, Engineer in charge.

☞ The stockholders of the Merrimack Valley Horse Railroad Co. have voted unanimously to at once extend the railroad track to South Lawrence depot. The estimated expense is $7000. The company have funds on hand nearly sufficient to defray the cost.

☞ The Pennsylvania Railroad Company has leased the Sunbury and Lewistown Railroad, and will put it in running order immediately.

☞ The ratepayers of Dresden, Canada, have carried a by-law granting $25,000 to the Sarnia, Chatham, and Erie Railway.

Exports from Philadelphia.

The annual official statement of the domestic exports from Philadelphia to foreign ports during the fiscal year ending June 30, 1876, exhibits the handsome increase of $11,666,056, the aggregate for the year being $40,254,075, as compared with $28,588,019 for the preceding year. Of these exports England took $15,522,505, Ireland $8,070,087, Belgium $6,164,277, Germany $3,229,502, Cuba $1,014,219, British West Indies $967,508, France $756,184, Italy $735,998, Netherlands $785,998, Venezuela $648,753, Scotland $319,774, Austria $265,976, Brazil $231,504, Gibraltar $242,341, Spain $104,879, and Russia $102,824. As regards commodities, there is a large increase in the leading items. Thus, breadstuffs show $13,583,212, as against $7,457,884 in 1874-5; petroleum, $9,131,662, as against $7,195,356 for the previous year; and provisions, $8,554,308, against $4,678,780 last year. The exhibit is a very favorable one, and shows that Philadelphia is progressing steadily.

Green Bay and Superior Railway.

At the annual meeting of the stockholders of the Green Bay and Superior Railway Company, held on the 15th inst., the following directors were chosen: M. L. Martin, Anton Klaus, W. J. Abrams, D. M. Kelley, J. M. Schmeers, W. E. Peak and A. J. Fox. The directors subsequently met and elected Anton Klaus, President; M. L. Martin, Vice President; W. J. Abrams, Secretary and Treasurer. The line is projected as yet, but a renewed interest in it has been developed, and the company are beginning to take up actual work under their charter, which is a number of years old.

☞ The companies constituting the Vermont Division of the Portland and Ogdensburg Railroad have unanimously voted to issue preference mortgage bonds to complete the road, and nearly all first mortgage bondholders have consented. It is expected that the work will be resumed immediately and the road completed by early fall. Col. A. B. Jewett of Swanton has been appointed Superintendent, and will have his headquarters at Swanton, the western terminus.

☞ The Iowa Coal Railway and Manufacturing Co., has, during the past year, constructed a line 3¼ miles long, from the Chicago and Northwestern Railway near Boonesboro, Ia., to its coal mines in Boone County. The road is intended chiefly to transport the coal from those mines.

☞ Track laying on the Columbus and Toledo road has progressed to a point five miles south of Delaware. Persons claiming to be well posted in such matters, say there is no doubt that there will be a passenger train running between Marion and Columbus during the month of September.

☞ Operations on the Albert Railway in New Brunswick are being carried on with energy, and over thirty miles are graded. The line will be running to Hillsboro' by 1st November next.

☞ The first through passenger train between Boston and Troy passed through the Hoosac tunnel in the short space of fifteen minutes.

☞ Mr. Robert M. Stevens has been appointed Inspector of Locomotives on the Intercolonial Railway.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

American Railroad Journal.

Saturday, July 29, 1876.

Financial and Commercial Affairs.

Money has been offered very freely and at extraordinarily low rates through the week to responsible borrowers, call loans having been quoted as low as 1½@3, and best mercantile credits at 3 @5 per cent per annum: but lenders have found it difficult to place balances with promptness at even these almost nominal figures, the demand for accommodation having been generally limited, notably so from speculative sources, in view of the extreme dullness at the Gold and Stock Boards. The City Banks reported a further accumulation of legal tender notes and of deposits, while their loan and discount averages and their circulation show a falling off. The specie reserve of the banks also indicates a decrease of about 1¼ millions, due in good part to the export drain, which went up to about 2¼ millions. The Government office here reports a further reduction in its currency reserve and a slight increase in its gold balance as the result of the week's movements. National Bank notes received at the Treasury Department last week for redemption were to the amount of $5,353,000. The City Banks have had their deposits again augmented $538,800; and their legal tender reserve $2,520,700. The specie average has been cut down $1,758,700. The loan and discount item was contracted $1,297,000. The circulation fell off $185,000. The U. S. Sub Treasury in this city closed the week with a currency balance of $30,520,379 against $32,142,818 the preceding week; and a coin board of $33,684,552 against $33,525,991 on the previous return. The City bank exchanges in currency reached $299,479,371, or a daily average of $49 913,-

228. The customs revenue of the port during the week was $2,168,437.

The City banks reported their average of gold last week at $20,681,400, and their greenback average at $57,199,200. Their deposits stood at $224,705,800. The loan item was $251.682,100. The circulation was $15,257,300.

The City Bank net reserve of specie and legal tender notes now shows an excess over the legal requirement of reserve to liabilities of $21,703,150, as against $21 075,725 the preceding week.

The aggregate of the outstanding U. S. currency of all denominations, July 1st, was $404,723,601. The outstanding amount of legal tender notes is $369,772,384. The National bank circulation is now $329,739,919, including $2,099,190 of national gold bank notes.

On Tuesday of this week the cash balances of the Treasury Department at Washington were: of Currency $11,816,475; special deposit of legal tenders for the redemption of certificates of deposit, $33,970,000; Coin, $61,158,223; Coin certicates, $30,2 2,100.

The week's import entries of Foreign Merchandise at New York were $5,200,119, including $1,536,127 of Dry Goods.

The income of the Government from internal revenues thus far in the current fiscal year, commencing with July 1, 1876, has been about 10 millions; and from Customs, 10½ millions.

Gold fluctuations during the week have been very slight. The tendency of the market has been towards rather higher figures, but this has not been very decided. The speculation has lacked spirit. The export movement has been on a liberal scale. The customs drain has been rather more extensive. The extremes of the price during the week have been 111½@111⅞. closing on Wednesday at 111⅞, as against 111⅝ on Wednesday of the preceding week. The specie outflow last week was $2,620,887 against $2,675,878 the previous week. The imports of specie at this port last week were $110,651, and since January 1st $2,552,281 as against $7,887,353 same time last year. The customs demand for gold last week averaged $370,000 per day. Foreign Exchange has been less active and rather less firm. Bankers sixty day bills on London closed on Wednesday at $4 88@$4 89; sight bills on London at $4 90@$4 91 to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $4,790,941. The week's imports of Dry Goods and general merchandise were to the specie value of $5,200,119 as against $7,001,511 the corresponding week of 1875.

Government Securities have attracted more attention, almost wholly from buyers on investment account at generally stronger prices, closing very firmly, on quite limited offerings. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $340,249,850.

U. S sixes of 1881 closed on Wednesday of this week (ex July coupon) at 120½@120⅝; U. S. Five-Twenties of 1865, at 116¼@116½; U. S. Five-Twenties of 1865 consolidated, 118@118⅛; U. S. Five Twenties of 1867 120@120⅛; U. S. Five-Twenties of 1868, 121⅝; U. S. Ten-Forties at 119@119⅛; U. S. Fives of 1881, (Funding Loan) 118⅛@118¾; Six per cent. currency Sixes 126@126½.

State and Railway bonds have been in quite moderate supply and good demand on investment account with prices of the more substantial loans quoted stronger throughout. And in the line of Railway and Miscellaneous share property the dealings have been on a moderate scale, rising to a somewhat larger aggregate toward the close, but with prices quoted variable leaving off more firmly.

Cooler weather has been more favorable to general business interests. Domestic produce has been moving more freely toward the close, especially Breadstuffs and Petroleum, which closed stronger. Foreign merchandise has been comparatively quiet. The Metal trade has been less satisfactory. Eglinton Pig Iron quoted here at $27 50@$28; Glengarnock $28 @$29; Coltness $29 50 @$30 50; No. 1 American Pig at $22@$23; No. 2 do. at $20@$21 50; Forge $18@20; American Rails at works $42 50@$45 00; Old Rails $21@$22. Wrought Scrap 28. Ocean freights have been moderately active but quoted generally firmer, with the main demand reported for accommodation for Provisions, Tobacco, Cotton, Petroleum, Flour, Resin, and Grain. Grain rates for early shipments were weaker toward the close.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

Northeastern (Wis.) Railway.

This is the name of a new corporation recently organized at Chippewa Falls, Wis., for the purpose of constructing a narrow gauge railroad from that point to connect with the Wisconsin Central near Medford. It is also proposed to build another line from the Falls, via Eagle Point and Bloomer, to Big Bend for the present, its prospective terminus being farther up the river, connecting with the proposed North Wisconsin south of the Divide between the Chippewa and Lake Superior. Thad. C. Pound is president of the company, L. C. Stanley vice president, and D. E. Seymour secretary and treasurer.

☞ The work upon the grain elevator of the Northern Central Railway Company at Canton is being rapidly pushed forward. It is expected the structure will be entirely completed and ready for the reception of grain by the middle of September.

☞ A project for a new railroad to connect Tremont and Kingston, Mass., is meeting with unexpected favor.

Chicago, Milwaukee and St. Paul Railway.

At a meeting of the directors of this company, held at their office, No. 68 William St., N. Y., on the 26th inst., the following resolutions were adopted:

Whereas, By resolution of the board of directors of this company, passed on the 2d day of February, 1874, it was determined that the periods for the payment of dividends should thereafter be the months of April and October, therefore,

Resolved, That it is the policy of this company to adhere to those periods for the distribution of the net earnings of the company as the most convenient for the company and the best for the general interests of the stockholders.

Resolved, That a dividend of Three Dollars and Fifty Cents per share be declared on the preferred stock of this company, payable on the 5th day of October next, on account of the net earnings of the current year applicable to the preferred stock.

Resolved, That the consideration of the payment of a dividend in October on the common stock be deferred to the 13th day of September next, at a meeting of the board to be held at that time.

Resolved, That the transfer books of the company be closed at 3 P. M. on Wednesday, the 20th day of September next, for the purpose of making up the stock books for the dividends to be paid on the 5th day of October, and that they be reopened on the 10th day of October next.

Resolved, That the usual notice of the payment of the dividends and the closing of the transfer books be published.

STATEMENT OF EARNINGS.

Balance to credit of Income Account after payment of the dividend in April last		$1,029,469 24
Earnings for six months ending 30th of June, 1876	$3,960,517 29	
Less operating exp	2,352,509 23	
		1,608,008 06
Net income		$2,637,477 30
Six months' interest on mortgage debt to 1st July, 1876		1,078,685 68
Balance Income Account		$1,558,791 62
Dividend of 3½ per cent on $12,274,483 preferred stock		429,606 90
Balance		$1,129,184 72

Valley (Va.) Railroad.

At a meeting of the directors and stockholders of the Shenandoah Railroad Company held in Winchester, Va., on the 19th inst., it was unanimously determined to approve and ratify the lease lately made by President Milnes, of the Valley railroad, from Staunton to Harrisonburg, and Messrs. Milnes and Boyce were directed to make any arrangement which they might deem practicable for a lease more permanent than the present one. There was no other business before the meeting.

☞ J. C. Todd, 10 Barclay st., has for sale Engines and Boilers; also a system of good second hand line Preparing and Spinning Machines, Rope and Bagging Machinery. See advertisement on another page.

☞ The Boston and Albany Railroad Company are building a new iron bridge over the Charles River at Riverside. The bridge will be wide enough for four tracks, with stone abutments.

☞ Congress has directed the Secretary of the Treasury to pay the August and February interest on the 3.65 bonds during the fiscal year ending June 30, 1877.

CORNWALL CANAL ENLARGEMENT.

NOTICE TO CONTRACTORS.

SEALED TENDERS addressed to the Secretary of Public Works, and endorsed "Tender for the Cornwall Canal," will be received at this office until the arrival of the Eastern and Western mails, on WEDNESDAY, the NINTH DAY OF AUGUST NEXT, for the formation of a new entrance—south of the present one—at the lower end of the Cornwall Canal, embracing the construction of two Lift-locks, Waste-weir, &c.

The works will be let in one section, as indicated on the map of that part of the line, which, together with plans and specifications of the various works, can be seen at this office, and at the office of the Canal Superintendent, Cornwall, on and after FRIDAY, the TWENTY-EIGHTH DAY OF JULY (INSTANT), at either of which places printed Forms of Tender can be obtained.

Contractors are requested to bear in mind that Tenders will not be considered unless made strictly in accordance with the printed forms, and—in the case of firms—except there are attached the actual signatures, the nature of the occupation, and place of residence of each member of the same; and further, an accepted bank cheque, or other readily available security, for the sum of FOUR THOUSAND DOLLARS, must accompany each Tender, which shall be forfeited, if the party tendering declines or fails to enter into contract for the works when called upon to do so, at the rates stated in the offer submitted.

The cheque or money thus sent in, will be returned to the respective parties whose tenders are not accepted.

For the due fulfillment of the contract, satisfactory security will be required on real estate, or by deposit of money, public or municipal securities, or bank stocks, to the amount of five per cent. on the bulk sum of the contract, of which the sum sent in with the Tender will be considered a part.

Ninety per cent only of the progress estimates will be paid until the completion of the works.

To each Tender must be attached the actual signatures of two responsible and solvent persons, residents of the Dominion, willing to become sureties for the carrying out of these conditions as well as the due performance of the works embraced in the contract.

This Department does not, however, bind itself to accept the lowest or any Tender.

By Order,
F. BRAUN,
Secretary.

Department of Public Works,
Ottawa, 10th July, 1876.

Atchison, Topeka and Santa Fe Railroad.

The detailed statement of the operations of this road for the five months ending May 31, compared with the same time last year, shows the following:

	1876.	1875.
Total earnings	$859,161 13	$471,289 39
Operating expenses	422,427 54	232,283 61
Net earnings	$436,733 59	$238,955 78
Per cent operating expenses to earnings	49.17	49.27
No. of miles operated (average)	678	508

This result shows that though the company is running two-sevenths more miles of road than last year there is a difference in its operating expenses of one-tenth of one per cent. in favor of this year. The difference for the month of May, as compared with last year, was two-fifths of one per cent.

☞ The Goodyear Rubber Company, with a capital stock of $250,000, has been organized and will take possession of the buildings and machinery recently occupied by the Middletown, Conn., Rubber Works.

The Coal Trade.

The coal tonnage for the week ending the 15th inst., as reported by all the companies, amounted to 454,873 tons, against 599,691 tons in corresponding week last year, a decrease of 144,818 tons. The total amount of anthracite mined for the year is 8,337,210 tons, against 8,007.757 for same period last year, an increase of 329.453 tons. The quantity of bituminous coal sent to market for the week was 71,358 tons, against 80,284 tons for corresponding week last year, a decrease of 8926 tons. The whole bituminous tonnage from the beginning of the coal year is 1,820,497 tons, against 1,895 144 tons in corresponding time last year, a decrease of 74,647 tons. The total tonnage of all kinds of coal for the week is 526,231 tons, against 679,975 to corresponding date last year, a decrease of 153 744 tons, and the total tonnage for the coal year is 10,157,707 tons, against 9,902,901 tons to same date last year, an increase of 254,806 tons The quantity of coal and coke carried over the Pennsylvania Railroad during last two days in June and the first week in July was 95,907 tons, of which 76,617 tons were coal and 19,-380 tons coke. The total carried this year is 2,150,077 tons, of which 1,770,449 were coal and 379,636 coke. This total embraces all the coal carried over the road, east and west. The receipts of coal at Perth Amboy for the week ending on the 15th instant were 23 098 tons, against shipments in the same time of 19,125 tons, leaving on hand 84,093 tons. Freights thence to Boston, 90 cents; Hartford 90 cents; New York, 35 cents. —*Phila. Ledger, July* 24.

Metalliferous Mines.

From the report of Dr. Foster, Government Inspector of Metalliferous Mines for the Western District of England—comprising Cornwall, Devon, Dorset, and part of Somerset—we learn that during the year 1875 the number of persons employed was 22 520, against 225,292 in 1874, showing a decrease of 2,772. Of these 11,968 in 1875 and 13,316 in 1874 were employed under ground. The great bulk of the mining population is in Cornwall, viz: 19,524 in 1875, against 22,117 in 1874. Altogether there were only 47 boys between 12 and 13 years of age working underground, and 965 between 13 and 16; these figures show a decline upon 1874.

In the produce of the mines copper ore is returned at 53,529 tons for the year, being a slight decrease upon 1874; black tin, (the ore sold in the stone being estimated,) 12,643 tons, against 12,594 in 1874. The tin produce is confined almost exclusively to Cornwall, but of the copper 14,492 tons were raised in Devonshire.

The iron ore raised amounted to 60,955 tons, compared with 96,553 in 1874. The great bulk of the iron (42,000 tons) comes from Somersetshire; and the falling off in produce is owing to the closing of some Cornish iron mines which, in 1874, sent out 37,649 tons, but last year are credited with only 9,034 tons. Devonshire produced 17,587 tons of iron ore in 1874, against only 9,-994 tons last year.

The next largest products are pipe clay and potters' clay, which are classed together, and are raised in Devonshire and Dorsetshire. The total product was 46 686 tons, showing a falling off of 1,086 tons. The reduction was in Dorsetshire, Devonshire having increased the output from 23 -546 tons in 1874 to 26,107 in 1875. It should be stated here that though the raising of potters' clay comes under Dr. Foster's surveillance, china clay so largely raised in Cornwall, is excluded from it, because it is worked in open pits or quarries, and is, therefore, not considered to be mining proper.

Cornwall is credited with 8¼ tons of silver ore, and there are fourteen other mines, in various small quantities: manganese is down for 3,725 tons; lead, 2.883; zinc, 2,988; arsenic, 3,783, and arsenical pyrites, 12,948 tons. The reduction of the number of hands employed in Cornwall was chiefly in tin mines, and was owing to the heavy fall in the price of the metal, the average standard for which declined from £7 0s. 7d. per cwt. in 1872 to £4 2s. 11d. in 1875. The average wages of underground miners (tutwork) were £3 10s. for a month of four weeks, but they do not work more on an average than five shifts of eight hours each per week.

Dr. Foster gives an elaborate analysis of the accidents in the mines under his charge, and the causes as far as they have been ascertained. There were during the past year 44 fatal accidents, causing 46 deaths. These figures are slightly less favorable than in the two previous years, but Dr. Foster considers this to be due to the accidents being more regularly reported under the new act. No fewer than 16, or more than one-third, of the accidents occurred in shafts, and 38 out of the total 46 happened underground. In addition to these there were 85 non-fatal accidents, 40 of which were underground, and 20 of those occurred while blasting, caused chiefly by the use of iron tamping bars and loose powder. Dr. Foster reports that there are still many abandoned mine shafts unfenced, but only one accident occurred from this cause during the year.

☞ The officers of the Peoria and Farmington Railroad company, recently elected, are: William R. Bush, president, W. E. Stone, vice-president and treasurer, G. L. Bester secretary, R. G. Ingersoll attorney, and E. Jamison superintendent.

DIVIDENDS.

OFFICE OF THE LAKE SHORE AND MICHIGAN SOUTHERN RAILWAY COMPANY,
NEW YORK, July 5, 1876.

THE DIRECTORS OF THIS COMPANY HAVE declared a dividend of TWO PER CENT. upon the capital stock thereof, payable on the 1st day of August next, at the office of Messrs. CHASE & ATKINS, No. 18 Broad st., New York.

The transfer-books will be closed at 3 o'clock P. M. on Saturday, the 8th inst., and will be reopened on the morning of Wednesday, the 2d day of August next.

E. D. WORCESTER, Treasurer.

PHILADELPHIA AND READING RAILROAD CO.,
OFFICE NO. 227 SOUTH 4TH ST.,
PHILADELPHIA, June 29, 1876.

DIVIDEND NOTICE.

THE BOARD OF MANAGERS OF THIS COMPANY have declared a dividend of Three and a Half per Cent. upon the preferred stock, clear of all taxes, payable in cash on and after the 25th of July, to the holders of preferred stock, as they shall stand registered on the books of the Company at the close of business on the 1st of July.

S. BRADFORD, Treasurer.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD COMPANY, NEW YORK, June 21, 1876.

A DIVIDEND OF FOUR PER CENT. HAS been declared by this company, payable on the 1st day of August next to the holders of full paid shares registered at the close of the 14th day of July next, after which, and until the 5th day of August the transfer-books will be closed.

L. V. F. RANDOLPH, Treasurer.

Stetson's Patent Agency.

23 MURRAY ST., NEW YORK,
JUNE 1, 1876.

THE PRACTICE OF THIS OFFICE IN REgard to rejected applications is changed. Instead of as heretofore taking a copy of the official letter of rejection and invariably sending the original to the client, and inviting suggestions to aid in urging the case, I now, unless instructed to the contrary, proceed at once to give it attention and argue or amend.

MACHINERY.

E. E. ROBERTS, CONTRACTING ENGINEER, 119 Liberty st.—Plans and Estimates furnished for any kind of machinery. Large stock of Engines, Boilers and Machine Tools. 4t29

ENGINE AND BOILERS FOR SALE CHEAP.—One 18×36, one 14×16, one 12×24, one 9×20 stationaries; and one 8×12 portable; all new; also a system of good second hand line Preparing and Spinning Machines, Rope and Bagging Machinery. 8t23* J. C. TODD, 10 Barclay st.

BOGARDUS' PATENT UNIVERSAL ECCENTRIC MILLS—For grinding Bones, Ores, Sand, Old Crucibles, Fire Clay, Guanos, Oil Cake, Feed, Corn, Corn and Cob, Tobacco, Snuff, Sugar, Salts, Roots, Spices, Coffee, Cocoanut, Flaxseed, Asbestos, Mica, etc., and whatever cannot be ground by other mills. Also for Paints, Printers' Inks, Paste Blacking, etc. JOHN W. THOMSON, successor to JAMES BOGARDUS, corner of White and Elm sts., New York. 3m24*

FINANCIAL.

ALEX. FROTHINGHAM & CO., BANKERS AND Brokers, No. 12 Wall st., make for customers desirable investments of large or small amounts in stocks of a legitimate character, which frequently pay from five to twenty times the amount invested every thirty days.

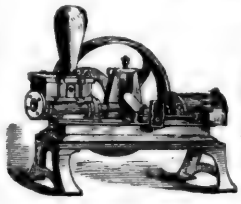
Reliable stock privileges negotiated at favorable rates. Stocks bought and carried as long as desired on deposit of three to five per cent. Circulars and weekly reports sent free. 1y23*

YORK CAR WORKS.

ESTABLISHED IN 1852.

Billmeyer & Smalls,

YORK, PENN.



This old established firm continue to build all kinds of Freight Cars to order.

Narrow Gauge Freight and Passenger Cars

having received their special attention, they are prepared to receive orders and to deliver promptly.

Circulars sent on application.

PUMPS.

James Clayton,

MANUFACTURER OF

Fly-Wheel and Direct Acting Steam Pumps, Air Pumps, Vacuum Pumps, Air Compressor Pumps, etc.,

14 and 16 Water St.,
(Near Fulton Ferry)
BROOKLYN, N. Y.

A. WHITNEY & SONS,

CAR WHEEL WORKS,

Callowhill and Sixteenth Sts.,

PHILADELPHIA, PENN.

FURNISH CHILLED WHEELS for Cars, Trucks and Tenders. CHILLED DRIVING WHEELS and TIRES for Locomotives. ROLLED and HAMMERED AXLES.

WHEELS and AXLES FITTED COMPLETE.

90 PER CENT IRON

Rawlin's Metallic Paint.

The Cheapest, Best, Most Durable, Most Fire, Water and Weather Proof paint made. Used by the Pacific Mail Steamship Co., and Union Pacific R. R. Co.

Chicago, Danville and Vincennes Railroad.

On the 26th of July, at Chicago, Judge Drummond decided the objections to the master's report in the foreclosure suit of Fosdick & Fish vs. the Chicago, Danville and Vincennes Railroad Company. The judge held that by the terms of the mortgage, the interest not having been paid, the whole indebtedness became due, and the trustees were entitled to proceed and have the mortgage foreclosed for the benefit of the parties who were not parties to the funding scheme. The first mortgage which is sought to be foreclosed is for $2,500,000. The judge also said that the Bismarck branch, extending from Bismarck to the State line, some five or six miles, was included in the terms of the first mortgage. It was further held that the funding scheme which was entered into and partially completed, by which an extension was to be given on the indebtedness of the road, did not bind those who were not parties thereto, and they could proceed and foreclose the mortgage, even though those who entered into the funding scheme might be bound thereby. There was no use of waiting for any change in affairs, and the mortgage had better be foreclosed. In regard to the rights of the bondholders under the mortgage on the Indiana Division, the judge said that in making a sale of the property some arrangements would be made by which the rolling stock which was running on the whole line of road, partly in Illinois and partly in Indiana, would be apportioned equitably between the creditors of the road in the respective States, and that a decree of foreclosure would probably be entered in Illinois and Indiana.

Bridges' Patent Lubricant.

The Lubricant manufactured by ALBERT BRIDGES, 46 Cortlandt street, New York, is pronounced by our leading Railroad Companies to be the best article for cooling or provening Car Journals from becoming heated ever introduced. It has been used by the Philadelphia and Reading, Boston and Albany, and Chicago, Burlington and Quincy Railroads, the Pennsylvania Company, and Delaware and Hudson Canal Company in large quantities for the past three years; and the demand for it has largely increased throughout the country. A sample of the article will be furnished to any Railroad Company wishing to test its merits by addressing the manufacturer.

Erie Railway.

A meeting of the bond and stockholders of the Erie Railway Company was held on the 13th ult., under the presidency of Sir EDWARD WATKIN, M. P., at the City Terminus Hotel, Cannon street, London, to meet the Hon. H. J. Jewett, the President and Receiver of the railway.

Sir EDWARD WATKIN, in introducing Mr. Jewett to the meeting, said he was sure the shareholders would give him a patient hearing, a hearty reception, and no doubt an expression of its confidence. Mr. Jewett would, he believed, speak of the state of affairs when he joined the line, what he had done to organize the traffic, the result of the laying down of the third rail between Buffalo and Waverly, some particulars of the bargains made to get rid of wasteful contracts, the recoveries from Mr. Jay Gould, and what was hoped to be recovered from Mr. Vanderbilt, as well as from Mr. M'Henry, and others. They might also look for some idea of what was necessary to be done to increase the power of the line, and the total cost and advantages of laying down a third rail from Waverly to Jersey City, with the total cost of completely developing the property. Mr. Jewett was willing to let them—whom he called the real owners of the road—have any control that was not injurious to the company. He would no doubt give them some detail of the securities held, and how far it was discreet to realize them, and would then touch on the railway war which is now raging in America, and for which he (Sir Edward) was convinced Mr. Jewett was in no way responsible; whilst the Great Western, Grand Trunk, and Erie combined might at once bring it to an end. He would also say a word in regard to the Atlantic and Great Western, which it was greatly to their interest should be worked as one property with the Erie, and he would give them some general idea of the prospects which lay before them in the future.

Mr. JEWETT, who was received with great applause, said he was there to confer with them as the owners of the property, and it was not his business to dictate the terms or conditions on which that property should be restored to a position of credit and of profit, but to give them all the information he possessed touching the present position and future value when restored to a condition of efficient and economical working and management, and in doing so he would endeavor to follow the point suggested by their chairman; and first, as to the condition of the property when he became connected with it. At that time he knew as little of it perhaps, as they did, as he had been for years connected with western and not eastern lines. Neither had he time or opportunity to examine its condition, but he was led to believe that only £300,000 of the 2nd consolidated mortgage had been disposed of, and that the remainder could be used to put the road into a position to be worked efficiently, but he very soon found that the company must rely on its daily earnings. He believed then and now that if the business of the country had recovered as rapidly as he had expected the Erie Company could have done what they were now asked to do from its revenue. The consequence of its not improving was that in May, 1875, the company was unable to pay the interest then matured on the 2nd Consolidated Mortgage; and as there was no likelihood of being able to do so by any reasonable arrangement the directors considered it their duty to put the property under the protection of the Court of Chancery, and in that he claimed to have done the best; and though the results were not what he had anticipated or hoped for, he was content to be judged by the future. They would ask why did the line cost so much to operate? The revenue of the company during the past year had diminished by the depression of business of the country, and this applied to all the leading companies. And though the expenses of the Erie Company had been reduced almost in the same ratio, yet the net earnings would be somewhat affected. Another difficulty was that whilst business was prosperous rates were high, but when business was restricted they were bound to reduce their rates to obtain the traffic, and the margin between receipts and expenditure became less. They were also a broad gauge line, and as they widened the gauge so they widened the superstructure, the running gear, &c., necessarily increasing the weight of the machinery, and consequently the cost of maintenance in materials and labor. The company had

also been unfortunate in never having had a stable management able to foreshadow a policy from day to day, much less for two or three years ahead, and for this their side of the ocean as well as his was to blame. Another difficulty was their engines were of 85 different patterns instead of at most two or three, and with 400 trains a day they could not employ four or five men to a mile to keep up repairs, as the continued stoppages to allow trains to pass occupied a great portion of the working day. However, he believed the expenses could ultimately be reduced to the same percentage as that of the New York Central, owing to the difference between the cost of fuel to the two companies, if their line were once put into efficient working order. The great difficulty of the broad gauge was the serious one of transhipment at their western termini, and the consequent delay of 24 or 48 hours. But even then they maintained their position in New York, and commanded their full proportion of trade. And it was proposed to lay a third rail from Buffalo to New York, the Lehigh Valley Company, under a contract, having laid one from Buffalo to Waverly, which had exceeded all expectations. With the line narrow gauged, or a third rail laid down, he had no doubt they would be able to carry all the produce necessary to the New England coal and iron fields. The difficulties of the broad gauge were shown at Waverly, for whereas they used to carry 45 per cent. of the coal traffic, since two other circuitous routes had been opened their proportion had fallen to 15 per cent. The floating debt (which always meant in his country bills payable and loans), and not current supplies and labor, was, on 1st June, 1875, about $4,400,000 or $4,500,000, but he found when he came to the road a number of contracts and complications of various kinds exhausting the resources of the company. These burdens were about $17,000,000, and they gave no productive value to the company, and he therefore regarded it as important to get rid of them by negotiation, arrangement, and settlements, and he had paid off a mortgage out of earnings which involved the Buffalo and Erie line of $1,560,051 92c. Hence he had not been able to reduce the floating debt. Since he had been receiver he had compromised with Jay Gould, by which he had relieved the opera-house property of all encumbrances, had recovered a large sum of money, taken Northern and Central bonds, at a price, to the extent of half a million, and was to get 5,000 shares of the United States Express Company. It was not what was claimed, but he considered that it was a wise thing to compromise. The suit against Vanderbilt had been decided in the company's favor in the First Court, and had been carried to the Court of Appeal, and if they succeeded it would liberate $1,200,000 of the Hartford and Erie Bonds, and put $1,000,000, with interest, into the treasury. After conferring with Mr. Morris on all the facts connected with the disposal of the second consolidated bonds in London, he had thought it due to every one that the transaction should be judicially investigated, and Mr. Morris was preparing to prosecute the case to a final conclusion. There were also other suits. He should be glad if all such questions could be settled by fair and reasonable arbitration. He then alluded to the position of debtor and creditor held by the stock and bondholders, and asked the latter not to press too hard on the former, whilst at the same time he fully admitted all their rights. Coming to the assets, he said they had many securities, but it would be unwise to attempt to realize them at present, and instanced a security which had been paying 8 per cent. with the stock at par, and which now paid 1 to 1½ per cent. dividend with the selling price at 43, and they had about four millions of such assets. The coal fields were another property which he found had been purchased for a little over three millions, whilst two millions had been paid, and he had paid a further $452,958, which figured in the sum of $1,560,000 he had before mentioned. He allowed that he would not have purchased those properties, but he showed how valuable they were to the company, as they forced other coal proprietors to keep down the price of coal to them, for they only paid $2 60c. per ton; whilst Pennsylvania and New York Central were paying $5 20c. per ton. He had entered into a contract for the bituminous coal. He then came to the plan of reorganization, and urged the first bondholders to fund another coupon. The Atlantic and Great Western ought to be considered as a unit with the Erie, and what was to the advantage of one was to the advantage of both. He concluded by characterizing the line as a great property, which when thoroughly reorganized, would be a source of great revenue to both stock and bondholders. He thanked them for the patient hearing they had given him, and was greeted with applause for several minutes.

Mr. CONYBEARE proposed, at the end of the meeting, three cheers for Mr. Jewett and one cheer more, which was heartily responded to.

In the discussion which followed, Mr. POWELL complimented Mr. Jewett on the candor and straightforwardness of his address.

Mr. AUSTIN gave an assurance that the first bondholders would make any reasonable concession with regard to time, but he should like, on their behalf, to receive information as to what the precise concession was to be.

Mr. BELL expressed his faith in the ultimate success of the railway.

Colonel MAKINS, M. P., believed that Mr. Jewett would be enabled to bring the company out of the slough of despond, and Mr. E. J. HERAPATH hoped and believed that at length they had got the right man in the right place, but he ventured to dissent from some of Mr. Jewett's views. For instance—Mr. Jewett said a broad gauge line was dearer to work than a narrow gauge, but all experience in this country had proved that it was not so. It was advantageous, Mr. Herapath said, to have the Erie on the general narrow 4ft. 8½in. gauge, since a break of gauge was a serious traffic detriment. He would have preferred, however, that the Erie was narrow gauged completely and simply instead of being supplied with a third rail, for a mixed gauge was expensive to maintain.

Mr. CONYBEARE, Mr. SATTERTHWAITE, Mr. DOUGLAS, and others having spoken all in commendatory terms of Mr. Jewett, the Chairman, after eulogizing the address of Mr. Jewett, proposed a resolution to the following effect: That this meeting, having heard the frank, complete, and satisfactory statement of the Hon. Hugh J. Jewett, desire to offer him their support and confidence in the ardous task to which he is committed. They will especially support him in defending the Erie Company from an unjust competition in carrying out the financial scheme proposed (with such modifications as he may concur in with the committee), in remodelling and restoring the railway so that it may fully meet its competition in the conduct of business, and in proceeding with the claims against certain parties. Mr. CONYBEARE seconded the motion, which was carried unanimously.

Mr. JEWETT returned thanks for a vote of approval, on the motion of Mr. G. Smith, who also testified to the indebtedness of the bond and stockholders to Sir E. Watkin for his exertions on their behalf. A cordial vote of thanks to the chairman closed the proceedings.

Eastern Extension Railway.

A contract for the construction of the Eastern Extension Railway from New Glasgow, Nova Scotia, eastward through Antigonish to Hawksbury on the Strait of Canso, with a steam ferry across the Strait to Cape Breton; also for a Branch of the Intercolonial Railway from Truro to Pictou has been awarded by the local Government to H. Abbott & Co. The terms of the contract are understood to be a subsidy of $8,000 per mile, and the gift of the branch line of the Intercolonial from Pictou to Truro as a western connection. Sir Hugh Allan is said to be the sole partner of Mr. Abbott in this matter. The railway to be constructed is on the most direct route for quick transatlantic shipment, and it will be a vast advantage to his steamers to hold the connecting link between Louisburg and Quebec.

The Coal Trade.

The coal tonnage for the week ending the 22d inst., as reported by all the companies, amounted to 188,983 tons, against 620,537 tons in corresponding week last year, a decrease of 431,554 tons. The total amount of anthracite mined for the year is 8,526,195 tons, against 8,628,304 for same period last year, an increase of 102,109 tons. The quantity of bituminous coal sent to market for the week was 83,690 tons, against 86,542 tons for corresponding week last year, a decrease of 2852 tons. The whole bituminous tonnage from the beginning of the coal year is 1,904,087 tons, against 1,981,697 tons in corresponding time last year, a decrease of 77,610 tons. The total tonnage of all kinds of coal for the week is 272,673 tons, against 707,079 to corresponding date last year, a decrease of 434,406 tons, and the total tonnage for the coal year is 10,430,282 tons, against 10,610.00 tons to same date last year, a decrease of 179,719 tons. The quantity of coal and coke carried over the Pennsylvania Railroad during second week in in July was 84,989 tons, of which 72,077 tons were coal and 12,912 tons coke. The total carried this year is 2,338,027 tons, of which 1,920,042 were coal and 408,042 coke. This total embraces all the coal carried over the road, east and west. The receipts of coal at Perth Amboy for the week ending on the 22d instant were 12,689 tons, against shipments in the same time of 17,115 tons, leaving on hand 79,994 tons. Freights thence to Boston, 90 cents; Hartford 90 cents; New Haven, 60 cents; New York, 35 cents.—*Phila. Ledger, July* 31.

West Jersey Railroad.

The earnings of the West Jersey Railroad and leased roads for the year ending December 31, 1875, were:

From passengers		$389,457 18
" freight		205,131 82
" incidentals		9,446 65
" express		44,112 99
" mails		11,648 97
		$659,797 61
Expenses viz:		
Conducting transp	$154,933 56	
Motive power	85,372 32	
Maintenance of cars	23,404 09	
Maintenance of way	92,355 08	
General expenses	10,444 68	
		366,509 73
Net earnings		$293,287 88

The earnings of the West Jersey Railroad, including Cape May and Millville Railroad, were $613,586 40, the expenses $330,498 10, and the net earnings $283,088 30.

The earnings of the Swedesboro Railroad were $19,187, the expenses $12,039 29, and the net earnings $7,147 71.

The earnings of the Salem Railroad were $27,024 21, the expenses $23,972 34, and the net earnings $3,051 87.

The total gross earnings in 1875 were $659,797 61, against $623,391 46 in 1874, an increase of $36,406 15.

The gross expenses in 1875 were $366,509 73, against $437,691 39 in 1874, a decrease of $71,186 66.

The net earnings in 1875 were $293,287 88, against $185,700 07 in 1874, an increase of $107,587 81. The President in his report says:

It will appear, from the foregoing comparative statements, that, notwithstanding the general depression of all business during the past year, the gross earnings of your line increased 5.84 per cent., while the expenses have decreased 16.26 per cent.; the cost of operating your line being, in 1875, 53.86 per cent. of the receipts, and including the leased lines, 55.54 per cent., reflecting very favorably upon the management of those in the immediate care of your property.

It will be further observed that, after providing for and paying all interest, rentals, and other expenses, properly chargeable against income, there remains a balance of $95,689 95, as the net income for the year 1875, which is equal to a dividend of seven per cent. upon the capital stock of your company; and though the cash is now on hand in the treasury to more than represent this amount, yet the Directors have thought it prudent not to make any distribution of the same among the shareholders, but to retain and apply so much of it as may be required for some contemplated improvements (hereafter referred to), and your property better provided with improved facilities to secure to the line, through the inducements of comfort, speed, and attractiveness, such share of the summer travel as will afford, with proper economy and management, a permanency of income for the shareholders.

During the past year there have been no expenditures charged to capital account, all expenses having been charged to the general expenses of operating and maintaining your properties. Your board take pleasure in stating that the floating debt of $72,000, as shown in the report of 1874, has been paid off, and the securities held therefor returned to the Treasurer. Your company is therefore free from all indebtedness, and has now $125,000 temporarily invested upon proper security, until and as required for use by the Company.

The net earnings of the West Jersey and Cape May and Millville Railroads, as stated above, were $283,088 30, to which add interest from investments $41,364 42, making the total net income from all sources $324,452 72; from which deduct interest paid, $205,728 35—leaving a balance of $118,724 37. The amount paid for interest, dividends, etc., account Swedesboro Railroad, in excess of the net earnings, was $12,953 29; and for interest, dividends, etc., account Salem Railroad, $10,081 13, making a total of $23,034 42, which deducted from the above leaves a balance of $95,689 95.

The cost of the Cape May and Millville Railroad at date of lease to the West Jersey Railroad Co. was $753,365 49; expenditures made by West Jersey Railroad since date of lease, $79,642 33—making the total cost, $833,007 82; represented by capital stock, $500,000, and second mortgage bonds $500,000.

The cost of the Salem Railroad at date of lease was $278,320 43; expenditures since, $1,450 58—total $279,771 01; represented by capital stock $180,550, and bonds $100,000.

The cost of the Swedesboro Railroad was $271,431 24; expenditures since, $18,775—total, $290,206 24; represented by capital stock $93,350, and bonds $200,000.

The length of the West Jersey Railroad is 59.43 miles; Cape May and Millville Railroad, 41.35; Salem, 16.58; Swedesboro, 10.80—total, 128.16 miles. Number of miles of turnouts, 14.56.

The company have 19 locomotives; 45 passenger, 7 mail, 3 baggage, 31 box, 2 stock, 60 platform, 131 dump, and 42 hand cars.

Miles run with passenger trains, 281,995; with freight trains, 105,865; distributing, 12,293—total, 400,153.

Number of passengers carried, 656,212; do. carried one mile, 16,290,518. Av. receipts per passenger per mile, 2.39 cents.

Number of tons carried, 144,233; do. carried one mile, 4,372,805. Av. receipts per ton per mile, 4.69 cents.

President.—GEORGE B. ROBERTS.

Vice President.—A. J. CASSATT.

Directors.—George B. Roberts, Samuel A. Whitney, Charles E. Elmer, Colemen F. Leaming, Lewis Mulford, John M. Moore, Strickland Kneass, Josiah Bacon, T. J. Yorke, George Wood, Thomas H. Dudley, J. N. Dubarry, Alex. G. Catell.

Secretary and Treasurer.—WM. TAYLOR.

General Manager.—FRANK THOMSON.

☞ The Hanover (Pa.) Spectator says that Joseph S. Gitt, civil engineer, has commenced the survey for a new railroad, from Black Rock Station, on the Bachman Valley railroad, to or near Manchester, and thence to Hampstead, and down the Worthington Valley to near Reisterstown, connecting with the Western Maryland railroad near the camp-ground, or Timber Grove. It is supposed that the length of the proposed road will be about sixteen miles.

☞ The Quebec *La Canadien* says that on the North Shore Railway there are 1,200 men at work between Quebec and St. Anne, and 900 between St. Anne and Maskinonge. The terms of the contract are being strictly complied with. The masonry work in particular is being actively pushed forward. In a few days the locomotives will be on the line, and the laying down of the rails from Quebec will be commenced.

☞ The earnings of the Sioux City and St. Paul Railroad for the first six months of 1876 were $162,313 54, the expenses $130,213 74, and the net earnings $32,099 80. For the corresponding six months of 1875 the earnings were $104,158 88, and expenses $114,128 87—showing a loss of $9,969 99.

☞ The Sunbury and Lewistown Railroad, which has been closed to travel for a year, has again been put into operation under the management of the Pennsylvania Railroad Company, who operate it under a lease.

☞ A Brooklyn seven per cent loan, three years to run has been awarded at 105.45; and a six per cent loan, also three years to run, at 102.51.

Erie Railway.

From the report of H. J. Jewett, Esq., Receiver of the Erie Railway Company, filed in the County Clerk's Office on the 29th ult., it appears that the receipts during the month of May (including $305,005 96 on hand at the commencement of the month) were $2,705,104 60; and the disbursements, $2,219,181 62—leaving a balance May 31, 1876, of $485,922 98: of which $224,598 01 was actually in possession of the Receiver. The balance ($201,342 97) consisted of cash items or debit items, comprising vouchers, notes, bills, advances, checks, drafts, payments, &c., not wholly settled or disposed of, and so could not be passed on by the referee, whose report was also filed with that of Mr. Jewett, and was confirmed by Judge Donohue. Certificates of indebtedness to the amount of $565,000 were issued by the Receiver, and certificates to the amount of $310,000 were canceled during the month. The aggregate amount of certificates of indebtedness issued up to and including May 31 was $2,916,539 40; the aggregate amount of such certificates cancelled was $1,494,539 40—leaving the aggregate amount outstanding, $1,420,000.

☞ At the annual meeting of the Erie Coal and Railroad Company, held at the office of the Erie Railway Company on the 20th ult., the following directors were elected: E. M. Clymer, Reading, Pa.; C. R. Early, Ridgeway, Pa.; A. McKinney, A. A. Marsh, E. S. Bowen, New York, and Leverett Saltonstall, Boston. The officers are: President, Henry G. Stebbins, New York; Secretary, C. H. Deering.

☞ The Montgomery (Ala.) Advertiser says the bonds necessary to carry out the settlement made by the commissioners and ratified by the Legislature have been signed, and the commissioners have been for some time busily engaged in making the exchange of new for old bonds. The holders of the old bonds have very generally and promptly responded.

☞ An effort is being made to interest the people in the neighborhood of Washington in the Washington and St. Louis narrow gauge railroad. At Fairfax Court House, Va., on the 18th ult., a meeting was held in aid of the work, and a committee was appointed to consult with the officers of the road on the subject of the route, &c.

☞ The earnings of the Philadelphia and Erie Railroad for the month of June, 1876, were $261,265 41, the expenses $233,010 34, and the net earnings $28,255 07. For the first six months of 1876, the net earnings have been $428,295 60, against $391,720 01 for the first six months of 1875, an increase of $36,575 59.

☞ Mr. T. F. Maney of Lewiston, Me., has contracted to build thirteen miles of the Manchester and Keene Railroad in New Hampshire at $22,000 per mile, and will commence operations at once, employing 1000 men, from Lewiston principally.

☞ The following gentlemen have been elected directors of the Northern and Southern West Virginia Railroad Company: John W. Strong, Wm. Montrose, Benj. W. Byrne, Gideon D. Camden, Albert S. Catlin, P. C. Van Schaick, Glenville Whittlesey, Oliver E. Wood and W. B. Hotchkin.

American Railroad Journal.

Saturday, August 5, 1876.

Financial and Commercial Affairs.

Very little variation has occurred during the week in the Money line. An unusually moderate inquiry has been reported for accommodation, as well for speculative as for mercantile purposes. Call loans have been quoted very easy to responsible borrowers, at 1½@3. and best mercantile credits at 3@5 per cent per annum. Liberal amounts of capital, seeking employment here, have failed to find a prompt and satisfactory market at even these low figures. Operations at the Stock and Gold Boards have not been of sufficient magnitude to afford lenders a ready market for their balances. The City banks had their loan and discount averages and their circulation cut down, while reporting a further liberal enlargement of their legal tender item. The specie reserve and the deposits show a reduction. The Government office here diminished its coin and currency balances to a moderate extent. National Bank notes received at the Treasury Department last week for redemption were to the amount of $7,589,000. The City Banks have had their deposits diminished $876,000; and their legal tender reserve increased $2,325,200. The specie average has been reduced $1,386,200. The loan and discount item was contracted $1,177,100. The circulation fell off $258,100. The U. S. Sub Treasury in this city closed the week with a currency balance of $29,566,044 against $30,520,879 the preceding week; and a coin hoard of $33,081,424, against $33,684,552 on the previous return. The City bank exchanges in currency reached $294,959,629, or a daily average of $49,159,935. The customs revenue of the port during the week was $1,889,000.

The City banks reported their average of gold last week at $19,295,200, and their greenback average at $59,523,400. Their deposits stood at $228,829,100. The loan item was $250,505,000. The circulation was $15,004,200.

The City Bank net reserve of specie and legal tender notes now shows an excess over the legal requirement of reserve to liabilities of $22,861,825, as against $21,708,150 the preceding week.

The U. S. Sub Treasury receipts from all sources in July were $50,652,787, including $7,786,281 from customs; and the disbursements on all accounts were $66,333,253, including $10,017,055 of coin interest.

The Treasury disbursements by warrants during July on account of civil and miscellaneous, War, Navy, and Interior, (Indians and pensions,) were $11,900,147, exclusive of payments made on account of the interests for principal of the public debt of the United States.

The last public debt statement exhibited a further liquidation of $1,138,034 in July, bringing the aggregate indebtedness, less the cash in the Treasury, August 1, 1876, down to $2,098,801,311.

The aggregate of the outstanding U. S. currency of all denominations, August 1st, was $403,022,216. The outstanding amount of legal tender notes is $369,686,021. The National bank circulation is now $327,874,269, including $2,099,190 of national gold bank notes.

On Tuesday of this week the cash balances of the Treasury Department at Washington were: of Currency $12,590,350; special deposit of legal tenders for the redemption of certificates of deposit, $32,815,000; Coin, $59,843,685; Coin certificates, $32,815,000.

The income of the Government from internal revenues thus far in the current fiscal year, commencing with July 1, 1876, has been about 12½ millions; and from Customs, 13 millions.

The week's import entries of Foreign Merchandise at New York were $5,168,729, including $2,048,845 of Dry Goods.

Gold has been rather more active, the speculative demand having been more animated, due in part to the war reports and rumors from Europe. The export drain, however, has been less extensive, and the customs call also less urgent. The price has fluctuated considerably. The extremes of the price during the week have been 111¾ @112¼, closing on Wednesday at 111⅞, as against 111⅞ on Wednesday of the preceding week. The specie outflow last week was $695,181, against $2,620,887 the previous week. The imports of specie at this port last week were $35,432, and since January 1st $2,587,713 as against $7,976,071 same time last year. The customs demand for gold last week averaged $314,833 per day. Foreign Exchange has been moderately active and quoted easier in price. Bankers sixty day bills on London closed on Wednesday at $4 87⅛@$4 88; sight bills on London at $4 89⅛@$4 90 to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $5,427,889. The week's imports of Dry Goods and general merchandise were to the specie value of $5,168,729 as against $5,803,769 the corresponding week of 1875.

Government Securities have been in fair demand on investment account at somewhat variable prices closing, however, rather buoyantly on light offerings. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $340,281,850.

U. S sixes of 1881 closed on Wednesday of this week at 120⅛@120¾; U. S. Five-Twenties of 1865, at 116@116¼; U. S. Five-Twenties of 1865 consolidated, 117⅛@117¾; U. S. Five-Twenties of 1867 119⅛@119¾; U. S. Five-Twenties of 1868, 121⅛@121¾; U. S. Ten-Forties at 118⅝ @118⅞; U. S. Fives of 1881, (Funding Loan) 116⅞@117⅛; Six per cent. currency Sixes 125½@126.

State and Railway bonds have been in less request, yet prices of the more substantial loans have been fairly supported. And in the line of Railway and Miscellaneous share property a moderately active business has been reported at unsettled prices; closing weak and feverish.

General business has shown rather more animation and steadiness in the line of domestic produce with, however, a rather slow movement in foreign merchandise. The Dry Goods trade has been increasing in volume and importance since the return of cool weather. The Metal trade has been unusually tame, with values quoted generally as before. Eglinton Pig Iron quoted here at $27 50@$28; Glengarnock $28 @$29; Coltness $29 50 @$30 50; No. 1 American Pig at $22@$23; No. 2 do. at $20@$21 50; Forge $18@20; American Rails at works $42 50@$45 00; Old Rails $21@$22. Wrought Scrap 28. Ocean freights have been more active with berth rates quoted generally firmer, the main inquiry having been for accommodation for Grain, Flour, Petroleum, Provisions, Tobacco, Cotton, Resin, and Oil Cake. The chartering interest has shown less life, though this also seemed brisker toward the close.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—Cedar Falls and Minnesota 1st mort., 88; Chesapeake and Ohio R. R. 1st mort., coupon on, 27⅛; Cleveland and Toledo 7s, S. Southern Pacific Railroad.

Over 32,000 tons of American steel rails have been received in San Francisco from New York during the past year for the Southern Pacific Railroad. The road is advancing toward Los Angelos at the average rate of a mile a day. Contract has been entered into for the iron bridge across the Colorado at Fort Yuma. The San Francisco *Alta* says:

"It is expected that the railroad between this city and Los Angeles will be completed by the middle of September, and the men now employed there will then be transferred to the Colorado Desert, to finish the 110 miles this side of Fort Yuma by the end of the year. Orders have been sent for the delivery of steel rails, so that the tracklayers can follow after the graders."

☞ According to the Indiana State Board of Equalization, the total number of miles of railroad in the State is 3905, and the total assessment of property, $38,294,513.

☞ A narrow gauge Railroad from East Brookfield through Spencer to Worcester, Mass., is projected.

☞ Surveys for the proposed Peterborough and Hillsborough (N. H.) Railroad are now in progress.

Coinage of the U. S. Mints.

The entire coinage of the three United States mints during the fiscal year ending 30th of June last was $57,448,685, an increase of $13,598,977 over the total for 1874-75. Of the entire coinage of 1875-76, $38,182,962 was gold, and the remainder, $19,265,723, silver. Of the gold $27,036,500 was coined at San Francisco, $8,260,937 at Philadelphia, and $2,855,525 at Carson; and of the silver $8,953,000 was coined at San Francisco, $6,600,503 at Philadelphia, and $3,474,750 at Carson. Of the entire gold coins produced $37,900,720 were double eagles, $158,610 eagles, and $128,682 half and quarter eagles. The silver coinage consisted of $6,182,050, in trade dollars, $4,985,525 and $4,008,013, respectively, in half and quarter dollars, $262,560 in twenty cent pieces, $3,640,105 in dimes, and the remainder in the smaller coins.

Statement of the Public Debt of the United States, August 1, 1876.

Totals	$64,623,512 00	$323,117 56

Interest paid by United States, $32,080,218 43; interest repaid by transportation of mails, &c., $6,909,204 91; balance of interest paid by United States, $25,171,013 51.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, July 31, 1876.

LOT M. MORRILL,
Secretary of the Treasury.

☞ The serial annual interest on the 3.65 District of Columbia bonds is now being paid at the Treasury in Washington and by the Assistant Treasurer in New York. The amount is about $250,000.

☞ The Chesapeake and Ohio canal extension committee has been called to meet at Cumberland, Md., on the 15th of August, to confer with the canal board in reference to constructing a proposed new railroad to the Maryland coal fields.

☞ The extension of the Martha's Vineyard Railroad was formally opened on the 27th ult. The road, which formerly terminated at Mattakeset Lodge, has been continued to the beach at the south side of the Island.

☞ During the season up to July 12th, there were shipped 315,178 tons of iron ore from the Marquette district (Escanaba, Marquette and L'Anse), an increase of 44,145 tons for this season over last year's product.

☞ By a late act of Congress, all letters or circulars, relating to lotteries, gift-concerts, or schemes of chance of any description, are declared to be unmailable, and entirely excluded.

☞ It is expected that the branch of the Wisconsin Central Railroad from Portage to Stevens Point will be completed by the 15th of August.

MARSHAL'S SALES.

Marshal's Sale.

George L. Douglass, trustee, &c., pl'ffs, against Louisville, Cincinnati and Lexington Railroad Company, def'ts, and cases heard therewith—Louisville Chancery Court, No. 27,787.

BY virtue of a judgment rendered in the above-named case and the cases heard therewith, the undersigned will,

ON MONDAY, DECEMBER 4, 1876,

sell at public outcry at the door of the court-house, in the city of Louisville, Ky., about the hour of 11 o'clock, A. M., to the highest bidder, the following described property, viz:

All the rights, properties and franchises of the Louisville, Cincinnati and Lexington Railroad Company, including all the right, title and interest of said company free from the liens, mortgages or claims of any kind of the parties herein except as hereinafter stated in and to its line of railroad from its depot on Brook st., in the city of Louisville, through the counties of Jefferson, Oldham, Henry, Franklin, Woodford, Scott and Fayette to its depot on Water st., in the city of Lexington, and from Lagrange Junction, in Oldham county, through the counties of Oldham, Henry, Carroll, Gallatin, Grant, Boone, Kenton and Campbell, to its junction in the city of Newport with the Newport and Cincinnati Bridge, with all its improvements and appurtenances, right of way, lands adjacent thereto, depots, and the land upon which they are situate, and adjacent thereto, machine shops, round houses, cattle-pens, and the lands on which they are situate and adjacent thereto, turn-outs, side-tracks, switches, engines, passenger cars, baggage cars, freight cars, dirt cars, hand cars and all other rolling stock of every description, machinery, tools, implements, fixtures, furniture, whether in buildings owned by it or leased by it or the receiver, materials and supplies of every description, so as to vest in the purchaser all of the right, title and interest of said Louisville, Cincinnati and Lexington Railroad Company, and to all property owned by it or in which it has any interest on said day of sale except choses in action, and all its rights and franchises free from any lien or claim of any of the parties to this suit except as hereinafter stated.

The purchaser or in the event of his transferring his bid before confirmation of the sale and the transferee thereof being accepted by the court, such transferee shall in any event in addition to the amount bid by him be required to assume the following outstanding debts, and all the engagements and obligations of the mortgage and deed of trust given to secure them, viz: One hundred bonds of one thousand dollars each, executed by the city of Louisville, the payment whereof was assumed by the Louisville and Frankfort Railroad Company, and secured by deed of mortgage dated 20th November, 1854, and recorded in the Jefferson County Court clerk's office, in deed book —, page —. Said bonds mature July 1, 1881, and bear interest at 6 per cent. per annum from July 1, 1876, payable semi-annually on the 1st day of each July and January from January 1, 1877, to July 1, 1881, inclusive.

Twelve bonds of one thousand dollars each, executed by Louisville and Frankfort Railroad Company, and secured by deed of trust from said corporation to James Guthrie, Virgil McKnight and Joshua B. Bowles, dated March 12, 1857, five of which bonds mature July 1, 1877, and seven of which mature July 1, 1878, and all of which bear interest at 6 per cent. per annum, payable semi-annually from July 1, 1876, the first five bearing coupons payable January 1, 1877, and July 1, 1877, and the other seven bearing coupons payable January 1, 1877, July 1, 1877, January 1, 1878, and July 1, 1878.

In addition to the assumption of the above amounts, and the engagements and obligations of the above mortgage and deed of trust, the undersigned will first offer said property, subject to the assumption by the purchaser of the following amounts and of the engagements, obligations, rights, duties and powers of the deeds of trust given to secure them respectively, to-wit: three thousand bonds of one thousand dollars each, dated January 1, 1867, and due January 1, 1897, bearing interest from July 1, 1876, at the rate of seven per cent. per annum, payable semi-annually on the first day of each January and July from January 1, 1877, to January 1, 1897, both inclusive, and same secured by deed of trust from the Louisville and Frankfort and Lexington and Frankfort Railroad Companies to Norvin Green, trustee, dated January 1, 1867, and hereinafter called the Norvin Green trust deed.

Nine hundred and eighty-nine bonds of one thousand dollars, each dated April 1, 1870, and due April 1, 1900, bearing interest from October 1, 1876, at the rate of 8 per cent. per annum, payable semi-annually on the first day of each April and October from April 1, 1877, to April 1, 1900, both inclusive, and same secured by deed of trust from the Louisville, Cincinnati and Lexington Railroad Company to George L. Douglass, trustee, dated April 1, 1870, and hereinafter called the Douglass trust deed.

Three hundred and seventy-four bonds of one thousand dollars, each dated October 1, 1872, and due October 1, 1902, bearing interest from October 1, 1876, at the rate of eight per cent. per annum, payable semi-annually, on the first day of each April and October from April 1, 1877, to October 1, 1902, both inclusive, and same secured by deed of trust from the Louisville, Cincinnati and Lexington Railroad Company to A. D. Hunt, trustee, dated October 7, 1872, hereinafter called the Hunt trust deed.

One million five hundred and eighty-two thousand five hundred dollars in bonds, some of one thousand dollars and some of five hundred dollars, each dated April 1, 1873, and due 1st January, 1903, bearing interest from July 1, 1876, at the rate of seven per cent. per annum, payable semi-annually on the first day of each July and January from January 1, 1877, to January 1, 1903, both inclusive, and same secured by deed of trust from the Louisville, Cincinnati and Lexington Railroad Company to James Lees, trustee, dated April 1, 1873, and hereafter called the Lees trust deed.

When said property is so offered, subject to the assumption by the purchaser of the amounts secured as above by said six mortgages, and his assumption of the engagements, obligations, rights, powers and duties of said six mortgages, if an amount is bid equal to the amount of interest due and unpaid thereon regarding the bonds as not matured, together with unpaid costs of said mortgages, and costs of sale and James Taylor's claim, the undersigned will proceed to sell the property so subject, and accept the highest bidder. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by the first five mortgages (excluding the Lees trust deed), and his assumption of the engagements, obligations, rights, powers and duties of said five mortgages. When said property is so offered, if an amount is bid equal to the amount of interest due and unpaid under said five mortgages regarding the bonds as not matured, and unpaid costs of the said five mortgages and of sale and James Taylor's claim, the undersigned will proceed to sell the property so subject, and accept the highest bidder therefor. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by the first four mortgages (excluding the Lees and Hunt trust deeds), and his assumption of the engagements, obligations, rights, powers and duties of said four mortgages. When said property is so offered, if an amount is bid equal to the amount of interest due and unpaid under said four mortgages regarding the bonds as not matured, and unpaid costs of said four mortgages and costs of sale, the undersigned will proceed to sell the property so subject, and accept the highest bidder therefor. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by the first three mortgages (excluding the Lees, Hunt and Douglass trust deeds), and his assumption of and subjection to the engagements, obligations, rights, powers and duties of said three mortgages. When said property is so offered, if an amount is bid equal to the amount of interest due and unpaid under said three mortgages regarding the bonds as not matured, and unpaid costs of said three mortgages and of sale and James Taylor's claim, the undersigned will proceed to sell the property so subject, and accept the highest bid therefor. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by the first two mortgages (excluding the Lees, Hunt, Douglass and Green trust deeds), and his assumption of and subjection to the engagements, obligations, rights, power and duties of said two mortgages, and will accept the highest bidder therefor.

The purchaser, or in the event of his transferring his bid before the sale is confirmed, and his transferee being accepted by the court, such transferee will be required to execute a separate obligation to the mortgagee or trustee of each mortgage or deed of trust to which he buys subject, and shall, by such obligation, bind himself to the payment of the debts secured by such mortgage or deed of trust, principal and interest as and when they become due, and to the performance of all the engagements and obligations contained in said mortgage or deed of trust, and shall subject himself and the property purchased by him or future to be acquired by him, as the owner of said railroad, to all the duties, conditions, engagements and obligations of said mortgage or deed of trust, and confer upon said mortgagee or trustee and his *cestui que* trusts all the powers, rights and duties conferred by the original mortgage or deed of trust, and in every way to bind himself and the property then owned and future to be acquired by him as owner of said railroad, and to confer upon said mortgagee or trustee and his *cestui que* trust all the rights and powers as if he, the said purchaser, had been the grantor in said original mortgage or deed of trust, and the maker of said bonds and coupons.

If said property is sold subject to any other mortgages than the ones of the city of Louisville and Guthrie, McKnight and Bowles, it will be sold on a credit of 3, 6, 9, 12, 15, 18, 21, 24, 27, 30, 33, 36, 39, 42, 45, 48, 51, 54, 57 and 60 months, for equal parts of the purchase money. If sold subject to these mortgages, it shall be sold on a credit of 3, 6, 9, 12, 15, 18, 21, 24, 27, 30, 33, 36, 39, 42, 45, 48, 51, 54, 57, 60, 63, 66, 69, 72, 75, 78, 81, 84, 87, 90, 93 and 96 months, for equal parts of the purchase money.

The purchaser will be required to execute bonds, with good security, bearing interest from date until paid at 6 per cent. per annum, and said bonds will be drawn payable on or before the day of their respective maturities. The bidder accepted by the marshal will be required to at once deposit with said marshal the sum of $20,000 as security for his compliance with the terms of sale, which sum the marshal shall at once pay into court, which may be withdrawn by the said bidder on confirmation of the report of sale. A lien will be retained on the property sold to secure the bonds of the purchaser, and any obligation executed by him for mortgages or deeds of trust assumed by him.

C. C. W. ALFRIEND,
Marshal Louisville Chancery Court.

DIVIDENDS.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD COMPANY, NEW YORK, June 21, 1876.

A DIVIDEND OF FOUR PER CENT. HAS been declared by this company, payable on the 1st day of August next to the holders of full paid shares registered at the close of the 14th day of July next, after which, and until the 5th day of August the transfer-books will be closed.

L. V. F. RANDOLPH, Treasurer.

Stetson's Patent Agency.

23 MURRAY ST., NEW YORK, June 1, 1876.

THE PRACTICE OF THIS OFFICE IN REgard to rejected applications is changed. Instead of as heretofore taking a copy of the official letter of rejection and invariably sending the original to the client, and inviting suggestions to aid in urging the case, I now, unless instructed to the contrary, proceed at once to give it attention and argue or amend.

☞ During the first 15 days in July the sum of $196,043 78 was paid in this city to holders of Ohio State Stocks for interest due them to July 1. The amount of interest uncalled for was only $3,885 40, which will be paid at the Sinking Fund Department in Columbus. The State debt now amounts to $6,683,839 48, of which interest has ceased on $22,865.

☞ The Staunton (Va.) Spectator states that the trains on the Valley Railroad have been running regularly, under the lease by the Shenandoah Valley Railroad Company since the 8th ult. with a large amount of travel and freights.

☞ Workmen have commenced laying ties on the Springfield and Rockville (Conn.) Railroad at Ellington.

☞ The Chatham branch of the Intercolonial Railway was formally opened by C. H. Brydges on the 24th ult.

☞ The loan of $1,000,000 of the Old Colony Railroad has been taken by Messrs. Kidder, Peabody & Co. at 102.52.

☞ The Ohio State Journal says it is stated that the withdrawal of the Atlantic and Great Western Railroad from the Cincinnati, Hamilton and Dayton will cause the early opening of a new passenger and freight line to New York and other eastern points, via the Cincinnati, Hamilton and Dayton, Dayton and Michigan, and Canada Southern Railroads.

☞ A certificate of incorporation has been filed with the Secretary of State of Ohio of the Northwestern Ohio Railway company—Michigan and Ohio line to Tiffin—through the counties of Seneca, Wood, Sandusky, Ottawa and Lucas. Capital stock $1,000,000, by R. F. Smith and others.

☞ The narrow gauge road laid with maple rails, from Lone Rock to Richland Centre, Wis., is open for traffic. The road has a locomotive and nine cars, and cost $3800 per mile.

Rutland Railroad.

The annual meeting of the stockholders of the Rutland Railroad Company was held in Rutland, Vt., on the 26th of July. Hon. John B. Page, President, called the meeting to order. J. M Haven was elected clerk *pro tem.* The President submitted the following report showing the financial condition of the company July 1, 1876, which was accepted and adopted:

REPORT OF THE DIRECTORS.

The financial condition of the Corporation, as appears from the Treasurer's books, is as follows:

BALANCE SHEET, July 1, 1876.

Capital stock, common		$2,480,000 00
Capital stock, preferred		4,168,760 00
Bonds, equipment		1,000,000 00
Bonds, first mortgage	$1,500,000	
Bonds, first mortgage on hand	287,900	1,212,100 00
Dividend scrip outstanding		827 494 68
Coupons unpaid		3,810 00
Bills payable, less bills receivable		256,978 89
		$9,449,683 57
Construction account		$9,094,343 82
Real estate		116 925 87
Addison Railroad stock		178,100 00
Claim against Addison Railroad Company to offset back dividends on stock in that company, not owned by Rutland Railroad Co.		48,813 88
Rent due from lessees		11,500 00
		$9,440,683 57

In the settlement last February with the Central Vermont managers there was charged them the balance due on rent account as stated in the last annual report viz:

1875, July 1, due and unpaid, not including interest	$271,869 54
1876, Jan. 1, due on the Rutland and leased roads to date, per terms of contract of Dec. 30, in six months rent	334,500 00
Interest due on account	21 005 46
	$627,375 00

This balance was adjusted by credit—

Cash and notes	$348,311 40
Addison Railroad stock, with the back dividend thereon	48,400 00
Claim against the Addison Railroad Company assigned	102,047 16
Amount relinquished	128,616 38
	$627,375 90

The rent of the Rutland and leased roads under the modified contract ratified by the stockholders at the special meeting in February last for the six months ending July 1, 1876, amount to $189,000; all of which has been paid except $11,500.

The receipts for the year ending July 1, 1876, are as follows:

Cash and notes on rent account	$525,811 46
Cash for ground rent	724 98
Cash for interest on bills receivable	6,833 47
Cash charged Addison Railroad in settlement of claims against that road	60,399 50
	$593,839 36

The disbursements are for:

Coupons paid on equipment bonds	$75,000 00
Coupons paid on first mortgage bonds	99,180 00
Interest account balance	30,327 65
Old first mortgage bonds R. and B., with interest	15,880 71
Rents paid on leased roads	104,500 00
Legal and other services prior to July 1875	15,053 82
Legal expenses incurred and paid to the present time	10,567 39
Salaries	8,150 00
Advertising, stationery, postage and telegrams	675 54
Bills payable paid	283,504 25
	$593,839 36

The auditing committee appointed for that purpose have examined the Treasurer's books and accounts, and their certificate is appended.

Respectfully submitted by order of the Directors.

JNO. B. PAGE, President.

July 26, 1876.

We, the undersigned Auditors, have examined the bonds and accounts kept by the Treasurer of the Rutland Railroad Company from July 1, 1875, to July 1, 1876, and the foregoing trial balance and statement of receipts and disbursements, as showing the condition of the corporation July 1, 1876, have been verified by us and found correct. We have also examined and canceled the vouchers in the hands of the Treasurer.

There has been paid since the last report $5000 of the then outstanding first mortgage bonds of the Rutland and Burlington Railroad Company, which have been canceled. There now remains outstanding of these bonds $14,100.

J. H. WILLIAMS,
N. KELLOGG.

Rutland, Vt., July 26, 1876.

The meeting then proceeded to the election of nine Directors of the Company for the ensuing year, with the following result: Whole number of votes cast, 21,918. Of this number Jacob Edwards, Peter Butler, James H. Williams, Jas. W. Hickok, Wm. Sobier, Jas. W. Whitney and John Prout had 21,918, and John B. Page and Edwin A. Burchard 21,908. All these gentlemen were declared elected. After some discussion over parts of the report the meeting was dissolved.

The Directors subsequently held a meeting and elected Hon. John B. Page President and J. M. Haven Treasurer.

E. E. ROBERTS, CONTRACTING ENGINEER. 119 Liberty st.—Plans and Estimates furnished for any kind of machinery. Large stock of Engines, Boilers and Machine Tools. 4t29

ENGINE AND BOILERS FOR SALE CHEAP.—One 18×36, one 14×12, one 12×24, one 9×20 stationaries; and one 8×12 portable; all new; also a system of good second hand line Preparing and Spinning Machines, Rope and Bagging Machinery. 8t27* J. C. TODD, 10 Barclay st.

BOGARDUS' PATENT UNIVERSAL ECCENTRIC MILLS—For grinding Bones, Ores, Sand, Old Crucibles, Fire Clay, Guanos, Oil Cake, Feed, Corb, Corn and Cob, Tobacco, Snuff, Sugar, Salts, Roots, Spices, Coffee, Cocoanut, Flaxseed, Asbestos, Mica, etc., and whatever cannot be ground by other mills. Also for Paints, Printers' Inks, Paste Blacking, etc. JOHN W. THOMSON, successor to JAMES BOGARDUS, corner of White and Elm sts., New York. 3m24*

FINANCIAL.

ALEX. FROTHINGHAM & CO., BANKERS AND Brokers, No. 13 Wall st., make for customers desirable investments of large or small amounts in stocks of a legitimate character, which frequently pay from five to twenty times the amount invested every thirty days.

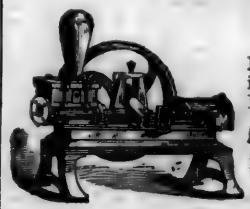
Reliable stock privileges negotiated at favorable rates. Stocks bought and carried as long as desired on deposit of three to five per cent. Circulars and weekly reports sent free. 1y23*

YORK CAR WORKS.

ESTABLISHED IN 1852.

Billmeyer & Smalls,

YORK, PENN.



This old established firm continue to build all kinds of Freight Cars to order.

Narrow Gauge Freight and Passenger Cars

having received their special attention, they are prepared to receive orders and to deliver promptly.

Circulars sent on application.

PUMPS.

James Clayton,

MANUFACTURER OF

Fly-Wheel and Direct Acting Steam Pumps, Air Pumps, Vacuum Pumps, Air Compressor Pumps, etc.,

14 and 16 Water St., (Near Fulton Ferry) BROOKLYN, N. Y.

A. WHITNEY & SONS, CAR WHEEL WORKS,

Callowhill and Sixteenth Sts.,

PHILADELPHIA, PENN.

FURNISH CHILLED WHEELS for Cars, Trucks and Tenders. CHILLED DRIVING WHEELS and TIRES for Locomotives. ROLLED and HAMMERED AXLES.

WHEELS and AXLES FITTED COMPLETE.

90 PER CENT IRON

Rawlin's Metallic Paint.

The Cheapest, Best, Most Durable, Most Fire, Water and Weather Proof paint made. Used by the Pacific Mail Steamship Co., and Union Pacific R. R. Co.

Address all Orders

Cheap Narrow Gauge Railroad.

The Pine River Valley and Stevens Point Narrow Gauge Railroad, extending from Richland Centre to Lone Rock, Wis., is 16.2 miles in length. The work was begun last October and the line was completed to Lone Rock, on the Prairie du Chien division of the Chicago, Milwaukee and St. Paul Railway early in July last. The total cost of the road thus far has been about $70,000, including depot building at Richland Centre, one locomotive and nine freight cars. The cost of the locomotive, delivered, was $5,280, and the freight cars, $2,889. Three of the cars have been covered at a cost of $50 each. The total cost of the rolling stock is therefore $8,219, leaving the entire cost of the road but little more than $60,000, or about $3,750 per mile for grading, ties and track.

The rails are of maple wood instead of iron. They consist of scantling from 12 to 16 feet long, and 3½ by 5 inches in size, set on edge. The ties are of oak, every second or third tie being squared, set up endwise, and furnished with a couple of "gains" (or transverse cuts), in which the rails are sunk and wedged. The ends of the rails are sawed with long bevels and bolted to each other. The gauge of the track is three feet. Iron rails are used on curves, and the C., M. & St. Paul Railway Co. furnished a connection of 1,000 feet of iron track at Lone Rock. The locomotive weighs 11 tons, the tender 2 tons, the flat cars 7,640 lbs. each, and the covered cars 5 tons. Two round trips are made over the road every day at a speed of 11 miles an hour, but when the track is settled and ballasted they expect to make 16 miles an hour.

Louisville, Cincinnati and Lexington R. R.

The following is an official statement of the gross earnings, operating expenses, net profits, etc., etc., of the Louisville, Cincinnati and Lexington Short Line Railroad for the fiscal years ending June 30, 1873, 1874, 1875 and 1876:

	1873.	1874.
Gross earnings	$1,212,027 14	$1,183,071 35
Operating expenses, ordinary	928,367 14	888,034 90
Renewal of ties and rails	48,207 82	36,100 49
Total operating exp.	976,574 96	924,135 39
Net transportation earnings	235,452 18	268,935 96
Construction and improvement	....	....
Taxes, rentals, deficits	81,781 67	118,137 74
Net profits	153,670 51	150,798 22
	1875.	1876.
Gross earnings	$1,132,560 64	$1,125,249 26
Operating expenses, ordinary	804,468 80	705,023 67
Renewal of ties and rails	93,972 26	98,351 76
Total operating exp.	898,431 06	803,375 43
Net transportation earnings	234,129 58	321,872 83
Construction and improvement	7,052 45	9,705 82
Taxes, rentals, deficits	89,126 22	76,702 95
Net profits	137,950 91	235,465 56

The earnings and expenses for the four years above stated embrace those of the Louisville, Cincinnati and Lexington (174.90 miles), Shelby (18.60 miles), and the Big Sandy Railways (33.50 miles), total 227 miles. For the years 1873 and 1874 they include the earnings and expenses of the Louisville Railway Transfer (4.13 miles). Prior to 1873 the company operated only the line to Lexington and Cincinnati (174.90 miles,) and the earnings and expenses are omitted for comparison. The expenses for 1873 do not include the sum of $54,347 50 expended in that year in adjusting the suits for damages arising from the falling of Tenmile bridge in the spring of 1872. The increase in the rentals and deficits for 1874 is occasioned by the charges of $17,786 50 for tolls on cars over the Newport and Cincinnati bridge (which item has in the other years been charged against the earnings), and the sum of $14,631 19 deficit in the guaranteed traffic to the Newport and Cincinnati bridge. The taxes include state and city taxes.

Pennsylvania Transportation Co.

This company was re-organized on the 25th ult. The officers are: Henry Harley, President; J. T. Jones, Vice President; C. W. Batchelor, Treasurer; Herman Haupt, Chief Engineer. The company proposes to commence at once the laying of a pipe line from Brady's Bend and Sligo to Philadelphia and Baltimore. The line to the latter point is to be finished by October next, and the capacity is to be 5,000 barrels a day.

Charts and profiles of the line, with estimates of the cost of the machinery, pumps, pipe and other material, with incidental expenses preparatory to opening the line for transportation were submitted and approved by the Board of Directors, and it is the intention of the management to push the work to completion as rapidly as possible. The Pittsburg Chronicle says that the "new combination have already a million of barrels of tankage, with 800,000 barrels of oil on hand, and will undoubtedly be a power to be felt in the future movements of the trade."

St. Louis, Alton and Terre Haute Railroad.

The answer in the case of the St. Louis, Alton and Terre Haute Railroad Company against Charles Butler, Samuel J. Tilden, Russel Sage and others, was filed on the 7th inst. in the United States Circuit Court. The defendants admit the organization of the road, but they deny that the owners and holders of the various stocks and bonds ever subscribed to the paper in the complaint called "exhibit A." Samuel J. Tilden, for-

ther answering for himself, says that during all the period since July, 1862, as well as before that time and until some time in June, 1873, he acted at the request of the purchasing committee as counsel in their important matters; that for such services he never received any compensation whatever; that during all the eleven years between said dates, said Tilden, at the instance and request of complainant, as well as of purchasers, was accustomed to render professional services as counsel for complainant, who was in frequent and constant need of professional advice; that sometimes such services have been very laborious, requiring special and peculiar skill and abilities, and were of great and acknowledged usefulness. Other defendants also deny having received any compensation for services, or of any distribution of stocks or bonds to third parties.

Louisville and Nashville Railroad.

The following is a condensed statement of the earnings of the Main Stem, Branches and Leased roads for the year ending June 30, 1875:

	Memphis Division.	Clarksville Division.	Main Stem.
Passengers.	$263,385 34	$176,067 09	$592,929 67
Freight....	279,111 52	309,525 20	1,377,789 02
Express...	21,374 42	20,923 57	56,343 69
Mail.....	19,212 50	24,950 94	38,719 66

Glasgow Railroad.....	8,246 10	
		$1,516,398 12

The funded debt, as per last report, was $14,767,000; in the present report it is stated at $17,206,810. During the year $117,000 of Consolidated Mortgage bonds were issued; and there were redeemed: of Main Stem bonds, $63,000; Memphis Branch bonds, $46,000; paid to sinking fund in Memphis, Clarksville and Louisville Mortgage bonds, $26,190; and in Consolidated Mortgage bonds $42,000—making a total of $177,190. There were also issued during the year $4,000,000 of Ten Year Mortgage Gold bonds; and there were canceled and destroyed $1,500,000, and an agreement made to cancel $500,000—leaving outstanding of these bonds, $2,000,000. In the above is included City of Louisville bonds without mortgage, $849,000; deducting this amount will leave a total mortgage on all the roads of $15,857,810.

The total gross earnings of the Main Stem and Branches and Memphis Line were $3,694,444 66, the expenses $2 392,507 71, and the net earnings $1,301,936 95; interest on same, $1,148,836 25—showing surplus earnings of $153,100 70. The report says:

There has been sold seventy-five thousand of the consolidated mortgage bonds and six hundred thousand of the ten-year gold bonds, and the discount, amounting to $136,954 40, charged to profit and loss account, which will account for the reduction in this account.

The following statement shows the earnings and operating expenses during the last and previous years, from which comparison between the two years can be instituted:

	1873-'74.	1874-'75.
Main Stem and Branches (346.08 miles):		
Gross earnings..	$2 854,611 62	$2,575,084 84
Operating expenses..	1,866,465 78	1,573,368 82
Net earnings ...	$988,145 84	$1,001,716 51
Memphis Line—M., C. & L. and M. & O. (258. 80 miles):		
Gross earnings..	$1,407,932 80	$1,119,359 82
Operating expenses..	1,076,894 52	819,139 39
Net earnings....	$331,037 78	$300,220 43
Glasgow Branch—Leased (10.50 miles):		
Gross earnings..	$18,930 10	$19,850 38
Operating expenses..	12,710 35	11,604 28
Net earnings....	$6,219 75	$8,246 10
Nashville and Decatur R. R.—Leased (122.30 miles):		
Gross earnings..	$667,946 00	$594,657 65
Operating expenses..	523,546 97	388,442 58
Net earnings ...	$144,399 03	$206,215 07
Total of all roads:		
Gross earnings..	$4,949,420 02	$4,308,952 69
Operating expenses .	3,479,617 62	2,792,554 57
Net earnings....	$1,469,802 40	$1,516,398 12

NASHVILLE AND DECATUR RAILROAD.

Under the lease the Louisville and Nashville Railroad Co. has assumed to pay interest upon an indebtedness of $2,450,000, and a dividend upon the stock of the company at the rate of 6 per cent per annum, commencing the 1st of April, 1875.

The amount paid upon the assumed indebtedness, and for which the Louisville and Nashville Railroad Co. is to receive stock in the Nashville and Decatur Railroad Co., is..... $312,429 85

The amount expended in the improvements of the road during the past year was.....	$27,182 91	
During former years.....	222,520 60	
		249,653 51
Which is to be reimbursed at the end of the lease.		
Total investment made in the Nashville and Decatur Railroad.....		$562,083 36

The interest paid on account of the Nashville & Decatur R. R. during the year is... $184,854 16

Dividend for six months ending March 31, 1875..... 45,360 00

Total interest and dividend paid.....	$229,714 16
Total net earnings.....	206,215 07
Deficit.....	$23,499 09

SOUTH AND NORTH ALABAMA RAILROAD.

The Louisville and Nashville Railroad Co. owns a majority of the stock in this company, and has guaranteed the payment of interest on its bonded indebtedness.

The result of the operation of this road during the past two years has been as follows:

	1873-'74.	1874-'75.
Gross earnings.....	$561,275 43	$554,921 11
Operating expenses....	465,695 49	389,186 39
Net earnings	$95,579 94	$165,734 72
Interest paid on the bonded debt....	453,618 13	
Deficit.....		$287,883 41
Amount advanced on Construction Account.....		11,802 88
Advances made on Old Account.....		78,907 10
Total amount advanced during the year		$378,593 39

The South and North Alabama Railroad Co. has transferred to the Louisville and Nashville Railroad Co. its land-grant, and the value of the same has been credited to that company. It has also transferred its claim for the "three-percent fund" and the bonus due the road from the State of Alabama; these latter assets, however, are not immediately available.

It is gratifying to report that while there has been a general decrease of business on nearly all the roads in the country the traffic of this road has increased.

The number of tons of freight transported were:

In 1873–74	168,973
In 1874–75	180,325

And the number of tons carried one mile were:

In 1873–74.....	20 447,730
In 1874–75.....	21,525,829

And the net earnings of the road were:

In 1873–74.....	95,579 94
In 1874–75.....	165,734 72

The coal and iron interests along the line are being slowly but steadily developed; the efforts made to induce immigration are proving successful. Little doubt can be entertained that this road can be made self-sustaining at an early day.

The number of tons of freight carried one mile from and to the way-stations on the Main Stem were:

During 1872–73.....	7,828,407
During 1873–74.....	6,184,881
During 1874–75.....	3,680,946

Nearly 53 per cent less in 1875 than in 1873.

On the Memphis Line the business of the way-stations fell off from 10,026,716 ton-miles in 1873 to 7,129,949 ton-miles in 1875, or 29 per cent.

It is important to note that the business between competitive points, while showing some reductions, has not so much decreased as the business from the way-stations; showing that the competitive business of the road has been maintained. Thus on the Main Stem, during the last three years, the number of tons transported one mile between Louisville and Nashville were:

In 1872–73.....	93,127,106
In 1873–74.....	87,991,808
In 1874–75.....	89,291,439

A falling off of only about 3 per cent in this year as compared with 1873, and an increase over the previous year. This favorable result is no doubt due to the improved connections established since 1872 south of Nashville.

The competitive business of the Memphis line does not show quite as favorable. The tons of

this class of business transported over it during the last three years were as follows:

1872–73	25,333,211
1873–74	23,408,775
1874–75	20,661,744

Showing a reduction in 1874–75 over 1872–73 of 18 per cent.

Considering that a portion of our business with Arkansas has been diverted to St. Louis by the extension into Arkansas and Texas of the St. Louis and Iron Mountain Railroad, and also that some of it is diverted to Chicago via the extension of the Mississippi Central Railroad to Cairo, and some, but no material portion, by the Louisville, Paducah and Southwestern, and remembering the shortness of the cotton crop and the importance of Memphis, the terminus of the road, as a cotton market, the reduction in the amount of competitive business of the Memphis Line is much less than might have been expected.

It will be seen that the reduction in the total tonnage of all the roads in 1874–75 over 1872–73 was only 14.6 per cent, while the reduction in the gross earnings was nearly 27 per cent. It must be expected that during times of depression in transportation business the revenue will be much reduced, due to increased competition.

We find the average revenue per ton-mile in

1872–73	2.25 cents.		
1873–74	2.15 "	Reduction	4.44 per ct.
1874–75	1.92 "	Reduction	10.70 "
Total reduction since 1872–73			14.66 per ct.

In the passenger traffic the reduction of revenue per passenger carried one mile is not so great. The revenue per passenger in

1872–73 per mile was	3.69 cents.
1873–74 "	3.77 "
1874–75 "	3.67 "

But the falling off in the number of passengers carried one mile in 1874–75 over 1872–73 is 16.28 per cent, about the same as the falling off in the number of ton-miles of freight (14.6 per cent), showing that there are certain relations existing between the volume of passenger and freight traffic.

The length of roads operated during the year is as follows: Main Stem, 185 miles; Bardstown Branch, 17.30; Knoxville Branch, 110.32; Richmond Branch, 33.46; Clarksville Division, 128.20; Memphis Division, 130.60; Glasgow Railroad (leased), 10.50; Nashville and Decatur Railroad (leased), 122.30—total, 737.68.

The number of tons of freight carried in 1874-75 was 1,212,160, against 1,348,214 in 1873-74; net tons carried one mile 136,122,236, against 146,038,812 in the previous year. Number of passengers carried one mile in 1874-75, 36,493,299; do. in 1873-74, 37,414,225.

President—E. D. STANDIFORD.

Vice President.—H. VICTOR NEWCOMB.

Directors.—For one year: G. A. Washington, Wm. M. Farrington, W. H. Smith. For two years: W. B. Caldwell, H. Victor Newcomb, Geo. H. Hutchings. For three years: B. F. Guthrie, H. C. Murrell, P. J. Potter.

Secretary.—WILLIS RANNEY.

Assistant Secretary.—A. M. QUARRIER.

☞ The shipments of coal from Cumberland during the week ended July 29 amounted to 50,765 tons 18 cwt.; of which 24,704 tons 1 cwt. were by the Baltimore and Ohio railroad, 24,517 tons 5 cwt. by Chesapeake and Ohio canal, and 1,544 tons 12 cwt. by the Pennsylvania road. Total shipments for the year 968,683 tons 14 cwt.

Texas Railroads.

Messrs. FORSTER, LUDLOW & Co.'s Circular of August 1st says that railroad building in Texas continues unabated. The Dallas and Wichita Railroad has a large number of hands at work, and is rapidly progressing toward Denton. The Texas Pacific Railroad has reached Fort Worth, and great activity prevails in that beautiful city, whilst the Trans-Continental are pushing work toward Clarksville, Red River County.

A new road is projected, to be called the Dallas and Palestine Railroad, to run from Dallas, Texas, southeast to Palestine, on the International; this road will run to the east of the Trinity river, and be about 100 miles long.

On the line of the Texas and New Orleans Railroad are at present over 300 hands at work. The work has been delayed by heavy rains and high-water, but it is confidently expected to have the road in running order by 15th of September.

The International Railroad has sold town lots in Rockdale which is now the terminus of this road. We hope that Austin will be reached in time for this season's business.

The 29th of July was the day fixed for changing the gauge of the Houston and Texas Central Railroad, and that of the Galveston, Henderson and Houston Railroad. We have no doubt of its success. The Texas Western Narrow Gauge Railroad has now twenty miles completed, and is pushing forward toward the Brazos River.

☞ By a law of the last Legislature of Maryland the Commissioners of Anne Arundel County were allowed to levy the sum of $8,000 per annum for five years toward the construction of a bridge across the Seven river from Annapolis. They have levied the first $8,000, and next year will levy $16,000, and will then have a nucleus of $24,000 to commence operations. In the meantime all proper surveys will be made, and the most available points for the bridge determined upon. The commissioners are disposed to construct an iron bridge.

☞ The Boston Journal says that nearly six millions of bonds of the Eastern Railroad Company have already been surrendered to the trustees. This sum includes the three millions of sterling bonds. We presume that the fact that only the holders of the new certificates can vote for directors at the meeting which is to be held on the 21st inst., is one great inducement for holders to make a speedy exchange of their bonds. The future management of the road is of the greatest importance.

☞ Upon application of George Hoadley, trustee, Judge Greyham, of the United States Court, has appointed Melville E. Ingalls Receiver of the Indianapolis, Cincinnati and Lafayette Railroad. Mr. Ingalls has qualified by furnishing satisfactory bond in the sum of $200,000 for the faithful performance of the duties. Mr. Thomas A. Morris, of Indianapolis, is the security offered by Mr. Ingalls, and accepted by the court.

☞ The route for a narrow gauge railway from Holyoke to Windsor Locks, and possibly to New Haven, Conn., is about to be surveyed.

The London Stock Exchange.

The modern Stock Exchange of London is in its most obvious aspect a large hall with a number of offices around it, built within the irregular quadrangle formed by Bartholomew lane, Throgmorton street, and Threadneedle street and Old Broad street. Primarily is is merely a convenient meeting place where stockbrokers gather to transact their business, just as the Royal Exchange —now an almost deserted building—is a meeting place to those who deal in foreign bills of exchange. Various circumstances have combined, however, to give the Stock Exchange the character of an organized joint stock undertaking of a quasi-public character, and to make it a sort of standard of worth as well as a market. In the first place the members of the "House" (as it is familiarly called) carry on their business under an elaborate code of rules, the practical aim of which is to make the body as much as possible a law to itself. The modes of making bargains, the responsibility of dealers, and the treatment of members who become bankrupt, with many minor matters, are all subject to this special code, the practical effect of which is, therefore, to make the Stock Exchange an *imperium in imperio* to a greater extent than any other mere market organization in the country, except perhaps, Tattersall's. Members are forbidden to go to law with each other to enforce claims; all is to be settled by the governing body of the "House" itself—the Committee of the Stock Exchange. This body possesses ample powers for calling members who break the rules to account, and by a two-thirds majority vote, in a meeting of not less than twelve, the committee men can expel any offender. Members who fail in business, become by that failure unqualified to continue in membership; but they may be readmitted two years after they have got their creditors' discharge if they have paid 6s. 8d. in the pound, or sooner if they pay in full. The bankruptcy business of the "House" is managed by "Official Assignees," who examine into the bankrupt's affairs and divide his assets. This represents one side of the organization, a side which has its uses and its defects. But before dwelling on this we must touch on another aspect of the Stock Exchange, which is not so habitually visible to those who look at it from the outside. Besides being an organization for carrying on a special kind of business in a style suited to the ideal of its members, the Stock Exchange is a joint stock company itself. The building belongs to the company and the members; both contribute to the profits of the company as subscribers to the institution, and partake of these profits as shareholders. Formerly, we believe, the shares were few, and for large amounts; but some years ago they were split up into tenths, so that, if possible, every subscriber to the "House" might become also a shareholder, and interest himself in its affairs with a view to profit. The working of such an arrangement as this is visible in the extremely loose manner in which new members are admitted. In some of our provincial stock exchanges the rules of admission are very strict, and before a man can become a member he must not only find large securities for his well-doing, but must prove himself a man of substance by depositing a considerable sum of money in trust for the protection of fellow-members with whom he deals. There can be no question that such a course tends to curb to some extent reckless speculation, and to keep stock dealing respectable; but this is not the manner of the London Stock Exchange. There, till quite lately, any man might be admitted who paid the £25 or £50 entry money, and £12 12s. per annum subscription, if he found three members to be security for him for a small amount —some £500 each. Within the last three months the subscription was raised to £20 per annum, and the entrance fee for principals to £100, and for their clerks to £60, while the three sureties have now to stand good for £750 apiece; but otherwise the position is as before, with the result that the Stock Exchange has become the haunt of adventurers from all parts of the world, and is surrounded by a more repellent set of vagabonds, as the satellites of these, than can be found any where else in London. Betting men, who have failed on the turf, take to stockbroking, and jobbing, and either enter the "House," or gamble round the doors; and loafers, who have done no good at any legitimate trade, find their refuge here. Nondescripts from the Low Countries, Jews and Greeks from all parts of Europe and the Levant, gather to swell the total of those who are either members of the "House," or who "job" outside with kindred spirits within. The Stock Exchange, in short, while almost in spite of itself performing great public functions, is conducted very much in the spirit of a private joint stock company, with a particularly strong eye to profits, and on this principle it has thriven, until the dividends paid to the lucky shareholders are somewhere about 105 per cent. on the original value of the shares. This commercial policy has beyond question had something to do with the extreme disrepute into which stock-broking and the Stock Exchange have lately been brought, and therefore it would be well if the members could see their way to reform in time. It is already becoming an open question whether it would not be better to abolish the Stock Exchange altogether, and to make stock-broking no longer the privileged trade which it now is. If that reform takes place the spirit which at present guides Stock Exchange policy will be its cause. The members of the House are, in point of fact, trying to do two things of an opposite kind—to be guides of the public in the matter of investment and at the same time to secure the profits of a prosperous gambling-hell.—*Fraser's Magazine.*

Liability for the Destruction of Property by Railway Fires.

DECISION OF THE UNITED STATES SUPREME COURT.

No. 91.—The Grand Trunk Railway Company of Canada, plaintiff in error, vs. Roswell M. Richardson.—In error to the Circuit Court for the district of Vermont.—This was an action to recover for the destruction by fire, kindled by the cars, of property of the defendant in error. The plaintiffs below were permitted to adduce evidence that those of the injured buildings which were within the lines of the roadway had been erected within those lines by the license of the company, for the convenience of receiving and delivering freight. The admission of this evidence is the subject of the first assignment of error, and in its support it has been argued that it was the duty of the railroad company to preserve its entire roadway for the use of which it was incorporated; that it had no authority to grant licenses to others to use any part thereof for the erection of buildings, and therefore that the license to the plaintiffs, if any was made, was void. Thus the basis of the objection to the evidence appears to be that it was immaterial. We are, however, of the opinion it was properly admitted. If the buildings of the plaintiffs were rightfully where they were; if there was no trespass upon the roadway of the company, it was clearly a pertinent fact to be shown; and while it must be admitted that a railroad company has the exclusive control of all the land within the lines of the roadway, and is not at liberty to alienate any part of it to as to interfere with the full exercise of the franchises granted, we are not prepared to assert that it may not license the erection of buildings for its convenience; even also they may be for the convenience of others. It is not doubted the defendants might have erected similar structures on the ground on which the plaintiff's buildings were placed. If, in their judgment, the structures were convenient for the receipt and delivery of freight on their road, such erections would not have been inconsistent with the purposes for which their charter was granted. If they might have put up the buildings, why might they not license others to do the same thing for the same object, namely, the increase of their facilities for the receipt and delivery of freight? The public is not injured, and it has no right to complain so long as a free and safe passage is left for the carriage of freight and passengers. There is then no well-founded objection to the admission of evidence of a license, or evidence that the plaintiff's buildings were partly within the line of the roadway by the consent of the defendants, and the objection to the mode of proof is equally unsustainable. There was quite enough without the receipt of Oct. 27, 1876, to justify a finding by the jury that the plaintiffs were not trespassers. But the receipt itself was competent evidence. It is true it was given after the occurrence of the fire, but it was a mutual recognition by the company and by one of the plaintiffs that the occupation of the roadway by the buildings had been, and that it was at the time of the fire, permissive and not adverse. Taking the receipt, as the bill of exception shows, was the act of the defendants done by their agent, the engineer who had charge of the road bed. It was, therefore, an admission by them that there had been consent to the occupation.

The second assignment of error is that the court excluded testimony offered by the defendants to show it was not the usual practice of railway companies in that section of the country to employ a watchman for bridges like the one destroyed. It is impossible for us to see any reason why such evidence should have been admitted. The issue to be determined was whether the defendants had been guilty of negligence—that is, whether they had failed to exercise that caution and diligence which the circumstances demanded, and which prudent men ordinarily exercise. Hence the standard by which their conduct was to be measured was not the conduct of other railroad companies in the vicinity, certainly not their usual conduct. Besides, the degree of care which the law requires in order to guard against injury to others, varies greatly according to the circumstances of the case. When the fire occurred which caused the destruction to the plaintiffs' buildings, it was a very dry time, and there was a high wind. At such a time greater vigilance was demanded than might ordinarily have been required. The usual practice of other companies in that section of the country sheds no light upon the duty of the defendants when running locomotives over long wooden bridges in near proximity to frame buildings when danger was more than commonly imminent.

The third assignment of error is that the plaintiffs were allowed to prove, notwithstanding objection by the defendants, that at various times during the same Summer, before the fire occurred, some of the defendants' locomotives scattered fire when going past the mill and bridge without showing that either of those which the plaintiffs claimed communicated the fire were among the number, and without showing that the locomotives were similar in their make, their state of repair, or management to those claimed to have cause the fire complained of. The evidence was admitted after the defendants' case had closed. But whether it was strictly rebutting or not, if it tended to prove the plaintiffs' case, its admission as rebutting was within the discretion of the court below and not reviewable here. The question, therefore, is whether it tended in any degree to show that the burning of the bridge and the consequent destruction of the plaintiffs' property was caused by any of the defendants' locomotives. The question has often been considered by the courts in this country and in England, and such evidence has, we think, been generally held admissible as tending to prove the possibility and a consequent probability that some locomotive caused the fire, and as tending to show a negligent habit of the officers and agents of the railroad company. It is further held that it made no difference that a large part of the property destroyed was wrongfully on the railway, the court sustaining the ruling in a case cited that the company in such a case, was bound to exercise ordinary care to avoid injury, even to a trespasser; and also that the damages,

under the statute of Vermont, were not too remote. The ruling below refusing to charge that if the erection of the building destroyed so near the track was a careless act there could be no recovery, was sustained. Affirmed. Mr. Justice Strong delivered the opinion.

[From the Boston Journal.]

Boston and Albany Railroad.

IMPORTANT OPINION OF JUDGE HOAR.

The lengthy legislative investigation concerning the affairs of the Boston and Albany Railroad is too fresh in the minds of our readers to need rehearsal. It led after a prolonged discussion to the adoption of the following resolves embodied in chapter 57 of the General Laws of the last session:

Resolved, That the President and certain of the directors of the Boston and Albany Railroad Company have, as appears by the evidence submitted before the Committee on Railroads, been engaged in certain pecuniary transactions, inconsistent with the honorable and faithful discharge of their trust.

Resolved, That the Attorney General, with the approval of the Governor and Council, is hereby instructed to take such action, and institute such proceedings as he shall deem advisable, on behalf of the Commonwealth, for the protection of its interest as a stockholder of the Boston and Albany Railroad Company for the recovery of any moneys or other property due or belonging to the Boston and Albany Railroad Company, in the hands of any officer, director, agent or employe thereof or any other person, and for the preservation and protection of the rights and property of the Commonwealth and other stockholders therein; and he is authorized to employ such assistance, legal or otherwise, as he may consider necessary, subject to the approval of the Governor and Council, the expense thereof to be paid out of any moneys in the treasury not otherwise appropriated.

Immediately after the adjournment of the Legislature, the Attorney General sent the following communication to the Governor and Council:

COMMONWEALTH OF MASSACHUSETTS,
ATTORNEY GENERAL'S OFFICE, BOSTON,
7 Court Square, May 15, 1876.

To His Excellency the Governor, and the Honorable Council:

Respectfully referring the Governor and Council to chapter 57 of the resolves of 1876, I have the honor to request that I may be authorized to submit the report of the Committee on Railroads, in relation to the matters referred to in said resolve, and the action of the Legislature thereon, with such other facts as may come to my knowledge in relation thereto, to the Hon. Ebenezer R. Hoar, for his legal advice and assistance as to what action should be taken, and what proceedings should be instituted, if any, under and by virtue of said resolve.

I am, very respectfully, your obedient servant,
CHAS. R. TRAIN.

This request was acceded to, and the matter was submitted to Judge Hoar by the Attorney General, and the following opinion has been returned:

To the Hon. Charles R. Train, Attorney General:

Sir—Your letter of May 31, 1876, requesting me, as soon as consistent with other engagements, to advise you what action, if any, should be taken under the resolve of 1876, chapter 57, accompanied by a certified copy of the vote of the Governor and Council authorizing you to advise with me on the subject, and by a copy of the volume, "House Document No. 355," entitled "Boston and Albany Railroad Investigation, 1876," was received on the first day of June last. In the two months which have intervened I have carefully read the evidence reported in that volume, with the arguments of counsel, and have given the best consideration in my power to the questions involved.

The result of my investigation is, that I am unable to find in the evidence submitted to me sufficient proof that "any moneys or other property due or belonging to the Boston and Albany Railroad Company" are "in the hands of any officer, director, agent or employe thereof, or any other person," for the recovery of which any proceedings in law or equity would be made available; nor can I advise you that any proceedings "on behalf of the Commonwealth, for the protection of its interest as a stockholder of the Boston and Albany Railroad Company," would be likely to lead to the recovery of any such property.

The acts complained of are not, in my opinion, such as create a right of pecuniary compensation in the aggrieved party, and the remedy for them is not to be found in the courts. Very respectfully,
E. R. HOAR.

5 Pemberton square, Boston, Aug. 1, 1876.

Copiapo Railway.

The following is an abstract of the report of the Copiapo Railway Company for the year 1875:

Commercial and mining transactions have been dull in the section of country through which this railway runs; it is due to the order and regularity always observed in all the operations of this company that now enable them to present a balance sheet showing a net profit of $344,077 53, equivalent to 8.192 per cent. on the capital as follows:

Earnings in 1875	$614 135 43
Working expenses	270,057 90
Net income	$344,077 53
Against this income four quarterly dividends of 2 per cent. each were paid to the Proprietors, making in all	336,000 00
Leaving (for future dividends) a surplus of	$8,077 53

The receipts for the year 1875 compared with those of 1874, show a decrease of $7,816 96 cts., and should not be considered as being produced by a falling off in the traffic. The receipts during 1874 surpassed by $22,669 59cts. the receipts for 1873, and by $14,897 35cts. those for 1872. The increase obtained in 1874 was due to a large quantity of silver ores brought to Caldera from Caracoles (Bolivia), and carried to Copiapo to be reduced; this traffic has now ceased. Therefore, without taking into account the year 1874 in which an extra and unforseen traffic was attained, the receipts in 1875, far from decreasing, show an increase of $14,852 63cts, compared with 1873, and of $7,080 29cts. compared with 1872. The increase in expenses for 1875 is due to the efficient repairs and improvements in locomotives and all rolling stock as well as by the partial renewal of rails and sleepers. Expenses are, notwithstanding, at the low proportion of 43.973 per cent. of earnings.

The road has been kept in good working order, the cost of repairs and maintenance being $56,-339 26c. against $44,649 13cts. in the preceding year, thus showing an increase of $11,690 13cts. in the preceding year. The sum of $19,500 00 has been invested in rails for the renewal of a section of the line between Caldera and Copiapo. The work of keeping in repair and renewing the locomotives, coaches, and cars has been carried on with great activity, and all rolling stock is now in a very good state of preservation.

The fourth year of operating the Puquois line ended June 30, 1875, and according to contract of guaranty, the Copiapo Railway Company received the interests due up to that date and also the fourth annuity of $36,000 00, amounting to 10 per cent. on the cost of the line.

☞ Nathan Cushing, S. W. Richardson, Jacob Edwards, Wm. H. Hill, Jr., J. V. Barron, Edward D. Adams and Geo. Keyes have been elected directors of the Middlesex Central Railroad Company.

Harrisburg and Potomac Railroad.

The Baltimore *Sun* says that a contract has been entered into between the directors of the Western Maryland Railroad Company and Col. D. V. Ahl, President of the Harrisburg and Potomac Railroad Company, by which the former agrees upon a rebate on all business derived from its proposed connection with the latter road for a period of eight years, and then adds:

The Harrisburg and Potomac Railroad is now graded thirty five miles from White Hill, a junction with the Cumberland Valley Railroad, near the Susquehanna river, two miles from Harrisburg to Cleversburg, near Shippensburg, Cumberland county, Pa. Over this line twenty-two miles of track has been laid and operated for two years past, while the necessary iron for the remaining thirteen miles has been delivered and will soon be put down.

By a law of Pennsylvania governing intercourse between connecting railroads, the Harrisburg and Potomac Railroad is allowed to run its cars over the Susquehanna bridge, using two miles of track of the Cumberland Valley Railroad. The Harrisburg and Potomac Railroad, however, expect in time to build a bridge of their own over the river, near the Pennsylvania steel works. At Harrisburg the Harrisburg and Potomac Railroad connects with the Lebanon Valley Railroad, a branch of the Reading Railroad. From the terminus of the Harrisburg and Potomac Railroad, as graded, there is thirteen miles of a gap to the Mount Alto Railroad, now in full operation for the eleven miles between Scotland and Mount Alto. This thirteen miles is to be built, and it is proposed to use seven miles of the Mount Alto Railroad to a point one mile north of Mount Alto, from where the road is to be built for another thirteen miles via Quincy and Waynesboro,' to connect with the Western Maryland Railroad at the western foot of the Blue Ridge, one mile east of Smithsburg.

Chambersburg, in the heart of the Cumberland valley, is to be brought within ninety-eight miles of Baltimore, reached by a small link three miles long from the first junction of the Harrisburg and Potomac Railroad with the Mount Alto Railroad.

Col. Ahl has been giving the project his untiring attention, and two corps of engineers are now at work locating the line of the thirteen miles between the Mount Alto and Western Maryland Railroads. The country is well adapted to railway construction, having no obstructing ridges or water courses, so that the road will be constructed at a minimum cost. Col. Ahl has secured without cost the right of way from Mount Alto to Waynesboro,' a distance of 8 miles. The people in that section enthusiastically favor the new road, and it is expected that the subscriptions will cover the entire expenses of extending the road. Col. Ahl expects to have the road in working order within six months.

☞ It is said that parties in Boston and vicinity are interested in a narrow gauge railroad to be built from Boston to Providence, starting at some point near the Public Garden and passing through the towns of Brookline, West Roxbury, Dedham, Norwood, Walpole, Norfolk, Wrentham, North Attleboro' and Pawtucket.

☞ The earnings of the Carbondale and Shawneetown Railroad for the year ending June 30, 1876, were $31,154 81, the expenses $20 044 13, and the net earnings $11,110 68. The office of the company is at Carbondale, Illinois. The officers are: L. Burckhardt, president; Boman Gates, vice president; D. J. Fallis, treasurer; E. C. Dawes, general manager; R. J. Cavett, superintendent; J. E. McGettigan, auditor.

☞ A $400,000 ten year seven per cent loan of the city of Newark, N. J., has been awarded at 107.81.

The London Stock Exchange.

The modern Stock Exchange of London is in its most obvious aspect a large hall with a number of offices around it, built within the irregular quadrangle formed by Bartholomew lane, Throgmorton street, and Threadneedle street and Old Broad street. Primarily is is merely a convenient meeting place where stockbrokers gather to transact their business, just as the Royal Exchange —now an almost deserted building—is a meeting place to those who deal in foreign bills of exchange. Various circumstances have combined, however, to give the Stock Exchange the character of an organized joint stock undertaking of a quasi-public character, and to make it a sort of standard of worth as well as a market. In the first place the members of the "House" (as it is familiarly called) carry on their business under an elaborate code of rules, the practical aim of which is to make the body as much as possible a law to itself. The modes of making bargains, the responsibility of dealers, and the treatment of members who become bankrupt, with many minor matters, are all subject to this special code, the practical effect of which is, therefore, to make the Stock Exchange an *imperium in imperio* to a greater extent than any other mere market organization in the country, except perhaps, Tattersall's. Members are forbidden to go to law with each other to enforce claims; all is to be settled by the governing body of the "House" itself—the Committee of the Stock Exchange. This body possesses ample powers for calling members who break the rules to account, and by a two-thirds majority vote, in a meeting of not less than twelve, the committee men can expel any offender. Members who fail in business, become by that failure unqualified to continue in membership; but they may be readmitted two years after they have got their creditors' discharge if they have paid 6s. 8d. in the pound, or sooner if they pay in full. The bankruptcy business of the "House" is managed by "Official Assignees," who examine into the bankrupt's affairs and divide his assets. This represents one side of the organization, a side which has its uses and its defects. But before dwelling on this we must touch on another aspect of the Stock Exchange, which is not so habitually visible to those who look at it from the outside. Besides being an organization for carrying on a special kind of business in a style suited to the ideal of its members, the Stock Exchange is a joint stock company itself. The building belongs to the company and the members; both contribute to the profits of the company as subscribers to the institution, and partake of these profits as shareholders. Formerly, we believe, the shares were few, and for large amounts; but some years ago they were split up into tenths, so that, if possible, every subscriber to the "House" might become also a shareholder, and interest himself in its affairs with a view to profit. The working of such an arrangement as this is visible in the extremely loose manner in which new members are admitted. In some of our provincial stock exchanges the rules of admission are very strict, and before a man can become a member he must not only find large securities for his well-doing, but must prove himself a man of substance by depositing a considerable sum of money in trust for the protection of fellow-members with whom he deals. There can be no question that such a course tends to curb to some extent reckless speculation, and to keep stock dealing respectable; but this is not the manner of the London Stock Exchange. There, till quite lately, any man might be admitted who paid the £25 or £50 entry money, and £12 12s. per annum subscription, if he found three members to be security for him for a small amount —some £500 each. Within the last three months the subscription was raised to £20 per annum, and the entrance fee for principals to £100, and for their clerks to £60, while the three sureties have now to stand good for £750 apiece; but otherwise the position is as before, with the result that the Stock Exchange has become the haunt of adventurers from all parts of the world, and is surrounded by a more repellent set of vagabonds, as the satellites of these, than can be found anywhere else in London. Betting men, who have failed on the turf, take to stockbroking, and jobbing, and either enter the "House," or gamble round the doors; and loafers, who have done no good at any legitimate trade, find their refuge here. Nondescripts from the Low Countries, Jews and Greeks from all parts of Europe and the Levant, gather to swell the total of those who are either members of the "House," or who "job" outside with kindred spirits within. The Stock Exchange, in short, while almost in spite of itself performing great public functions, is conducted very much in the spirit of a private joint stock company, with a particularly strong eye to profits, and on this principle it has thriven, until the dividends paid to the lucky shareholders are somewhere about 105 per cent. on the original value of the shares. This commercial policy has beyond question had something to do with the extreme disrepute into which stock-broking and the Stock Exchange have lately been brought, and therefore it would be well if the members could see their way to reform in time. It is already becoming an open question whether it would not be better to abolish the Stock Exchange altogether, and to make stock-broking no longer the privileged trade which it now is. If that reform takes place the spirit which at present guides Stock Exchange policy will be its cause. The members of the House are, in point of fact, trying to do two things of an opposite kind—to be guides of the public in the matter of investment and at the same time to secure the profits of a prosperous gambling-hell.—*Fraser's Magazine.*

Liability for the Destruction of Property by Railway Fires.

DECISION OF THE UNITED STATES SUPREME COURT.

No. 91.—The Grand Trunk Railway Company of Canada, plaintiff in error, vs. Roswell M. Richardson.—In error to the Circuit Court for the district of Vermont.—This was an action to recover for the destruction by fire, kindled by the cars, of property of the defendant in error. The plaintiffs below were permitted to adduce evidence that those of the injured buildings which were within the lines of the roadway had been erected within those lines by the license of the company, for the convenience of receiving and delivering freight. The admission of this evidence is the subject of the first assignment of error, and in its support it has been argued that it was the duty of the railroad company to preserve its entire roadway for the use of which it was incorporated; that it had no authority to grant licenses to others to use any part thereof for the erection of buildings, and therefore that the license to the plaintiffs, if any was made, was void. Thus the basis of the objection to the evidence appears to be that it was immaterial. We are, however, of the opinion it was properly admitted. If the buildings of the plaintiffs were rightfully where they were; if there was no trespass upon the roadway of the company, it was clearly a pertinent fact to be shown; and while it must be admitted that a railroad company has the exclusive control of all the land within the lines of the roadway, and is not at liberty to alienate any part of it to as to interfere with the full exercise of the franchises granted, we are not prepared to assert that it may not license the erection of buildings for its convenience; even also they may be for the convenience of others. It is not doubted the defendants might have erected similar structures on the ground on which the plaintiff's buildings were placed. If, in their judgment, the structures were convenient for the receipt and delivery of freight on their road, such erections would not have been inconsistent with the purposes for which their charter was granted. If they might have put up the buildings, why might they not license others to do the same thing for the same object, namely, the increase of their facilities for the receipt and delivery of freight? The public is not injured, and it has no right to complain so long as a free and safe passage is left for the carriage of freight and passengers. There is then no well-founded objection to the admission of evidence of a license, or evidence that the plaintiff's buildings were partly within the line of the roadway by the consent of the defendants, and the objection to the mode of proof is equally unsustainable. There was quite enough without the receipt of Oct. 27, 1876, to justify a finding by the jury that the plaintiffs were not trespassers. But the receipt itself was competent evidence. It is true it was given after the occurrence of the fire, but it was a mutual recognition by the company and by one of the plaintiffs that the occupation of the roadway by the buildings had been, and that it was at the time of the fire, permissive and not adverse. Taking the receipt, as the bill of exception shows, was the act of the defendants done by their agent, the engineer who had charge of the road bed. It was, therefore, an admission by them that there had been consent to the occupation.

The second assignment of error is that the court excluded testimony offered by the defendants to show it was not the usual practice of railway companies in that section of the country to employ a watchman for bridges like the one destroyed. It is impossible for us to see any reason why such evidence should have been admitted. The issue to be determined was whether the defendants had been guilty of negligence—that is, whether they had failed to exercise that caution and diligence which the circumstances demanded, and which prudent men ordinarily exercise. Hence the standard by which their conduct was to be measured was not the conduct of other railroad companies in the vicinity, certainly not their usual conduct. Besides, the degree of care which the law requires in order to guard against injury to others, varies greatly according to the circumstances of the case. When the fire occurred which caused the destruction to the plaintiffs' buildings, it was a very dry time, and there was a high wind. At such a time greater vigilance was demanded than might ordinarily have been required. The usual practice of other companies in that section of the country sheds no light upon the duty of the defendants when running locomotives over long wooden bridges in near proximity to frame buildings when danger was more than commonly imminent.

The third assignment of error is that the plaintiffs were allowed to prove, notwithstanding objection by the defendants, that at various times during the same Summer, before the fire occurred, some of the defendants' locomotives scattered fire when going past the mill and bridge without showing that either of those which the plaintiffs claimed communicated the fire were among the number, and without showing that the locomotives were similar in their make, their state of repair, or management to those claimed to have cause the fire complained of. The evidence was admitted after the defendants' case had closed. But whether it was strictly rebutting or not, if it tended to prove the plaintiffs' case, its admission as rebutting was within the discretion of the court below and not reviewable here. The question, therefore, is whether it tended in any degree to show that the burning of the bridge and the consequent destruction of the plaintiffs' property was caused by any of the defendants' locomotives. The question has often been considered by the courts in this country and in England, and such evidence has, we think, been generally held admissible as tending to prove the possibility and a consequent probability that some locomotive caused the fire, and as tending to show a negligent habit of the officers and agents of the railroad company. It is further held that it made no difference that a large part of the property destroyed was wrongfully on the railway, the court sustaining the ruling in a case cited that the company in such a case, was bound to exercise ordinary care to avoid injury, even to a trespasser; and also that the damages,

under the statute of Vermont, were not too remote. The ruling below refusing to charge that if the erection of the building destroyed so near the track was a careless act there could be no recovery, was sustained. Affirmed. Mr. Justice Strong delivered the opinion.

[From the Boston Journal.]

Boston and Albany Railroad.

IMPORTANT OPINION OF JUDGE HOAR.

The lengthy legislative investigation concerning the affairs of the Boston and Albany Railroad is too fresh in the minds of our readers to need rehearsal. It led after a prolonged discussion to the adoption of the following resolves embodied in chapter 57 of the General Laws of the last session:

Resolved, That the President and certain of the directors of the Boston and Albany Railroad Company have, as appears by the evidence submitted before the Committee on Railroads, been engaged in certain pecuniary transactions, inconsistent with the honorable and faithful discharge of their trust.

Resolved, That the Attorney General, with the approval of the Governor and Council, is hereby instructed to take such action, and institute such proceedings as he shall deem advisable, on behalf of the Commonwealth, for the protection of its interest as a stockholder of the Boston and Albany Railroad Company for the recovery of any moneys or other property due or belonging to the Boston and Albany Railroad Company, in the hands of any officer, director, agent or employe thereof or any other person, and for the preservation and protection of the rights and property of the Commonwealth and other stockholders therein; and he is authorized to employ such assistance, legal or otherwise, as he may consider necessary, subject to the approval of the Governor and Council, the expense thereof to be paid out of any moneys in the treasury not otherwise appropriated.

Immediately after the adjournment of the Legislature, the Attorney General sent the following communication to the Governor and Council:

COMMONWEALTH OF MASSACHUSETTS,
ATTORNEY GENERAL'S OFFICE, BOSTON,
7 Court Square, May 15, 1876.

To His Excellency the Governor, and the Honorable Council:

Respectfully referring the Governor and Council to chapter 57 of the resolves of 1876, I have the honor to request that I may be authorized to submit the report of the Committee on Railroads, in relation to the matters referred to in said resolve, and the action of the Legislature thereon, with such other facts as may come to my knowledge in relation thereto, to the Hon. Ebenezer R. Hoar, for his legal advice and assistance as to what action should be taken, and what proceedings should be instituted, if any, under and by virtue of said resolve.

I am, very respectfully, your obedient servant,
CHAS. R. TRAIN.

This request was acceded to, and the matter was submitted to Judge Hoar by the Attorney General, and the following opinion has been returned:

To the Hon. Charles R. Train, Attorney General:

Sir—Your letter of May 31, 1876, requesting me, as soon as consistent with other engagements, to advise you what action, if any, should be taken under the resolve of 1876, chapter 57, accompanied by a certified copy of the vote of the Governor and Council authorizing you to advise with me on the subject, and by a copy of the volume, "House Document No. 355," entitled "Boston and Albany Railroad Investigation, 1876," was received on the first day of June last. In the two months which have intervened I have carefully read the evidence reported in that volume, with the arguments of counsel, and have given the best consideration in my power to the questions involved.

The result of my investigation is, that I am unable to find in the evidence submitted to me sufficient proof that "any moneys or other property due or belonging to the Boston and Albany Railroad Company" are "in the hands of any officer, director, agent or employe thereof, or any other person," for the recovery of which any proceedings in law or equity would be made available; nor can I advise you that any proceedings "on behalf of the Commonwealth, for the protection of its interest as a stockholder of the Boston and Albany Railroad Company," would be likely to lead to the recovery of any such property.

The acts complained of are not, in my opinion, such as create a right of pecuniary compensation in the aggrieved party, and the remedy for them is not to be found in the courts. Very respectfully,

E. R. HOAR.

5 Pemberton square, Boston, Aug. 1, 1876.

Copiapo Railway.

The following is an abstract of the report of the Copiapo Railway Company for the year 1875:

Commercial and mining transactions have been dull in the section of country through which this railway runs; it is due to the order and regularity always observed in all the operations of this company that now enable them to present a balance sheet showing a net profit of $344,077 53, equivalent to 8.192 per cent. on the capital as follows:

Earnings in 1875	$614 135 43
Working expenses	270,057 90
Net income	$344,077 53
Against this income four quarterly dividends of 2 per cent. each were paid to the Proprietors, making in all	336,000 00
Leaving (for future dividends) a surplus of	$8,077 53

The receipts for the year 1875 compared with those of 1874, show a decrease of $7,816 96 cts., and should not be considered as being produced by a falling off in the traffic. The receipts during 1874 surpassed by $22,669 59cts. the receipts for 1873, and by $14,897 35cts. those for 1872. The increase obtained in 1874 was due to a large quantity of silver ores brought to Caldera from Caracoles (Bolivia), and carried to Copiapo to be reduced; this traffic has now ceased. Therefore, without taking into account the year 1874 in which an extra and unforseen traffic was attained, the receipts in 1875, far from decreasing, show an increase of $14,852 63cts, compared with 1873, and of $7,080 29cts. compared with 1872. The increase in expenses for 1875 is due to the efficient repairs and improvements in locomotives and all rolling stock as well as by the partial renewal of rails and sleepers. Expenses are, notwithstanding, at the low proportion of 43.973 per cent. of earnings.

The road has been kept in good working order, the cost of repairs and maintenance being $56,-339 26c. against $44,649 13cts. in the preceding year, thus showing an increase of $11,690 13cts. in the preceding year. The sum of $19,500 00 has been invested in rails for the renewal of a section of the line between Caldera and Copiapo. The work of keeping in repair and renewing the locomotives, coaches, and cars has been carried on with great activity, and all rolling stock is now in a very good state of preservation.

The fourth year of operating the Puquois line ended June 30, 1875, and according to contract of guaranty, the Copiapo Railway Company received the interests due up to that date and also the fourth annuity of $36,000 00, amounting to 10 per cent. on the cost of the line.

☞ Nathan Cushing, S. W. Richardson, Jacob Edwards, Wm. H. Hill, Jr., J. V. Barron, Edward D. Adams and Geo. Keyes have been elected directors of the Middlesex Central Railroad Company.

Harrisburg and Potomac Railroad.

The Baltimore *Sun* says that a contract has been entered into between the directors of the Western Maryland Railroad Company and Col. D. V. Ahl, President of the Harrisburg and Potomac Railroad Company, by which the former agrees upon a rebate on all business derived from its proposed connection with the latter road for a period of eight years, and then adds:

The Harrisburg and Potomac Railroad is now graded thirty five miles from White Hill, a junction with the Cumberland Valley Railroad, near the Susquehanna river, two miles from Harrisburg to Cleversburg, near Shippensburg, Cumberland county, Pa. Over this line twenty-two miles of track has been laid and operated for two years past, while the necessary iron for the remaining thirteen miles has been delivered and will soon be put down.

By a law of Pennsylvania governing intercourse between connecting railroads, the Harrisburg and Potomac Railroad is allowed to run its cars over the Susquehanna bridge, using two miles of track of the Cumberland Valley Railroad. The Harrisburg and Potomac Railroad, however, expect in time to build a bridge of their own over the river, near the Pennsylvania steel works. At Harrisburg the Harrisburg and Potomac Railroad connects with the Lebanon Valley Railroad, a branch of the Reading Railroad. From the terminus of the Harrisburg and Potomac Railroad, as graded, there is thirteen miles of a gap to the Mount Alto Railroad, now in full operation for the eleven miles between Scotland and Mount Alto. This thirteen miles is to be built, and it is proposed to use seven miles of the Mount Alto Railroad to a point one mile north of Mount Alto, from where the road is to be built for another thirteen miles via Quincy and Waynesboro,' to connect with the Western Maryland Railroad at the western foot of the Blue Ridge, one mile east of Smithsburg.

Chambersburg, in the heart of the Cumberland valley, is to be brought within ninety-eight miles of Baltimore, reached by a small link three miles long from the first junction of the Harrisburg and Potomac Railroad with the Mount Alto Railroad.

Col. Ahl has been giving the project his untiring attention, and two corps of engineers are now at work locating the line of the thirteen miles between the Mount Alto and Western Maryland Railroads. The country is well adapted to railway construction, having no obstructing ridges or water courses, so that the road will be constructed at a minimum cost. Col. Ahl has secured without cost the right of way from Mount Alto to Waynesboro,' a distance of 8 miles. The people in that section enthusiastically favor the new road, and it is expected that the subscriptions will cover the entire expenses of extending the road. Col. Ahl expects to have the road in working order within six months.

☞ It is said that parties in Boston and vicinity are interested in a narrow gauge railroad to be built from Boston to Providence, starting at some point near the Public Garden and passing through the towns of Brookline, West Roxbury, Dedham, Norwood, Walpole, Norfolk, Wrentham, North Attleboro' and Pawtucket.

☞ The earnings of the Carbondale and Shawneetown Railroad for the year ending June 30, 1876, were $31,154 81, the expenses $20 044 13, and the net earnings $11,110 68. The office of the company is at Carbondale, Illinois. The officers are: L. Burckhardt, president; Beman Gates, vice president; D. J. Fallis, treasurer; E. C. Dawes, general manager; R. J. Cavett superintendent; J. E. McGettigan, auditor.

☞ A $400,000 ten year seven per cent loan of the city of Newark, N. J., has been awarded at 107.81.

American Railroad Journal.

Saturday, August 12, 1876.

Financial and Commercial Affairs.

The extraordinary accumulation of capital at this point, seeking controllable and lucrative employment, has led to a further modification of loan and discount rates, until at the moment, quotations are almost nominal, being generally 1@2 per cent on call, and 3@5 per cent per annum, on the best mercantile credits. On even this very low basis for accommodation, the offerings largely exceed the current requirements of borrowers, whether for speculative or commercial purposes. Private lenders have been especially eager to place balances promptly and to advantage, but have not been remarkably successful. The inquiry from all sponsible sources for financial aid has been very moderate. All the averages of the City Banks, on the last weekly exhibit, were higher than the preceding week; the deposits, legal tender and specie items showing an important increase. The circulation was enlarged a trifle. The loan and discount average was augmented about 2¼ millions. The Government office here cut down its specie, and added to its currency balances, as the result of the week's business. National Bank notes received at the Treasury Department last week for redemption were to the amount of $4,840,000. The City Banks have had their deposits augmented $2,650,700, and their legal tender reserve $809,900. The specie average has been increased $830,800. The loan and discount item $2,251,300. The circulation $3,400. The U. S. Sub Treasury in this city closed the week with a currency balance of $29,772,480 against $29,566,044 the preceding week; and a coin board of $31,707,935, against $36,325,470 on the previous

return. The City bank exchanges in currency reached $336,955,982, or a daily average of $56,159,330. The customs revenue of the port during the week was $2,347,000.

The City banks reported their average of gold last week at $20,126,000, and their greenback average at $60,333,300. Their deposits stood at $226,479,800. The loan item was $252,756,300. The circulation was $15,007,600.

The City Bank net reserve of specie and legal tender notes now shows an excess over the legal requirement of reserve to liabilities of $23,839,350, as against $22,861,325 the preceding week.

The aggregate of the outstanding U. S. currency of all denominations, August 1st, was $403,022,216. The outstanding amount of legal tender notes is $369,686,021. The National bank circulation is now $326,988,000, including $2,099,190 of national gold bank notes.

On Wednesday of this week the cash balances of the Treasury Department at Washington were: of Currency $14,682,825; special deposit of legal tenders for the redemption of certificates of deposit, $33,393,000; Coin, $61,840,297; Coin certificates, $29,595,600.

The Secretary of the Treasury announces that he will receive sealed proposals up to noon of Saturday the 12th inst. for $2,160,000 of the New 5 per cents of 1881, the proceeds to be devoted to the settlement of awards made by the Alabama Claims Commission. The bonds to be sold are both coupon and registered, and the bids must be for lots of at least $500,000.

The income of the Government from internal revenues thus far in the current fiscal year, commencing with July 1, 1876, has been about 14 millions; and from Customs, 15½ millions.

The week's import entries of Foreign Merchandise at New York were $4,489,713, including $1,648,060 of Dry Goods.

Gold has been moderately active but, toward the close, weak and irregular as to price. The speculative inquiry shows a less confident temper. The custom house drain for duties is on a more liberal scale. The export movement is light. The extremes of the price during the week have been 111⅜@112½, closing on Wednesday at 111¾, as against 111⅞ on Wednesday of the preceding week. The specie outflow last week was $605,324, against $695,181 the previous week. The imports of specie at this port last week were $82,262, and since January 1st $2,669,975 as against $8,037,157 same time last year. The customs demand for gold last week averaged $391,167 per day. Foreign Exchange has been in moderate request and quoted weaker in price. Bankers sixty day bills on London closed on Wednesday at $4 87@$4 88½; sight bills on London at $4 89@$4 90½ to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $5,918,086. The week's imports of Dry Goods and general merchandise were to the specie value of $4,489,713 as against $4,786,292 the corresponding week of 1875.

Government Securities have been in quite moderate supply and fair request for investment purposes; closing firm, notwithstanding the weaking in the Gold speculation. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $339,922,850.

U. S sixes of 1881 closed on Wednesday of this week at 120½@120¾; U. S. Five-Twenties of 1865, at 116@116¼; U. S. Five-Twenties of 1865 consolidated, 117¾@117⅞; U. S. Five-Twenties of 1867 119¾@119⅞; U. S. Five-Twenties of 1868, 121⅛@121¾; U. S. Ten-Forties at 119@119¼; U. S. Fives of 1881, (Funding Loan) 117@117¼; Six per cent. currency Sixes 126¼@126½.

State and Railway bonds have been moderately sought after and the more substantial loans have been quoted firm. And in the line of Railway and Miscellaneous share property the week's business has been on a restricted scale, at lower and unsettled prices under speculative manipulations; closing with more firmness, on a more confident demand from operators for a rise.

General business has been on the increase in the line of foreign merchandise, as also in Dry Goods, Boots and Shoes, Wool and Tobacco, but at variable prices. Breadstuffs and Provisions have been less active as a rule. Flour, Wheat, Corn, Oats, Pork and Lard closed lower. Metals have been without notable activity. Eglinton Pig Iron quoted here at $27 50@$28; Glengarnock $28 @$29; Coltness $29 50@$30 50; No. 1 American Pig at $22@$23; No. 2 do. at $20@$21 50; Forge $18@20; American Rails at works $42 50@$45 00; Old Rails $21@$22. Wrought Scrap $28. Ocean freights have been quoted firmer, on a more active demand for accommodation, especially for berth room, the main inquiry having been from shippers of Grain, Flour, Petroleum, Provisions, Tobacco, Cotton, Resin, and Oil Cake.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

☞ A despatch dated Mojave station, on the Southern Pacific Railroad, 368 miles north of San Francisco, says that regular trains are now running to that point, and that the track is laid twenty eight miles beyond, and the junction with the Los Angeles division will be effected at the San Fernando tunnel inside of thirty days.

☞ A company has been formed to build a railroad from Fort Dodge, Iowa, westward into Emmet county, and on to a point on the St. Paul and Sioux City road, thus forming a direct communication with the coal regions of Iowa and the lumber regions of Minnesota.

Railroad Connection with Oregon.

Under direction of S. S. Montague, Chief Engineer of the Central Pacific Railroad, a full party of engineers are about starting to complete the explorations and surveys of a new railroad route from Winnemucca, Nev, on the line of the Central Pacific Railroad, by way of Goose and Klamath lakes, to the pass in the Cascade Mountains, on the headwaters of the Willamette river in Oregon. This proposed line of road will open up communication with Oregon through a good country and largely promote the interests of the Pacific coast.

☞ The annual meeting of the stockholders of the Springfiedl, Athol and Northeastern Railroad Co. was held at Athol, Mass., on the 1st inst. The report of the treasurer shows that the receipts during the last fiscal year were $105,726. The operating expenses were $75,893, and $29,100 has been paid out as interest on bonds. The receipts were $9700 larger than the previous year, but a corresponding increase in expenses made the net the same. The old board of directors was re-elected.

☞ John B. Benedict of Cincinnati, Ohio, has taken the contract for the construction of the Miami Valley Narrow Gauge Railroad, the work to be commenced within a week. The route from Cincinnati is as follows: Commencing at Court and Broadway streets, thence up Deercreek Valley, through West Walnut Hills, Avondale, Norwood, east of Pleasant Ridge, following the ridge to Mason, thence to Lebanon, Waynesville and Xenia. The entire length of this road is fifty five miles.

☞ The Little Rock and Hot Springs Railroad Company have contracted with W. P. Hanchett for building a single track road from Little Rock to Hot Springs. The work will be commenced on Oct. 1, 1876, and is to be completed within one year. The length will be sixty miles. The cost of grading, laying the iron and completing the road in readiness for the cars will be about $500,000. J. W. Webster is President of the company, and P. B. Groat Secretary.

☞ Work on the Westport and Saugatuck (Conn.) Horse Railroad is progressing at the rate of about 300 feet per day, and will be completed about the 1st of September. The officers are considering the use of a new motive power for running the cars at an expense of about 40 cents per day, thereby dispensing with horses, and enabling them to carry passengers at a low rate of fare.

☞ It is stated that the final payment to complete the whole amount due to the trustees under the articles of consolidation of the Boston, Clinton and Fitchburg, and New Bedford Railroad Companies has been made, and a receipt for the amount given to the President of the consolidated corporation. This completes the consolidation, and the new corporation is fairly launched beyond any possibility of dissolution.

☞ More than one-third of the stock for the narrow gauge railroad from Bedford to Billerica, in Middlesex Co., Mass., has been subscribed, and the road will be pushed forward at once by President Ranlet.

Wisconsin Central Railroad.

The Green Bay Advocate says that the first five miles of iron from Worcester northward has been laid. From thence to Elk River, the track is expected to be finished completely by the 15th or 20th of August. The river at that place is 125 feet wide, and will be spanned by a 100 foot Howe truss, with trestle approaches. About 400 men are now being worked on the extension, and the company are calling loudly for more.

☞ The Receivers of the Atlantic, Mississippi and Ohio railroad have determined to keep up the road in first class order. They have recently contracted for twenty miles of steel rail, the delivery of which will be begun next week, and the laying down will be commenced immediately thereafter.

☞ The receipts into the Treasury of Pittsburg, Penn., during the month of July (including $30,761 47 balance on hand July 1,) were $165,748 48, and the disbursements were $88,780 29, leaving a balance on hand August 1, 1876, of $76,968 19.

☞ The narrowing of the gauge of the Galveston, Houston and Henderson (Texas) Railroad to a standard width to conform to the gauge of the International and Great Northern Railroad and eastern connections was successfully accomplished on the 26th ult.

☞ Articles of incorporation of the St. Joseph and Pacific Railroad Company which is the successor of the St. Joseph and Denver City Railroad Company in pursuance of a purchase recently made by the bondholders of the latter company, have been filed in Kansas.

☞ Grading on the Dayton and Southeastern (Ohio) Railroad is rapidly progressing. The iron is being received at Xenia, and tracklaying will commence soon. It is said that the road will be in running order from Xenia to Washington Court House by the first of September.

☞ A contract between Mr. Gogorza and the Colombian Government has been made and is sanctioned by Congress for the survey, and, if practicable, the building of the Darien Inter-Oceanic Canal. The surveyors are to be on hand within six months after May 28.

☞ The gross earnings of the Atlanta and West Point railroad for the year ending 30th June, 1876, were $283,498 38, and expenses $183,905 42; net earnings over expenses, $99,592 96. The road is represented as being in a fine condition.

☞ Negotiations are pending between the Portland and Ogdensburg Railroad company and the Portland Rolling Mills for the balance of the iron to complete the road to Swanton.

☞ More than 1000 men are at work on the Manchester and Keene (N. H.) Railroad between Greenland and Keene. It is intended to have the cars running to Bennington by October.

☞ The ratepayers of the village of Hastings, Canada, have granted a bonus of $5,000 to the Grand Junction Railway Company to assist in completing the road to Peterboro.

MARSHAL'S SALES.

Marshal's Sale.

George L. Douglass, trustee, &c., pl'ffs, against Louisville, Cincinnati and Lexington Railroad Company, def'ts, and cases heard therewith—Louisville Chancery Court, No. 27,787.

BY virtue of a judgment rendered in the above-named case and the cases heard therewith, the undersigned will,

ON MONDAY, DECEMBER 4, 1876,

sell at public outcry at the door of the court-house, in the city of Louisville, Ky., about the hour of 11 o'clock, A. M., to the highest bidder, the following described property, viz:

All the rights, properties and franchises of the Louisville, Cincinnati and Lexington Railroad Company, including all the right, title and interest of said company free from the liens, mortgages or claims of any kind of the parties herein except as hereinafter stated in and to its line of railroad from its depot on Brook st., in the city of Louisville, through the counties of Jefferson, Oldham, Henry, Franklin, Woodford, Scott and Fayette to its depot on Water st., in the city of Lexington, and from Lagrange Junction, in Oldham county, through the counties of Oldham, Henry, Carroll, Gallatin, Grant, Boone, Kenton and Campbell, to its junction in the city of Newport with the Newport and Cincinnati Bridge, with all its improvements and appurtenances, right of way, lands adjacent thereto, depots, and the land upon which they are situate, and adjacent thereto, machine shops, round houses, cattle-pens, and the lands on which they are situate and adjacent thereto, turn-outs, side-tracks, switches, engines, passenger cars, baggage cars, freight cars, dirt cars, hand cars and all other rolling stock of every description, machinery, tools, implements, fixtures, furniture, whether in buildings owned by it or leased by it or the receiver, materials and supplies of every description, so as to vest in the purchaser all of the right, title and interest of said Louisville, Cincinnati and Lexington Railroad Company, and to all property owned by it or in which it has any interest on said day of sale except choses in action, and all its rights and franchises free from any lien or claim of any of the parties to this suit except as hereinafter stated.

The purchaser or in the event of his transferring his bid before confirmation of the sale and the transferee thereof being accepted by the court, such transferee shall in any event in addition to the amount bid by him be required to assume the following outstanding debts, and all the engagements and obligations of the mortgage and deed of trust given to secure them, viz: One hundred bonds of one thousand dollars each, executed by the city of Louisville, the payment whereof was assumed by the Louisville and Frankfort Railroad Company, and secured by deed of mortgage dated 20th November, 1854, and recorded in the Jefferson County Court clerk's office, in deed book —, page —. Said bonds mature July 1, 1881, and bear interest at 6 per cent. per annum from July 1, 1876, payable semi-annually on the 1st day of each July and January from January 1, 1877, to July 1, 1881, inclusive.

Twelve bonds of one thousand dollars each, executed by Louisville and Frankfort Railroad Company, and secured by deed of trust from said corporation to James Guthrie, Virgil McKnight and Joshua B. Bowles, dated March 12, 1857, five of which bonds mature July 1, 1877, and seven of which mature July 1, 1878, and all of which bear interest at 6 per cent. per annum, payable semi-annually from July 1, 1876, the first five bearing coupons payable January 1, 1877, and July 1, 1877, and the other seven bearing coupons payable January 1, 1877, July 1, 1877, January 1, 1878, and July 1, 1878.

In addition to the assumption of the above amounts, and the engagements and obligations of the above mortgage and deed of trust, the undersigned will first offer said property, subject to the assumption by the purchaser of the following amounts and of the engagements, obligations, rights, duties and powers of the deeds of trust given to secure them respectively, to-wit: three thousand bonds of one thousand dollars each, dated January 1, 1867, and due January 1, 1897, bearing interest from July 1, 1876, at the rate of seven per cent. per annum, payable semi-annually on the first day of each January and July from January 1, 1877, to January 1, 1897, both inclusive, and same secured by deed of trust from the Louisville and Frankfort and Lexington and Frankfort Railroad Companies to Norvin Green, trustee, dated January 1, 1867, and hereinafter called the Norvin Green trust deed.

Nine hundred and eighty-nine bonds of one thousand dollars, each dated April 1, 1870, and due April 1, 1900, bearing interest from October 1, 1876, at the rate of 8 per cent. per annum, payable semi-annually on the first day of each April and October from April 1, 1877, to April 1, 1900, both inclusive, and same secured by deed of trust from the Louisville, Cincinnati and Lexington Railroad Company to George L. Douglass, trustee, dated April 1, 1870, and hereinafter called the Douglass trust deed.

Three hundred and seventy-four bonds of one thousand dollars, each dated October 1, 1872, and due October 1, 1902, bearing interest from October 1, 1876, at the rate of eight per cent. per annum, payable semi-annually, on the first day of each April and October from April 1, 1877, to October 1, 1902, both inclusive, and same secured by deed of trust from the Louisville, Cincinnati and Lexington Railroad Company to A. D. Hunt, trustee, dated October 7, 1872, hereinafter called the Hunt trust deed.

One million five hundred and eighty-two thousand five hundred dollars in bonds, some of one thousand dollars and some of five hundred dollars, each dated April 1, 1873, and due 1st January, 1903, bearing interest from July 1, 1876, at the rate of seven per cent. per annum, payable semi-annually on the first day of each July and January from January 1, 1877, to January 1, 1903, both inclusive, and same secured by deed of trust from the Louisville, Cincinnati and Lexington Railroad Company to James Lees, trustee, dated April 1, 1873, and hereafter called the Lees trust deed.

When said property is so offered, subject to the assumption by the purchaser of the amounts secured as above by said six mortgages, and his assumption of the engagements, obligations, rights, powers and duties of said six mortgages, if an amount is bid equal to the amount of interest due and unpaid thereon regarding the bonds as not matured, together with unpaid costs of said mortgages, and costs of sale and James Taylor's claim, the undersigned will proceed to sell the property so subject, and accept the highest bidder. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by the first five mortgages (excluding the Lees trust deed), and his assumption of the engagements, obligations, rights, powers and duties of said five mortgages. When said property is so offered, if an amount is bid equal to the amount of interest due and unpaid under said five mortgages regarding the bonds as not matured, and unpaid costs of the said five mortgages and of sale and James Taylor's claim, the undersigned will proceed to sell the property so subject, and accept the highest bidder therefor. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by the first four mortgages (excluding the Lees and Hunt trust deeds), and his assumption of the engagements, obligations, rights, powers and duties of said four mortgages. When said property is so offered, if an amount is bid equal to the amount of interest due and unpaid under said four mortgages regarding the bonds as not matured, and unpaid costs of said four mortgages and costs of sale, the undersigned will proceed to sell the property so subject, and accept the highest bidder therefor. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by the first three mortgages (excluding the Lees, Hunt and Douglass trust deeds), and his assumption of and subjection to the engagements, obligations, rights, powers and duties of said three mortgages. When said property is so offered, if an amount is bid equal to the amount of interest due and unpaid under said three mortgages regarding the bonds as not matured, and unpaid costs of said three mortgages and of sale and James Taylor's claim, the undersigned will proceed to sell the property so subject, and accept the highest bid therefor. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by the first two mortgages (excluding the Lees, Hunt, Douglass and Green trust deeds), and his assumption of and subjection to the engagements, obligations, rights, power and duties of said two mortgages, and will accept the highest bidder therefor.

The purchaser, or in the event of his transferring his bid before the sale is confirmed, and his transferee being accepted by the court, such transferee will be required to execute a separate obligation to the mortgagee or trustee of each mortgage or deed of trust to which he buys subject, and shall, by such obligation, bind himself to the payment of the debts secured by such mortgage or deed of trust, principal and interest as and when they become due, and to the performance of all the engagements and obligations contained in said mortgage or deed of trust, and shall subject himself and the property purchased by him or future to be acquired by him, as the owner of said railroad, to all the duties, conditions, engagements and obligations of said mortgage or deed of trust, and confer upon said mortgagee or trustee and his *cestui que* trusts all the powers, rights and duties conferred by the original mortgage or deed of trust, and in every way to bind himself and the property then owned and future to be acquired by him as owner of said railroad, and to confer upon said mortgagee or trustee and his *cestui que* trust all the rights and powers as if he, the said purchaser, had been the grantor in said original mortgage or deed of trust, and the maker of said bonds and coupons.

If said property is sold subject to any other mortgages than the ones of the city of Louisville and Guthrie, McKnight and Bowles, it will be sold on a credit of 3, 6, 9, 12, 15, 18, 21, 24, 27, 30, 33, 36, 39, 42, 45, 48, 51, 54, 57 and 60 months, for equal parts of the purchase money. If sold subject to these mortgages, it shall be sold on a credit of 3, 6, 9, 12, 15, 18, 21, 24, 27, 30, 33, 36, 39, 42, 45, 48, 51, 54, 57, 60, 63, 66, 69, 72, 75, 78, 81, 84, 87, 90, 93 and 96 months, for equal parts of the purchase money.

The purchaser will be required to execute bonds, with good security, bearing interest from date until paid at 6 per cent. per annum, and said bonds will be drawn payable on or before the day of their respective maturities. The bidder accepted by the marshal will be required to at once deposit with said marshal the sum of $20,000 as security for his compliance with the terms of sale, which sum the marshal shall at once pay into court, which may be withdrawn by the said bidder on confirmation of the report of sale. A lien will be retained on the property sold to secure the bonds of the purchaser, and any obligation executed by him for mortgages or deeds of trust assumed by him.

C. C. W. ALFRIEND,
Marshal Louisville Chancery Court.

☞ The Receiver of the Bleecker street and Fulton Ferry Railroad Company has filed with the County Clerk his report for the month of July. From this it appears that the receipts were $22,286 60, the operating expenses $14,150 43, the disbursements for permanent improvements $6,435 79, and the payments on account of the old company $140. A balance remains for the month of $1,560 38. The total receipts during the receivership have been $152,162 57, and the total disbursements $140,387 58. Of the latter, $7,884 36 were on account of the former company. The entire balance on hand amounts to $11,774 99.

☞ The San Francisco Bulletin says that there is more railroad work going on in California at the present time than in any other State in the Union: and more in that State this year than in any previous period of the State's history. Nor is this construction of railroads confined to one section. In northern and southern and middle California railroads are in progress which will tend in a short period to the further development of the States's resources.

☞ The Federal Creek Railroad, extending from Stewart to Force, Athens Co., Ohio, a distance of 16 miles, is graded and ready for the iron. D. B. Stewart is President of the road, and has advanced most of the capital thus far expended on the road bed. It is exclusively a coal road, and opens up a rich section of the coal fields of Athens county that has never been developed. The road will be "ironed" and the stock put on as soon as the necessary means can be obtained.

☞ The Belmont (Ohio) Chronicle says that the directors of the Narrow Gauge Railway from that place to Neff's Landing, on the Central Ohio Railroad, have contracted for the building of the road, 6½ miles in length, to be completed not sooner than the first of November, nor later than January 1st.

☞ The official statement of the fund commissioners of the State of Missouri for the six months ending June 30, 1876, shows that the total State debt January 1, 1875, was $17,839,000; and July 1, 1876, $17,480,000—decrease $359,000. There was retired from the first of January, 1875, to the 1st of July, 1876, $4,087,000 bonds, and there was issued in the same time $3,728,000.

The Coal Trade.

The coal tonnage for the week ending the 29th ultimo, as reported by all the companies, amounted to 417,607 tons, against 658,000 tons in corresponding week last year, a decrease of 240,393 tons. The total amount of anthracite mined for the year is 8,943,800 tons, against 9,412,856 for same period last year, a decrease of 469,056 tons. The quantity of bituminous coal sent to market for the week was 78,973 tons, against 87,165 tons for corresponding week last year, a decrease of 8,192 tons. The whole bituminous tonnage from the beginning of the coal year is 1,983 262 tons, against 2,058,860 tons in corresponding time last year, decrease of 74,950 tons. The total tonnage of all kinds of coal for the week is 496,580 tons, against 745,165 to corresponding date last year, a decrease of 248,585 tons, and the total tonnage for the coal year is 10,927,062 tons, against 11,471,716 tons to same date last year, a decrease of 544,654 tons. The quantity of coal and coke carried over the Pennsylvania Railroad during the last week was 88,147 tons, of which 74,234 tons were coal and 13,913 tons coke. The total carried this year is 2,426,174 tons, of which 1,094,276 were coal and 421,955 coke. This total embraces all the coal carried over the road, east and west.—*Phila. Ledger, Aug.* 7.

Scioto Valley Railroad.

The Chillicothe Advertiser, in speaking of the surveys and estimates of the Southern portion of the Scioto Valley Railroad, says:

"The mineral branch of the road will probably strike out from Ashville, a point on the road twenty miles south of Columbus and thirty miles north of Chillicothe. Several surveys have been made over the hills to the coal fields and the best grade can be had on the line running from Ashville to Haydenville. This will bring the coal fields at Heydenville nearer to Columbus than by the Hocking Valley road. Peter Hayden, a very large stockholder in the Hocking Valley railroad, has become deeply interested in the Scioto Valley branch and is urging it forward with all his might."

☞ A meeting of the Stockholders of the Eastern Railroad Company, and a meeting of the holders of certificates of indebtedness of said Corporation, under its mortgage to William C. Rogers, William B. Bacon and Williard P. Phillips, Trustees, dated June 22, 1876, will be held separately at the MEIONAON in Boston, at 12 o'clock noon, on Monday, the 21st day of August, for the choice of Directors of said Corporation, as provided in Chapter 236 of the Acts of Massachusetts of 1876, and for such other business as may be legally transacted.

Stetson's Patent Agency.

23 MURRAY ST., NEW YORK, JUNE 1, 1876.

THE PRACTICE OF THIS OFFICE IN REgard to rejected applications is changed. Instead of as heretofore taking a copy of the official letter of rejection and invariably sending the original to the client, and inviting suggestions to aid in urging the case, I now, unless instructed to the contrary, proceed at once to give it attention and argue or amend.

American Railroad Journal.

New York, Saturday, August 19, 1876.

Harrisburg and Potomac Railroad.

Articles of incorporation of a company bearing the title of the Harrisburg and Potomac Railroad, of Maryland, have been filed among the archives of Washington County, under the general railroad act of the State of Maryland of 1870. The incorporators of the new company are: residents of Maryland, J. M. Hood, of Baltimore; S. Taylor Shaffer, of Antietam iron works, and David H. Wiles, of Hagerstown; residents of Pennsylvania, Daniel V. Ahl, Newville, and John Phillips, of Waynesboro'. The capital stock is $50,000, in 1,000 shares of $50 each. The new company is described as authorized to construct a railroad, with all the powers incidental thereto under the act, from some point on the Pennsylvania State line (the southern terminus of the road of which this is designed to be a continuation) between Waynesboro Station and the Antietam creek to the Western Maryland Railroad at or near Raven Rock bridge.

The necessity of incorporating the Harrisburg and Potomac Railroad, of Maryland, grew out of the fact that the charter of the Harrisburg and Potomac Railroad now in operation only gives them the right to extend their road within the State of Pennsylvania, and consequently in order to form a connection with the Western Maryland Railroad near Smithsburg, as is proposed, it was found necessary to incorporate a company in Maryland.

The Baltimore Sun, from which the above was obtained, says that Col. Ahl, president of the Harrisburg and Potomac Railroad, has purchased one thousand tons of railroad iron, and the work of grading and laying track is progressing rapidly.

Portsmouth and Dover Railroad.

At the annual meeting of the stockholders of this company held at Portsmouth, N. H., on the 9th inst., Frank Jones, Daniel Marcy, John H. Broughton, Albert R. Hatch of Portsmouth, Oliver Wyatt, Andrew H. Young and Chas. H. Sawyer of Dover were unanimously elected Directors.

The Directors re-elected the officers of last year viz: Frank Jones President; George L. Treadwell, Vice President; Wm. H. Hackett, clerk.

Votes were passed instructing the directors to ascertain the amount of debts and issue stock therefore, the same to be offered to stockholders at par. The act of the Legislature of July 12 was accepted. A vote was passed prohibiting any future indebtedness except created by a vote at a corporate meeting.

It was also voted that if any stockholder neglects or refuses to take and pay for new shares he may have bonds at par to the amount of his share of stock convertible into stock.

Mexico and Vera Cruz Railway.

There are about 360 miles of railway in Mexico, of which the line from Mexico to Vera Cruz (263 miles) is the most important. It is one of the wonderful engineering enterprises of the world, and cost $27,000,000. It was begun in 1852, and was opened to public traffic through its whole extent in January, 1873. About sixty miles of the road extend over the mountain region between the coast and the great Mexican plateau, at an average grade of 133 feet to the mile. The road is carried along the flanks of lofty mountains, through long tunnels, and over bridges spanning deep ravines, and in its course from Vera Cruz to the City of Mexico the traveller experiences every variety of climate within the space of a few hours, and the natural productions peculiar to each are successfully passed in review, from the sugar cane, indigo plant and plantain of the tropics to the pines, firs and lichens of the north.

Illinois Central Railroad.

During the month of July, 1876, 320 acres of land were sold for $2,708. The cash collected on land contracts during the same time was $6,843 92. The traffic on the main line in Illinois was $376,932 85, against $526,042 44 in July, 1875. The traffic of the Iowa lines, (leased at 35 per cent of gross receipts), was $105,069 92, against $189,856 45 in July 1875.

On the 4th and 5th ultimo, a storm of exceptional violence broke upon the line in Northern Illinois and Eastern Iowa. Five inches of rain fell in ten hours, many culverts were washed away and other damage was done, suspending the passage of trains. Notwithstanding the most vigorous efforts of the Company' Officers, business was not fully resumed for a fortnight. Hence a decline in earnings.

California Mountain Scenery.

Prof. Davidson, Chief of the United States Coast Survey, who is now engaged with a corps of Engineers in making signal observations upon the summit of Mount Diabolo, a high mountain on the Pacific coast near Benicia, Cal., gives some interesting items concerning the altitude and distance of some of the most prominent points visible from his quarters on the mountain top. The view from the summit is a grand one and embraces an area, including land and ocean, of no less than 32,000 square miles. The most distant point within range of observation is Lassen's Peak, in the Sierra Nevada, which is 183 miles from Mt. Diabolo, and has an altitude of 10,650 feet; Snow Mountain, 7000 feet high, 114 miles distant; Downieville Buttes, 8720 feet, 157 miles distant; Lolo Mountain, near Truckee, 8280 feet high and 136 miles distant, are also all visible. Nearly all the mountains of the Sierra Nevada range are to be seen and the Coast Range all the way up to

the northern end of the State are in view. Of the nearer mountains Clay street hill, in San Francisco, 32 miles distant, can be discerned, and Mt. Lyell, the site of the new Lick Observatory, 4300 feet high, and 52 miles away, is in sight. At a distance of 83 miles the horizon of the sea is seen, and on all sides the eye rests upon miles and miles of the mining and agricultural country of California.

Michigan Central Railroad.

The earnings of this road for the years ending May 31, 1875 and 1876, have been as follows:

	1875.	1876
From passengers	$1,793,727 66	$1,863,642 65
" freight	3,692,267 01	3,664,340 20
" miscellaneous	295,943 10	241,937 60
	$5,781,937 77	$5,569,920 45
Expenses, viz:		
Repairs road, etc	$375,838 45	$359,601 92

Foreign agencies	....	170,696 25
Telegraph	52,554 25	60,428 99
Miscellaneous	89,409 88	68,105 34
Car mileage	256,587 67	131,912 57
General expenses	....	184 423 30
Rentals	42,624 58	117,774 60
Loss and damage	....	68,657 42
	$3 862,813 58	$3,720,140 59
Net earnings	$1,919,124 19	$1,849,779 86

Compared with the previous year the gross earnings of 1876 show a decrease of $212,017 32, with a decrease in expenses of $142,672 99—making a decrease in net earnings of $69,344 33.

The earnings from passengers show a decrease of $130,085 01, from freight a decrease of $27,-926 81, and from miscellaneous a decrease of $54,005 50.

Passenger earnings per mile were $5,857 90; freight, $12,902 61; miscellaneous, $851 89—total, $19,612 40, a decrease compared with the previous year of $746 53.

The expenses of operating the road (not including taxes) were 67.91 per cent. In 1875 were 63.73 per cent. The expenses including taxes, the past year were 70.05 per cent. against 66.80 per cent. in 1875.

The following is a comparative statement of the earnings of the entire line, including branches, for the fiscal years ending May 31—

	1875.	1876.
Passengers	$2,318,998 66	$2,138,233 41
Freight	4,447,338 69	4,417,275 52
Miscellaneous	335,449 06	295,455 13
	$7,102,286 41	$6 850,964 06
Operating expenses	$4,847,724 20	$4,636.225 78
Taxes	220,373 56	166,676 50
	$5,068,097 76	$4,802,902 23
Net earnings	$2,034,188 65	$2,048,061 83

—showing a decrease in gross earnings of $251,-322 85, with a decrease in expenses of $265,195 53, making the increase in net earnings $13,878 18.

The ratio of expenses to earnings in 1876 is 70.10, against 71.35 in 1875; exclusive of taxes, 67.67 in 1875, against 68.25 in 1876.

The gross earnings of the main line separately, (including the Air line division, which is simply a double track, and used as such) during the year ending May 31, 1876, were $5,696,302 50, against $5,903,179 86 in the previous year, a decrease of $206,777 36. The expenses during the past year were $3,990,085 32, against $4,140,769 18 in the previous year, a reduction of $150,683 86. The net earnings were therefore $1,706,317 18, against $1,762,410 68, a decrease of $56,093 50. The President in his report says:

As in last year's report, the Main and Air Lines are considered one line. The Air Line is simply a double track and used as such for Main Line. The through freight business of the company passes over it from the west. The passenger traffic, and return through cars west, pass over the Main, or old line. These two tracks are therefore properly treated as one line, both as to the earnings and expenses.

While the earnings have been about the same this year as last, the business has very largely increased over that of any former year. It has been the largest increase indeed which the road has ever had in any one year, and has been general in all classes of freight, and upon all lines. The increase in through east bound freight has been 72,800 tons. In west bound through freight, the increase has been 62,798 tons. Local east bound freight has increased 52,579 tons, and local west bound 28,774 tons. The increase in the freight upon the branches has been 93,795 tons. The total increase in through freight on the Main Line has been 135,598 tons, and local 83,353 tons. The whole aggregate increase of freight has been 310,-746 tons. The aggregate increase of tonnage on the Main Line has been 216,951 tons, and the gross tonnage on the Main Line has been 1,858,-231 tons. It may be well again for the stockholders to note the continuous increase in the business of the main line.

In 1870, six years ago, the whole tonnage handled was	823,770 tons.
In the next year it was	1,105,875 "
In 1872	1,238,318 "
In 1873	1,416,792 "
In 1874, it was	1,593,954 "
In 1875, it was	1,641,280 "
And now in the last year	1,858,231 "

It will be seen how regularly and steadily the volume of traffic has been increasing since the capacity of the road has been made adequate to the business, even through the disastrous times of the last three years.

The results, however, of so large an increase of business have been but little more net money than from the smaller business of the year before. Indeed as the business has increased year by year, the rates have fallen off, and so regularly and steadily that with a large annual increase in the volume of business, both the gross and the net earnings have remained for several years not far from stationary. The earnings from freight the last year indeed have not been as large as they were in the year which ended in May, 1873, by the sum of $188,593, though the number of tons transported have exceeded those of that year by 441,439 tons. That the company has been enabled to realize as much, and some more net results from a business nearly a third larger, has been owing to the fact that it has been possible to save money by a more economical, or rather a less expensive management. The ability to work the road so much cheaper, is the result of many causes. The largest is that it has been made fully adequate to the business to be done in all its appointments. Its track is almost entirely steel rail, and requires but moderate renewals, and the prices of labor and all material used in working and maintaining equipment and track have been greatly reduced. The current working expenses therefore are at figures which seemed impossible three years ago.

The annual report of last year contained statements showing the steady reduction of rates for ten years, and the consequences upon the earnings of the road, and the losses by reason thereof upon the business done. It will be proper again to note the results upon the business of the year of the continued reduction of rates as compared with those of only the last three years. The average rate per ton per mile in 1873 was 1 57 cents. In 1874 it fell off to 1.30 cents. In 1875 it fell to 1.16 cents.

With the rates of 1873, only three years since, on the business done the past year, the earnings from freight which were	$3,664,340 20
Would have been	5,566,758 52
Or more than were actually realized by	1,902,418 32
Which is more than five per cent. dividends lost by reduction of rates is only three years.	
With the rates of 1874, the earnings of the past year would have been increased by	$974,628 00
Which is lost by reduction in the rates in the two last years.	
With the rates of only one year ago, the earnings would have been larger than they were the past year by	$475,044 34

That stockholders may know the rates at which the respective classes of business have been done during the year, it may be stated that the average rate on east bound business has been .82 per cent. per ton per mile. On west bound it has been .78 per cent. per ton per mile. Average on both has been .81 per cent. per ton per mile. On local business east bound, the average rate has been 2.04 per cent. per ton per mile. On local west, it has been 2.43 per ton per mile. The average local rate has been 2.20 per ton per mile.

It will be observed that the most valuable through freight, which is merchandise of all kinds from the east to the west, is carried at the lowest rates, and that therefore the business which can afford to pay the most, yields the least revenue to the Railroads.

This steady reduction of all rates, and especially of rates on west bound business, is the result primarily of the controversy of the Boston and Albany, and New York Central, with the Vermont Central and Grand Trunk roads, and with the Baltimore and Ohio, and which has become intensified by the extension of the latter to Chicago, about, or little more than a year ago. Each of these lines furnishes a less favorable connection perhaps between Boston and the west than the more direct line of the Boston and Albany and New York Central.

The consequences resulting from this controversy have been so detrimental to the railway property of the west, north of the Ohio and east of the Mississippi, that the managers of the railroads east from Chicago, last fall endeavored to obviate the difficulty on east bound freight by an agreement among themselves to pool the whole business from Chicago upon certain agreed terms. This agreement was made under the approbation and approval of the President and Vice President of the New York Central Road, both of whom were, and are in the management of the Lake Shore and Michigan Southern Railroad. By the terms of the agreement, it was to continue for two years. It had worked so satisfactorily to the parties, that efforts were being made, with fair prospects of success, to include all roads north of the Ohio extending to St. Louis and other points, when it was abruptly terminated by the withdrawal of the Lake Shore and Michigan Southern from the agreement, and the warfare of rates and fares now existing immediately commenced. While that arrangement existed, in consequence of the larger increase of business of the Michigan Central over the other roads east from Chicago,

this company paid from its earnings to the other two companies, which were short, $50,000.

In the passenger business, there has been a loss of $127,952 24 during the year on the Main Line. The east bound through passengers during the year fell off in numbers 9,598. In the west bound through, there was an increase in numbers of 1,352. In local east bound there was an increase of 22,785, and in west bound of 49,262. There was also a slight increase in emigrants. There was a loss in earnings in all classes, except west bound local passengers and emigrants. The cause is reduced fares, a result of competition. The number of passengers carried on the aggregate, was something more than 50,000 above those of the year before.

The ratio of expenses to the earnings on the Main Line, including taxes, has been 70.05 per cent., and excluding taxes 67.91 per cent. On Main Line and branches together, the ratio has been 70.10 per cent. with taxes, and 67.67 excluding them. The decrease in the gross earnings of the company has been 3.54 per cent.

The floating debt created for reconstruction, steel rails, &c., of the company is $856,000, less cash to apply in New York, $156,000, leaving a total of $700,000. Last year this debt on the 31st May was stated at $770,000. It will be remembered, however, by those who read the December semi-annual statement, that in June and soon after 4,500 tons of steel rail, which had been contracted for before the panic, were paid for in the notes of the company amounting to $435,838 80. The floating debt of June 1, of $770,000 was therefore almost at once increased to $1,205,838 80. This debt has been reduced by payments to the present amount of $500,600 during the year from earnings.

There are on hand yet two thousand eight hundred tons of steel rail, which is enough to complete the Main Line track with steel, there being only that amount of iron left in it. These rails are all paid for, and are probably all which will be required for the year. Though in the accounts something is properly charged to construction for betterments, all expenses of operating and construction have been paid from earnings. The cost of construction for the year has not been large, and is stated, so far as the items are concerned, in the report of the Superintendent. The construction account has been increased somewhat more, apparently than the amount experded during the year. This is due to the adjustment of old accounts connected with reconstruction in the past, and not to any new expenditures. It was believed at the beginning of the year that the floating debt would have been extinguished, and that the company would have been in a position in January to have made some dividend to stockholders.

The amount now standing to credit of income account is $2,247,997 32, the increase during the past year having been $608,232 18. This is larger than the net earnings of the year, after paying interest and rents, and results from the fact that there was an unusually large amount of uncollected earnings at the close of the prior year which have come into the receipts of the present year.

Since the removal of the treasurer's office from Boston to Detroit, which was done solely from motives of economy, there has been no office of the company except at Detroit. The stock of the company has, to some extent, become a subject of speculation, and, as is always the case in such circumstances, many unfounded rumors have been set afloat, and especially relative to the securities of the leased lines and prejudicial to their credit. With no representation in New England, where these securities have been largely held, it has not been easy to counteract their effect and save holders from unnecessary loss. The board, therefore, now avail themselves of the opportunity to state that they consider the obligations assumed by the company relative to the leased lines as sacred as any of its obligations of any description; and further, that the earnings of the company, even in these times of the impaired prosperity of the country, though they may be still further effected by a disastrous and, as they believe, unnecessary warfare among competing roads, have proved to be, and continue to be such that there should be no reasonable apprehension among the holders of any of the securities direct or guaranteed by the company. With the deterioration of rates in the past, the increase of business and reduction of expenses in management have counterbalanced the losses, and with either a revival of the business prosperity of the country, and consequent increase of business even at present rates, or a cessation of the present warfare among great competing routes, there would be no doubt of the ability to earn and make reasonable dividends. Former rates, it is clear, can never be again realized, but those of one or two years ago, with peace, might be realized immediately, and with only those, and with the natural increase of business, satisfactory dividends might soon be made.

The length of road operated was the same as during the previous year, viz: Main Line (including 14 miles, Chicago to Kensington, used jointly with the Illinois Central Railroad Company) 284 miles; branches, 519.72 miles—total, 803.72 miles.

The company have 213 locomotives, distributed as follows: Main Line and Air Line, 144; Joliet Division, 7; Grand River Valley Division, 9; Jackson, Lansing and Saginaw Division, 16; Niles and South Bend Division, 1; Kalamazoo and South Haven Division, 2; Detroit and Bay City Division, 9; in shop for repairs, 18; condemned for service, 7.

The stock in car department is as follows: 70 12-wheel, and 8 8-wheel 1st class, and 29 12-wheel 2d class passenger cars; 1 12-wheel paymaster's and 1 12 wheel dining; 2 12-wheel and 6 8-wheel passenger and baggage; 3 12-wheel postal; 18 12-wheel and 17 8-wheel baggage and mail; 1 inspection, 107 way or conductors', 134 large and 186 small stock, 219 double deck, 1,641 merchandise, 498 combination, 873 Blue Line, 6 refrigerator, 1,304 platform, 2 derrick, and 1 pile driver.

The total number of passengers carried during the year was 893,279, of whom 152,331 were through, and 740,948 local. Number of passengers carried one mile, 70,566,893. Total number of tons of freight moved, 1,858,231, of which 1,093,643 were through, and 764,588 local. Number of tons carried one mile, 356,843,495. Miles run by locomotives, 6,617,430.

The funded debt of the leased roads, which has been assumed by this company, is as follows, all bearing 8 per cent interest, payable semi-annually:

Michigan Air Line, due in 1890, interest payable May 1st and Nov. 1st.	$200,000
Grand River Valley 1st, 1886, January and July	1,000,000
Grand River Valley 2d, 1879, March and September	500,000
Kalamazoo and South Haven 1st, 1890, May and November	640,000
Kalamazoo and South Haven 2d, 1890, May and November	70,000
Jackson, Lansing and Saginaw 1st, 1885, January and July	1,315,000
Jackson, Lansing and Saginaw 2d, 1878, March and September	154,000
Jackson, Lansing and Saginaw, Northern Extension, 1890, May and Nov.	783,000
Jackson, Lansing and Saginaw, Consolidated, 1891, March and September	2,001,000
Detroit and Bay City 1st, guaranteed, 1902, May and November	274,000
Detroit (Bridge and Branch) 1903, May and November, guaranteed	150,000
An aggregate of	$7,087,000

—the interest upon which is $566,960; to which add interest upon Michigan Central bonds outstanding, ($921,440), Grand River Valley dividend ($24,560), Jackson, Lansing and Saginaw rent and expenses ($70,750), and Joliet and Northern Indiana rent ($89,000)—making a total of $1,672,710. The company however receives as stockholder in the J., L. & S. R. R. Co., $23,579 50, which is deducted from the rent, leaving a balance of $1,649,130 50.

President.—James F. Joy.

Vice President.—Samuel Sloan.

Directors—James F. Joy, Detroit; Samuel Sloan, Moses Taylor, Geo. F. Talman, August Belmont, Isaac Bell, John J. Astor, R. G. Rolston, New York; Nathaniel Thayer, Boston.

Superintendent.—H. B. Ledyard.

Treasurer.—C. F. Livermore.

☞ Mr. W. G. Rowell has been appointed superintendent of the Southwestern (Georgia) Railroad in place of Mr. Virgil Powers.

Central Vermont Railroad.

The following outline of the plan of reorganization which the managers of this company are preparing to submit to the security holders is from the St. Albans Messenger:

They propose to form a new company to own the Vermont Central and Vermont and Canada roads. They will issue $7,000,000 of 6 per cent. 30-year bonds, secured by first mortgage on both roads. They will have $3,000,000 of common stock and $1,000,000 of preferred stock.

These securities will be divided and offered to old security holders as follows: To the holders of the funded trust debt (i. e., the Vermont and Canada guaranteed 8s, the equipment loan, and the income and extension bonds, but not including the Stanstead, Shefford and Chambly and Missiquoi bonds), about $3,900,000 of first mortgage bonds; to the holders of the floating debt $1,500,000 of the same; to the Vermont and Canada, $1,500,000 of the same. To the Central Vermont stockholders, $1,000,000 of preferred stock and $700,000 of common stock; to the Vermont Central first mortgage bondholders, $2,000,000 of common stock; to the second mortgage, $300,000 of the same. The new corporation is to pay all debts of the old management not otherwise provided for.

This, in brief, is the proposition. It proposes to pay the trust debt in full; to pay 66⅔ per cent at par of the first mortgage bonds without interest, and 20 per cent. of the second mortgage. It proposes to pay 50 per cent of the Vermont and Canada, without interest, and as the interest in arrears now amounts to upwards of $960,000, it will be seen that unless they treat this interest as a part of the trust debt (and this is not in the programme), the Vermont and Canada will get but a pittance of its worth. It should be borne in mind, too, that the offer is not of so much money, or of securities which have a market value; it is of stock and bonds which unitedly represent a capital higher than the roads would now sell for ($11,000,000), and there is a certainty that it would be more than this, under the clause that the new company shall pay all other debts than those above specified. For instance the foregoing provision for the floating debt is $1,600,000; the actual floating debt, exclusive of all interest claims, is certainly in excess of $2,000,000.

Southern Pacific Railroad.

The progress of construction on the Southern Pacific Railroad continues to be more rapid than was anticipated. An additional section of 50 miles, from near San Gorgonio Pass to Indian Wells, was recently completed and accepted by the Government Commissioners. This leaves only about 100 miles between the end of the track and the State line, on the Colorado river. The contract for building a drawbridge over the Colorado river was recently made. The grading of the intervening 100 miles, which is extremely light, will soon be completed. The mountain work through Tehachepi Pass, which was heavy and necessarily slow and expensive, is now complete, and the track is being laid to the plains beyond, and is being pushed forward toward Soledad canyon at the rate of two miles a day! The mile-and-a-half tunnel, through the San Fernando Mountain, which has been in course of construction for many months, with a large force working eight hour shifts night and day, is also nearly complete. Daylight was let through the headings several days ago; light is, therefore, now had from end to end, and the workman have a current of pure air while they finish the little bottom work remaining to be done. Ten days will complete it. Tracklaying will then go on from both the north and south until the entire line now unfinished between San Francisco and Indian Wells (by way of Los Angeles) is completed, which will not be later than the fifteenth of September. Then all who wish to travel to or from Southern California can ride in a silver palace sleeping car, making the trip between San Francisco and Los Angeles in 18 hours and between Los Angeles and Indian Wells in a few hours more. At Indian Wells four horse stage coaches connect with the cars running to all parts of Arizona. Complaint has occasionally been made against the railroad company for real or imaginary wrongs, but its managers have never been charged with disappointing the public in the progress of railroad construction or in the quality of the work when done. Indian Wells is situated on a plain 23 feet below the level of the ocean. The soil is now sterile and unproductive; it is so only because there are no running streams on the surface; but an abundance of pure water may be had by digging to a depth of 6 to 15 feet. No country near a railroad, with soil so rich and water so easily obtainable, will long remain unsettled or unproductive in California. The completion of this great work, which has been so quietly but vigorously pushed ahead, will mark the commencement of a new era in the business relations of San Francisco with Southern California and Arizona. All the Southern Pacific Railroad Company of California needs is the authority of Congress to push their road through Arizona far toward Texas, in search of an eastern connection with Scott's road. Our Southern Pacific line and the Pacific Coast public were led, and had a right, to expect that Scott's road would now be at the Colorado. Scott, however, is besieging Congress for more subsidy and building no road, while our California company has got as far east as its authority extends, under the Act of Congress. Should Congress authorize the Southern Pacific Railroad Company of California to build on from the west until they meet Scott's road from the east, we would soon have a through continental road, avoiding winters snows, with direct connections to St. Louis, Texas, and the Gulf of Mexico. The importance of such a road to the future commercial interests of the Pacific coast can scarcely be estimated.—*San Francisco Real Estate Circular*.

NEW BOOKS.

The "Fatigue-of-Metals" from the German of Prof. Ludwig Spangenburg. D. Van Nostrand, New York, 1876.

This is a much needed work, but its intensely scientific character together with the stiffness of style almost inseparable from a translation makes it require study.

S. H. Shreve, Esq., the Chief Engineer of the Gilbert Elevated Railroad, widely known by his elaborate treatise on bridges and roofs, opens the work with a preface which is far too short.

Ordinary experiments on the strength of metals gives the result of a single strain, gradually increased until it succumbs.

Delicately powerful testing machines, of which that in the School of Mines, at Columbia College, made by Messrs. Fairbanks, the celebrated scale manufacturers, is probably the best example, allow such tests to be multiplied rapidly and accurately, so that the mean, or what is infinitely more important—the minimum, rending or crushing strains of a good number of samples may be and have been obtained and long since made available. But such are only a few of the points about a material which it is important to consider.

We have known for many decades, that vibration "kills" metals. The springs of our Broadway omnibuses last only six months. Cannons stand only a limited number of discharges, and car axles only a limited period of concussions under a car. But against all this we have the knowledge that the hair-springs of some watches have stood a very satisfactory number of repeated strains in opposite directions without failure or perceptible weakening. The laws are not understood.

Liberal means having been provided, Prof. Spangenburg conducted a protracted series of experiments, to determine them or to contribute to the material for such a result.

His conclusions are given in a 16 mo. volume of 90 pages with numerous tables and several small illustrations.

Elaborate machinery was provided to induce regularly intermitted strains. He subjected the metal under test in some instances to successive uniform strains, letting up only partially between each strain. In other instances he relieved the material by reducing the strain to absolutely nothing between each strain. In others still, he subjected the material to strains which changed alternately from a strain in one direction to a strain in the other, as from extension to compression.

We omit his credits to the previous experiments of Styffe, Sandberg, and Wohler. Americans will esteem the result the more reliable if as we are elaborately told they differ but little from Moll's, Reine und Angew. Elem. Mechanik (Braunschweig, 1854); and Redtenbacher's Dymanidensystem (Mannheim 1857), and the Zeitschr. des Oest Ing. u. Arch. Ver. (1873). Massing the previous wisdom with the results of the new experiments this learned professor deduces conclusions of which we can give but a few points.

His loads are given in German Centners, each equal to 110.2 lbs. of our favorite avoirdupois. Twenty of these Centners make a near approximation to our long ton of 2240 lbs., and we will approximately reduce thereto some of his conclusions.

Under simple stretching strains, relaxed to zero between each, a sample of Westphalia iron one square inch in section, under repeated strains of 24 tons each, broke after 4,700 strains. A similar sample broke with 16 tons after a half million repetitions of the strain. A steel which broke with 83,000 pulls of 30 tons was sound after twelve million pulls of 24½ tons. Krupp's practically enduring axle steel was subjected to strains of 32 tons each and broke with 81,000 pulls. A similar sample subjected to strains of 25 tons broke with 429,000 pulls.

We have before alluded to the necessity of knowing not so much the average, as the minimum strains with which metals of a given brand in bridges and like important situations will fail. The variations or range of endurance of similar samples subjected to "fatigue" seems greater than the range in the ordinary testing machines. Three samples of Westphalia iron, for example, were strained at each revolution of the eccentric to 18 tons per square inch; one broke at the 180,800th revolution, another at the 433,572d, and a third did not fail until the 596,089th pull had been inflicted. Two samples of Firth & Sons' steel were strained 24 tons per square inch; one broke with 229,000 and the other with 692,000 revolutions, while two similar samples of the same strained respectively 23 tons and 25½ tons were both sound after 12,000,000 pulls.

Phosphor bronze, while a material able to withstand fatigue more than any other in the resisting of repeated irregular shocks, bending, twisting and compressing, does not bear as many repeated extensions under a heavy load, as some of the

German brands of iron and steel. It is evident that some of the previous assumptions, that experiments under one kind of strain will serve for all, are not warranted. We must, it seems, have separate experiments on extension, compression, bending and twisting.

To experiment with reasonable economy, and so that the results shall be valuable requires the highest order of talent. It is not unusual to discover near the termination of a series that some essential condition has been overlooked, and that the whole must be begun again. Possibly the lapse of time, in which each strain is put on and taken off, will be found by some future experimenter to be important. It is certainly easy to conceive that the machinery might be worked so rapidly that the vibrations would play into each other, and contribute either to increase or to annul each other, so that the results would be greatly affected. We observe no statement how rapidly the machinery was allowed to work, or whether any care was taken that the rate of revolution of the eccentric by which the strain was induced should be always uniform. As high a number as 132,000,000 of strains is talked about in one instance. There are less than a hundred thousand seconds in twenty-four hours, and to inflict the strains at the rate of three per second, day and night, would require one and a half years for that single trial.

It is stated somewhere in the work that the experiments collectively have extended over a period of 12 years.

The tests for bending and twisting were, so far as we can observe, about as variable in their results as the simple tension. Three equal samples of English spindle iron being subjected to repeated equal transverse strains broke respectively at figures closely approximating 400,000, 500,000 and 900,000 bendings. Three other samples of the same strained a little less (we fail to comprehend exactly how the 16 and 15 tons respectively were measured) broke with 400,000, 1,000,000 and 1,100,000 of the slight deflections. Three more, strained also uniformly with each other but less than the preceding three, broke with 1,000,000, 1,000,000 and 1,300,000 bends.

The subject is a great one; the experiments seem to have been unusually elaborate; the results have been presented in detail in tables.

The following is an extract from near the close:

"The rupture of iron and steel under torsion shows a smooth surface adjacent to the fracture, while that of bronze is shining, and phosphor bronze is often dark brown or blackish on the opposite side. This may be explained by supposing that after the breaking up of crystals into molecules, these partly resolve into atoms, those of tin gathering at one place, those of copper and phosphorus at another.

"We must reject the theory that iron is made crystalline by repeated tension, since bending and tension appear by our experiments, to break up the crystalline structure; while compression promotes it. So the upper parts of rails become crystalline and hard because subjected to compression. Whether irregular shocks promote crystallization remains to be determined by experiment."

☞ A railway from Manchester to Haverhill, Mass., through Hamstead and Atkinson, is projected.

The Piney Creek Route.

A meeting was held in Dover Meeting House, Baltimore county, on the 12th inst., to consider the propriety of securing the building of a railroad from Hanover, Pa., to pass through the Western Run and Worthington Valleys until it intersects the Western Maryland railroad at Reisterstown, making a new route from Harrisburg. A map of survey made a few years ago by Mr. Irwin, former president of the Western Maryland railroad, was examined and the announcement made that an engineer had been employed and a new survey ordered, the expenses to be equally divided between the Hanover railroad and the advocates of the valley route. The line to be surveyed is called the Piney Run route, and traverses a rich section of the Worthington Valley. A committee composed of John Carroll, C. L. Conrad, C. T. Cockey and E. P. Philpot was appointed to pursue such methods as would bring out the building of the road.—*Balt. Sun.*

☞ The Cambria Iron and Steel Company, of Johnstown, Penn., have in the Annex, Main Building of the Centennial Exhibition a fine exhibit of the minerals used in their business and mined upon their premises, together with some of the manufactured products. An arch is erected, at the top of which are steel and iron rails, and down the sides are rail piles, ingots, blooms, spiegeleisen, "muck ball," mill pigs, Bessemer pigs and coke. Around the base of the arch are arranged coking coal, rolling mill coal, a large block of coal from the Miller seam, at Johnstown, Belgian oven coke, fire clay, &c.

☞ The bonded debt of the State of Vermont has been reduced $32,000 during the year. The resources exceed the nominal liabilities $72,900, of which sum $135,500, known as the "Agricultural College Fund," is deposited with the State Treasurer, though only the yearly interest on this amount will probably ever be called for. This, with the excess of resources, gives $208,400. Out of this sum, however, is to be paid $100,000 bonded debt, which falls due Dec. 1, as well as the legislative and ordinary expenses for the coming year.

☞ At a meeting of the bondholders of the New York and Boston Railroad held in this city on the 10th inst., the committee appointed at the last meeting recommended the issue of $4,000,000 of preferred stock, and also that first mortgage bonds be sold at 85 cents, which was adopted. The Chief Engineer of the road stated that $1,000,000 would complete the road, lay steel rails and build stations, &c. Messrs. Philo C. Calhoun and John W. Ellis were added to the Board of Directors.

☞ The directors of the Lamoille Valley (Vt.) Railroad have completed a contract with the Portland Rolling Mills for 3500 tons of rails, sufficient to complete their road from Johnson to Swanton. The rails are to be delivered very soon, and the work of laying the same will be begun at both ends, and pressed forward until the road is completed. It is expected now that the road will be open through to Lake Champlain this fall.

☞ The new Mining Exchange in this city has been permanently organized by the election of the following officers: President Wm. Ward; first vice president, Lawrence P. Bayne; Treasurer, Daniel Butterfield; Secretary, H. J. Hubbard.

The Coal Trade.

The coal tonnage for the week ending the 5th instant, as reported by all the companies, amounted to 383,207 tons, against 578,698 tons in corresponding week last year, a decrease of 195 491 tons. The total amount of anthracite mined for the year is 9,377,917 tons, against 10,089 577 for same period last year, a decrease of 711,660 tons. The quantity of bituminous coal sent to market for the week was 82,449 tons, against 75,920 tons for corresponding week last year, an increase of 8529 tons. The whole bituminous tonnage from the beginning of the coal year is 2,071 988 tons, against 2,134.780 tons in corresponding time last year, decrease of 62,794 tons. The total tonnage of all kinds of coal for the week is 465,656 tons, against 654,618 to corresponding date last year, a decrease of 188,692 tons, and the total tonnage for the coal year is 11,449,897 tons, against 12,224,357 tons to same date last year, a decrease of 774,460 tons. The quantity of coal and coke carried over the Pennsylvania Railroad during the last week was 84,844 tons, of which 26,885 tons were coal and 7959 tons coke. The total carried this year is 2,461,018 tons, of which 2,021,161 were coal and 429,914 coke. This total embraces all the coal carried over the road, east and west.—*Phila. Ledger, Aug.* 14.

☞ The Pittsburg Chronicle says that the Pennsylvania Transportation Company have consummated contracts at Parker City with the Pipe Manufacturers' Association for 300 miles of pipe. Operations will commence immediately, and the line to the seaboard be completed before the first of December. The engineers of the line are now receiving bids for pumps and boilers. The route is definitely located, and the bonds are being rapidly taken at par.

☞ A contract for $295,000 has been awarded for constructing the 26 miles of the Simcoe Junction Railway between Stouffville and Jacksons' Point on Lake Simcoe. This part is to be finished by the first of October, 1877. The Nipissing Railway has leased the road for 21 years, furnishing the rolling stock, and keeping the road in good repair, for which they give the Junction Co. 25 per cent. of the gross earnings, payable half-yearly.

☞ The Dutchess and Columbia, N. Y., railroad was sold by the referee in Poughkeepsie on the 10th inst. Mr. J. N. Whiting, of New York, purchased the road, with the exception of a small section, on behalf of the first mortgage bondholders, paying therefore the sum of $297,500. Mr. T. P. Lowery, also of New York, purchased the balance, the right of way to the river, for the third and fourth mortgage bondholders, for $40,000.

☞ The Secretary of the Treasury has awarded to Messrs. Fisk & Hatch, bankers, of this city, $2,160,000 five per cent bonds of 1881. These bonds were authorized by the acts of July 14 1870, and January 20, 1871, and bear interest, payable quarterly, from August 1, 1876. The competitors numbered twelve, and the bids ranged from 101.09 to 105.05, at which price the bid of the firm above named was accepted.

☞ The receipts of the Midland Railway of Canada for the week ending July 31, 1876, were $5,448 48. Same week last, year $10,340 36. Decrease, $4,891 80. Total traffic to date, $146,348,-14. Do. year previous, $157,745 34. Decrease, $11,397 20.

American Railroad Journal.

Saturday, August 19, 1876.

Financial and Commercial Affairs.

An extraordinary aggregate, $21,440,000, was reached by the bids for the $2 160,000 of 5 per cent Geneva award bonds, the entire amount of which issue was awarded at 105.05 gold to Messrs. Fisk & Hatch, bankers, of this city, their bid having been the highest made. The Money market was not at all disturbed by the negotiation, and loan and discount interests worked with remarkable ease during the week, call loans having been quoted at from ½ to 2 per cent, and the best mercantile credits at from 3@5 per cent per annum, at which figures the offerings of accommodation were largely in excess of the requirements of responsible borrowers. Some shipments of currency have been made hence to the interior, to facilitate crop movements, especially the Wool product, and this drain has led to a slight reduction of net reserves of the City banks. National Bank notes received at the Treasury Department last week for redemption were to the amount of $4,602,000. The City Banks have had their deposits augmented $266,300, and their legal tender reserve reduced $1,650,100. The specie average has been increased $966,000. The loan and discount item $319,500. The circulation $266,300. The U. S. Sub Treasury in this city closed the week with a currency balance of $30,308,257 against $29,772,480 the preceding week: and a coin hoard of $31,495,649 against $31,707,935 on the previous return. The City bank exchanges in currency reached $292,334,502, or a daily average of $48,889,084. The customs revenue of the port during the week was $2,285,000.

The City banks reported their average of gold

last week at $21,092,000, and their greenback average at $58,683,200. Their deposits stood at $226,515,100. The loan item was $253,075,800. The circulation was $15,273,900.

The City Bank net reserve of specie and legal tender notes now shows an excess over the legal requirement of reserve to liabilities of $23,146,425, as against $23,839,350 the preceding week.

The aggregate of the outstanding U. S. currency of all denominations, August 1st, was $403,022,216. The outstanding amount of legal tender notes is $369,619,228. The National bank circulation is now $325,935,422, including $2,099,190 of national gold bank notes.

On Tuesday of this week the cash balances of the Treasury Department at Washington were: of Currency $14,328,170; special deposit of legal tenders for the redemption of certificates of deposit, $33,790,000; Coin, $60,494,663; Coin certificates, $29,323,700.

Under instructions from the Secretary of the Treasury, the U. S. Assistant Treasurer at New York sold on Wednesday the 16th inst., the $2,269,089 gold received for the bonds of the 5 per cent. funded loan of 1881, marketed on the 12th inst. at from $111 26@111 35. The bids reached $10,867,000.

The exports of specie from San Francisco, from January 1 to August 3, were $27,065,652.

The income of the Government from internal revenues thus far in the current fiscal year, commencing with July 1, 1876, has been about 16 millions; and from Customs, 18 millions.

The week's import entries of Foreign Merchandise at New York were $5,760,715, including $2,085,410 of Dry Goods.

Gold has been moderately active, but quoted lower. The offering by the Government of over two million on Wednesday tended to weaken the speculation. The inquiry for custom house purposes was moderate for the season; and the export drain was comparatively very light. The extremes of the price during the week have been 111⅛@111¾, closing on Wednesday at 111⅛, as against 111¾ on Wednesday of the preceding week. The specie outflow last week was $279,600, against $605,324 the previous week. The imports of specie at this port last week were $178,926, and since January 1st $2,848,901 as against $8,137,570 same time last year. The customs demand for gold last week averaged $380,833 per day. Foreign Exchange has been in less request and quoted heavy. Bankers sixty day bills on London closed on Wednesday at $4 86¼@$4 87; sight bills on London at $4 88⅛@$4 89 to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $4,519,341. The week's imports of Dry Goods and general merchandise were to the specie value of $5,760,715 as against $8,843,937 the corresponding week of 1875.

Government Securities have been in much better demand for investment purposes, opening weaker, but closing at firmer rates. The new 5 per cent Geneva award bonds have been selling at 117⅛. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $339,678,850.

U. S sixes of 1881 closed on Wednesday of this week at 120¼@120¾; U. S. Five-Twenties of 1865, at 115¾@116; U. S. Five-Twenties of 1865 consolidated, 117¼@117½; U. S. Five-Twenties of 1867 119½@119¾; U. S. Ten-Forties at 119⅛@119⅛; U. S. Fives of 1881, (Funding Loan) 117⅛@117⅜; Six per cent. currency Sixes 126¼ 126½.

State and Railway bonds have been more active, and prices of the more substantial loans have been ruling stronger. And in the line of Railway and Miscellaneous share property the week's business has been on a more extensive scale, at unsettled prices under speculative manipulations; closing rather buoyantly on the general list.

General business has been comparatively moderate in domestic produce, but has been more active in the merchandise line, especially so in Dry Goods, Boots and Shoes, Petroleum, Naval Stores, and Groceries at irregular prices. Metals have been rather slow of sale. Eglinton Pig Iron quoted here at $27@$27 50; Glengarnock $27 50@$28 50; Coltness $28 50@$29 50; No. 1 American Pig at $22@$23; No. 2 do. at $20@$22 00; Forge $18@20; American Rails at works $42 50@$45 00; Old Rails $21@$22. Wrought Scrap $28. Ocean freights have shown more animation but at easier figures, especially for berth room. The main inquiry having been from shippers of Grain, Flour, Petroleum, Provisions, Tobacco, Cotton, Resin, and Oil Cake.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—Missouri, Kansas and Texas R. R., 8½; do. consol. S. F. bonds, 57; Canada Southern 1st mort., with int. certif., 52; East Tenn., Va. and Ga. 1st mort., 96; Nashville and Decatur 1st mort., 91; Galena and Chicago 1st mort., 107; South Pacific R. ☞ The lines of the Virginia Telegraph Company, extending from Alexandria to Manassas, Winchester, Harrisonburg, Staunton and other points, has been sold to the Royal Land Company of Virginia. The Potomac, Fredericksburg and Piedmont railroad has also been sold to the same company, who are extending it west to Harrisonburg and their anthracite coal mines, as a narrow gauge. It is understood that the Virginia Telegraph Company will hereafter run in connection with the Atlantic and Pacific Company.

☞ Mr. J. C. Welling, for some time the assistant treasurer of the Illinois Central Railroad Company, has been made auditor in place of W. K. Ackerman, promoted to the vice presidency. Mr. Henry De Wolf, formerly private secretary to the president, has been made assistant treasurer.

☞ The new officers of the Saginaw Valley and St. Louis (Mich.) Railroad are as follows: President, D. H. Jerome; Vice-President, Geo. F. Williams; Secretary, Ezra Rust; Treasurer, A. W. Wright.

The Recent Quick Trip across the Continent.

The Illustrated London News, one of whose artists accompanied the Jarrett & Palmer lightning train across the continent, gives a large amount of space to illustrations of objects of interest seen along the route. The description of the trip is complimentary in all respects except, perhaps, as regards the rate of speed attained, which, it is intimated, would not be considered worth speaking of by railroad men in England. The writer evidently forgot that English railroad men know very little of such railroading as that across the continent. It is a notable fact that of new arrivals, even of first-class English engineers, scarcely one in ten can take a train from Sacramento to Truckee on time.

☞ The Davenport and Northwestern Railroad company, which succeeds to the property and franchises of the Davenport and St. Paul Co., has been duly organized and the following officers chosen: President, L. H. Meyer, of New York; General Manager and Superintendent, John E. Henry, of Davenport; Treasurer, H. Rutten, of New York; Secretary pro tem., T. H. Marcus, of New York.

☞ Colorado, which eleven years ago had no railroad, now has 660 miles, a considerable portion of which is narrow gauge. It has in the north a touch of the Union Pacific; the Kansas Pacific enters it at the middle of the east side, and the Atchison, Topeka and Santa Fe also crosses a part. Many local roads have been built.

☞ The report of the Grand Junction Railway Company, which was presented at the annual meeting held in Belleville, Canada, on the 1st inst., stated the inability of the directors to induce any contractors to undertake the work. Present prospects indicate that the road will not be built for a long time to come.

☞ The Cincinnati Gazette says of the Columbus and Toledo railroad, in Ohio, which is rapidly approaching completion, that it is a first class railway in respect to grades, alignment, rails, ties and road bed, the rails being one half steel, and that its cost averages but $15,000 a mile.

☞ At the annual meeting of the stockholders of the Vermont Division of the Portland and Ogdensburg Railroad Company, held on the 8th inst., the old Board of Directors was unanimously elected. At a meeting of the Directors Waldo Brigham was elected President and John H. George Secretary.

☞ The survey for the coal branch of the Scioto Valley Railroad indicates that it will probably make its junction with the main line about twelve miles north of Circleville, on an air line with Columbus.

☞ Prominent business men of Newburyport, Mass., are agitating the matter of a narrow gauge railroad from Salisbury Point Beach to Salisbury Beach proper, a distance of one and a half miles.

☞ It is expected that the Seattle and Walla Walla Railroad will be completed this fall to the Renton and Talbot Mines on Black River.

☞ Work has been recommenced on the Columbia and Port Deposit (Md.) Railroad.

Larne and Ballymena Railway.

A line of railway of 3 ft. gauge from Ballymena to the port of Larne has just been commenced. Its length will be about 22 miles, including a branch to the Ballymena, Bushdall, and Red Bay Railways, opened some two years ago, which is also of 3ft. gauge. When this railway is completed Larne will be the nearest port of shipment for the iron ores of the northern district of Antrim. Mr. William Lewis, Memb. Inst. C. E., of Dublin, is the engineer of both lines.—*Herapath.*

☞ Hon. Abraham S. Hewitt and J. G. Stevens, the Receivers of the New York and Oswego Midland Railroad, filed their report on the 16th inst. for the second quarter of the current year. The receipts for April, May and June were $142,755 84, which, with a balance on hand, April 1, of $10,066 29, makes a total of $154,824 18. The disbursements amounted to $147,351 58, leaving a balance on hand of $5,472 55.

☞ Articles of incorporation were filed with the secretary of Colorado on the 25th ult. of the Trinidad, New Mexico and San Juan Railway Company, to run from Trinidad to Taos, New Mexico, and Parrot City, and Silverton, Colorado. There is also a prospect that the Denver and Rio Grande Railroad will soon be extended southward from El Moro to Cimmaron, or some other point in New Mexico.

☞ The grading of the railroad from Tomales to Freestone, Sonoma County, California, is finished, all the trestle work in order and tracklaying commenced. A large force of men are at work between Freestone and Russian River, and there is every prospect that the road will be finished to the terminus on the river this fall.

☞ The officers of the Fort Dodge and Fort Ridgeley Railroad Company, recently elected, are: W. H. Brown, president; G. R. Pearsons, treasurer; James B. Williams, secretary. The office of the company is at Fort Dodge, Iowa.

☞ M. Belpaire, the inspector general of railways in Belgium, has accepted for use on the roads of that country a railway carriage resembling a tramway omnibus, affording room for fifty passengers and carrying its own engine.

☞ The report of the Buffalo and Lake Huron Railway Company for the half year ending June 30, 1876, shows a net balance of £11,967, and recommends a dividend of 4s. 3d. per share leaving £668 to be carried forward.

☞ The Hartford, Providence and Fishkill Railroad Company has used a single track of 180 miles for thirty years, and has never seriously injured a passenger or had a collision of trains.

☞ The line of the Bellaire and Southwestern (Ohio) Railroad has been extended to Athens. The capital stock of the company has been increased from $500,000 to $1,100,000.

☞ Mr. Virgil Powers has been appointed general commissioner of the Southern Railway and Steamship Association, the position formerly held by Mr. Albert Fink.

☞ Three gangs of men are at work upon the Keene and Greenfield (N. H.) Railroad in Marlboro,' and other gangs in Hancock and Greenfield.

☞ Hon. W. D. Bishop, of Bridgeport, Conn., has been elected President of the Watertown and Waterbury Railroad Company.

MARSHAL'S SALES.

Marshal's Sale.

George L. Douglass, trustee, &c., pl'ffs, against Louisville, Cincinnati and Lexington Railroad Company, def'ts, and cases heard therewith—Louisville Chancery Court, No. 27,787.

BY virtue of a judgment rendered in the above-named case and the cases heard therewith, the undersigned will,

ON MONDAY, DECEMBER 4, 1876,

sell at public outcry at the door of the court-house, in the city of Louisville, Ky., about the hour of 11 o'clock, A. M., to the highest bidder, the following described property, viz:

All the rights, properties and franchises of the Louisville, Cincinnati and Lexington Railroad Company, including all the right, title and interest of said company free from the liens, mortgages or claims of any kind of the parties herein except as hereinafter stated in and to its line of railroad from its depot on Brook st., in the city of Louisville, through the counties of Jefferson, Oldham, Henry, Franklin, Woodford, Scott and Fayette to its depot on Water st., in the city of Lexington, and from Lagrange Junction, in Oldham county, through the counties of Oldham, Henry, Carroll, Gallatin, Grant, Boone, Kenton and Campbell, to its junction in the city of Newport with the Newport and Cincinnati Bridge, with all its improvements and appurtenances, right of way, lands adjacent thereto, depots, and the land upon which they are situate, and adjacent thereto, machine shops, round houses, cattle-pens, and the lands on which they are situate and adjacent thereto, turn-outs, side-tracks, switches, engines, passenger cars, baggage cars, freight cars, dirt cars, hand cars and all other rolling stock of every description, machinery, tools, implements, fixtures, furniture, whether in buildings owned by it or leased by it or the receiver, materials and supplies of every description, so as to vest in the purchaser all of the right, title and interest of said Louisville, Cincinnati and Lexington Railroad Company, and to all property owned by it or in which it has any interest on said day of sale except choses in action, and all its rights and franchises free from any lien or claim of any of the parties to this suit except as hereinafter stated.

The purchaser or in the event of his transferring his bid before confirmation of the sale and the transferee thereof being accepted by the court, such transferee shall in any event in addition to the amount bid by him be required to assume the following outstanding debts, and all the engagements and obligations of the mortgage and deed of trust given to secure them, viz: One hundred bonds of one thousand dollars each, executed by the city of Louisville, the payment whereof was assumed by the Louisville and Frankfort Railroad Company, and secured by deed of mortgage dated 20th November, 1854, and recorded in the Jefferson County Court clerk's office, in deed book —, page —. Said bonds mature July 1, 1881, and bear interest at 6 per cent. per annum from July 1, 1876, payable semi-annually on the 1st day of each July and January from January 1, 1877, to July 1, 1881, inclusive.

Twelve bonds of one thousand dollars each, executed by Louisville and Frankfort Railroad Company, and secured by deed of trust from said corporation to James Guthrie, Virgil McKnight and Joshua B. Bowles, dated March 12, 1857, five of which bonds mature July 1, 1877, and seven of which mature July 1, 1878, and all of which bear interest at 6 per cent. per annum, payable semi-annually from July 1, 1876, the first five bearing coupons payable January 1, 1877, and July 1, 1877, and the other seven bearing coupons payable January 1, 1877, July 1, 1877, January 1, 1878, and July 1, 1878.

In addition to the assumption of the above amounts, and the engagements and obligations of the above mortgage and deed of trust, the undersigned will first offer said property, subject to the assumption by the purchaser of the following amounts and of the engagements, obligations, rights, duties and powers of the deeds of trust given to secure them respectively, to-wit: three thousand bonds of one thousand dollars each, dated January 1, 1867, and due January 1, 1897, bearing interest from July 1. 1876, at the rate of seven per cent. per annum, payable semi-annually on the first day of each January and July from January 1, 1877, to January 1, 1897, both inclusive, and same secured by deed of trust from the Louisville and Frankfort and Lexington and Frankfort Railroad Companies to Norvin Green, trustee, dated January 1, 1867, and hereinafter called the Norvin Green trust deed.

Nine hundred and eighty-nine bonds of one thousand dollars, each dated April 1, 1870, and due April 1, 1900, bearing interest from October 1, 1876, at the rate of 8 per cent. per annum, payable semi-annually on the first day of each April and October from April 1, 1877, to April 1, 1900, both inclusive, and same secured by deed of trust from the Louisville, Cincinnati and Lexington Railroad Company to George L. Douglass, trustee, dated April 1, 1870, and hereinafter called the Douglass trust deed.

Three hundred and seventy-four bonds of one thousand dollars, each dated October 1, 1872, and due October 1, 1902, bearing interest from October 1, 1876, at the rate of eight per cent. per annum, payable semi-annually, on the first day of each April and October from April 1, 1877, to October 1, 1902, both inclusive, and same secured by deed of trust from the Louisville, Cincinnati and Lexington Railroad Company to A. D. Hunt, trustee, dated October 7, 1872, hereinafter called the Hunt trust deed.

One million five hundred and eighty-two thousand five hundred dollars in bonds, some of one thousand dollars and some of five hundred dollars, each dated April 1, 1873, and due 1st January, 1903, bearing interest from July 1, 1876, at the rate of seven per cent. per annum, payable semi-annually on the first day of each July and January from January 1, 1877, to January 1, 1903, both inclusive, and same secured by deed of trust from the Louisville, Cincinnati and Lexington Railroad Company to James Lees, trustee, dated April 1, 1873, and hereafter called the Lees trust deed.

When said property is so offered, subject to the assumption by the purchaser of the amounts secured as above by said six mortgages, and his assumption of the engagements, obligations, rights, powers and duties of said six mortgages, if an amount is bid equal to the amount of interest due and unpaid thereon regarding the bonds as not matured, together with unpaid costs of said mortgages, and costs of sale and James Taylor's claim, the undersigned will proceed to sell the property so subject, and accept the highest bidder. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by the first five mortgages (excluding the Lees trust deed), and his assumption of the engagements, obligations, rights, powers and duties of said five mortgages. When said property is so offered, if an amount is bid equal to the amount of interest due and unpaid under said five mortgages regarding the bonds as not matured, and unpaid costs of the said five mortgages and of sale and James Taylor's claim, the undersigned will proceed to sell the property so subject, and accept the highest bidder therefor. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by the first four mortgages (excluding the Lees and Hunt trust deeds), and his assumption of the engagements, obligations, rights, powers and duties of said four mortgages. When said property is so offered, if an amount is bid equal to the amount of interest due and unpaid under said four mortgages regarding the bonds as not matured, and unpaid costs of said four mortgages and costs of sale, the undersigned will proceed to sell the property so subject, and accept the highest bidder therefor. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by the first three mortgages (excluding the Lees, Hunt and Douglass trust deeds), and his assumption of and subjection to the engagements, obligations, rights, powers and duties of said three mortgages. When said property is so offered, if an amount is bid equal to the amount of interest due and unpaid under said three mortgages regarding the bonds as not matured, and unpaid costs of said three mortgages and of sale and James Taylor's claim, the undersigned will proceed to sell the property so subject, and accept the highest bid therefor. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by the first two mortgages (excluding the Lees, Hunt, Douglass and Green trust deeds), and his assumption of and subjection to the engagements, obligations, rights, power and duties of said two mortgages, and will accept the highest bidder therefor.

The purchaser, or in the event of his transferring his bid before the sale is confirmed, and his transferee being accepted by the court, such transferee will be required to execute a separate obligation to the mortgagee or trustee of each mortgage or deed of trust to which he buys subject, and shall, by such obligation, bind himself to the payment of the debts secured by such mortgage or deed of trust, principal and interest as and when they become due, and to the performance of all the engagements and obligations contained in said mortgage or deed of trust, and shall subject himself and the property purchased by him or future to be acquired by him, as the owner of said railroad, to all the duties, conditions, engagements and obligations of said mortgage or deed of trust, and confer upon said mortgagee or trustee and his *cestui que* trusts all the powers, rights and duties conferred by the original mortgage or deed of trust, and in every way to bind himself and the property then owned and future to be acquired by him as owner of said railroad, and to confer upon said mortgagee or trustee and his *cestui que* trust all the rights and powers as if he, the said purchaser, had been the grantor in said original mortgage or deed of trust, and the maker of said bonds and coupons.

If said property is sold subject to any other mortgages than the ones of the city of Louisville and Guthrie, McKnight and Bowles, it will be sold on a credit of 3, 6, 9, 12, 15, 18, 21, 24, 27, 30, 33, 36, 39, 42, 45, 48, 51, 54, 57 and 60 months, for equal parts of the purchase money. If sold subject to these mortgages, it shall be sold on a credit of 3, 6, 9, 12, 15, 18, 21, 24, 27, 30, 33, 36, 39, 42, 45, 48, 51, 54, 57, 60, 63, 66, 69, 72, 75, 78, 81, 84, 87, 90, 93 and 96 months, for equal parts of the purchase money.

The purchaser will be required to execute bonds, with good security, bearing interest from date until paid at 6 per cent. per annum, and said bonds will be drawn payable on or before the day of their respective maturities. The bidder accepted by the marshal will be required to at once deposit with said marshal the sum of $20,000 as security for his compliance with the terms of sale, which sum the marshal shall at once pay into court, which may be withdrawn by the said bidder on confirmation of the report of sale. A lien will be retained on the property sold to secure the bonds of the purchaser, and any obligation executed by him for mortgages or deeds of trust assumed by him.

C. C. W. ALFRIEND,
Marshal Louisville Chancery Court.

☞ The Bethlehem Iron company, of Bethlehem, Penn., now owns and has running six blast furnaces, five of which, with a capacity of 60,000 tons per annum, are running on ordinary pig, and one, of 30,000 tons capacity, on spiegeleisen; an iron rolling mill, with a capacity of 20,000 tons of rails per year, and a Bessemer steel mill, turning out 59,000 tons of rails. The company employs about 2000 men, has a capital of $2,000,000, and a bonded debt of $1,000,000. For the last working year there was a loss on the iron work, but it was more than made up by the profit on the steel mill.

☞ The survey for a narrow gauge Railroad from Boston to Stoneham, Mass., has been completed, and work will soon be commenced. It is proposed to have the road start from a point in Winthrop, where it will form a junction with the Boston, Revere Beach and Lynn Railroad, and pass through the towns of Everett, Malden and Melrose. The distance by the new road from Stoneham to Boston will be about nine miles, and passengers are to be landed at the present termini of the Boston, Revere Beach and Lynn road, at Rowe's wharf. The estimated cost of the new road is $300,000.

☞ The Mason Machine Works of Taunton, Mass., have contracted with the American Linen Mill Company of Fall River to furnish them seventy two pairs of mules—about 40,000 spindles—and will forthwith commence to execute the large order. The mule department of the works has now sufficient work on hand to keep it running at its fullest capacity for over six months.

☞ At the annual meeting of the stockholders of the Texas and Pacific Railway, in Philadelphia, on the 8th inst., Thos. A. Scott was re-elected president; Frank S. Bond and John C. Brown vice presidents, and George D. Krumbhaar, treasurer.

Texas and Pacific Railroad.

The report of the Board of Directors of the Texas and Pacific Railway Co. show gross earnings for the year ending May 31 $1,564,625; working expenses $891,882; net earnings $672,743; taxes, legal and other expenses $174,476—leaving $498,267 to pay interest amounting to $487,500 on first and second mortgage bonds. Only nine miles of new road was built during the past year, making the entire length 333 miles. Within this month the road has been completed from Dallas to Fort Worth, and the work between Paris and Texarkana, altogether 124 miles, will be finished during the present week, making the entire line of completed road 444 miles. The road carried 10,110,924 passengers and transported 28,006,762 tons of freight one mile during the past year, against 7,458,450 passengers and 14,217,234 tons of freight the year previous.

The Disruption of the Coal Combination.

The disruption of the combination for the maintenance and regulation of the prices and movement of anthracite coal, which has existed between the great coal and railway companies having direct relations with that important branch of industry, since 1872, is definitely announced; and the sales of large quantities of coal by auction, which were suspended when this combination was founded, are to be renewed; half a million tons will be sold on Tuesday next.

This association has met with an experience similar to that which has overtaken others of a like character. It was found to be practicable no longer than it proved advantageous to all parties to it. The effects of the panic of 1873 have caused its overthrow. And probably there is, under the circumstances, nothing to regret that it has come to an end. The panic of 1873 was peculiarly a panic affecting coal and iron interests. Recovery from it could not be expected, nor indeed initiated, until its full effects had not only been acknowledged, but demonstrated. The prolonged depression in business affairs has been due, largely, to the effort to get over, or around, by some means, the full acknowledgment of the logic of that disaster. The course that has now been adopted is a long step in the right direction. Its results can hardly fail to be reassuring. We may hope that it will be seen that the actual position of trade and manufactures is much more favorable than has been suspected. We feel quite sure that the worst has passed, and that nothing is now required, except a recognition and acknowledgment of this fact, to promote the rapid return of mercantile and manufacturing prosperity—furnaces and mills starting up, new railways projected, corporate credits improved, values assured, labor fully employed, and, in short, a new era of prosperity inaugurated. Thus we take a hopeful view of the whole matter. It is much better, at least, than the doubt, uncertainty and mistrust which have prevailed; for it will make us fully informed of the extent of the difficulties which the coal trade has experienced; and perhaps, if the remedy does not suggest itself, it may by the light of the new experience, be found out and applied.

Lehigh and Eastern Railroad.

The Baltimore Sun says that the Lehigh and Eastern Railroad Company, which is the exclusive owner of a million of acres of coal lands in the Lehigh Valley, proposes to enter into competition with the great railroad companies who now control not only the price of coal at the mines by restricting production, but also the cost of transporting it to a market, and will proceed immediately with the construction of a railroad which is to form the connecting link between the New England States and the Lehigh coal fields. The western terminus of the proposed road is at Tomhickton, Pa., where it connects with the Danville, Hazleton and Wilkesbarre Railroad. The eastern terminus is to be at Grey Court, where it will connect with the Newburgh division of the Erie Railway. A third rail is to be laid from Grey Court to Newburgh, to conform to the gauge of that of the Lehigh and Eastern and the Dutchess and Columbia, in order that coal and other freights can be transported, without breaking bulk, from the Lehigh Valley to any part of the New England States. With the building of the bridge across the Hudson river at Poughkeepsie, the Lehigh and Eastern Company propose to build an independent line from Port Jervis to that City. The distance from Port Jervis to Tomhickon is 100 miles, which is the length of the new road.

The Sun further learns that the Lehigh and Eastern Railroad Company has given practical proof of its determination to build the new road, a contract has already been awarded to responsible parties for the construction of forty miles of it, and ground is to be broken at once, as the contract calls for the completion of that part of the line "on or before the first of April." The remaining portions of the work are also soon to be put under contract and pushed actively.

Savannah and Memphis Railroad.

At the annual meeting of the stockholders of the Savannah and Memphis Railroad Company, held at Opelika, Ala., on the 5th inst., the following gentlemen were elected directors: P. P. Dickinson and H. J. Davison, of New York; W. L. Salisbury, and T. E. Blanchard, of Columbus, Ga.; W. B. Shapard, R. J. Thornton, John J. Smith, R. M. Greene, and Allen D. Sturdevant, of Alabama. The officers are: P. P. Dickinson of New York, President; W. L. Salisbury, of Columbus Vice President; W. S. Greene, Superintendent, Secretary and Treasurer. This road was projected from Opelika via Birmingham, Ala., to Corinth, Miss., 300 miles, and was intended to connect Savannah with Memphis and St. Louis by a more direct route than the present one via Chattanooga. With sixty miles in operation in October, 1873, the panic compelled a suspension of all construction, leaving only a local road. At the late meeting movements were inaugurated looking to a speedy connection with the Selma, Rome and Dalton Railroad at Childersburg, a distance of 26 miles from the present terminus. This road is now entirely dependent on local business through a sparsely settled country, and it is believed that this connection will open up a good through business, via the Selma, Rome and Dalton Railroad, to the north and west, for goods shipped to Opelika. That place has, it is true, three outlets—to Atlanta, Savannah and Mont-

gomery—but all three are under one management, so that there is no competition. There are large deposits of iron, slate, lime and marble along the line of this road, that will be opened up as soon as these 26 miles are completed, besides a heavy coal business may be reasonably expected from the Selma, Rome and Dalton.

Erie Railway.

It is stated that the efforts of Mr. Jewett to obtain a reorganization of the Erie Railway Company have been brought to a successful termination. The scheme proposed is as follows:

All of the mortgage bondholders down to the first consolidated are to receive interest regularly. The first consolidated mortgage bondholders are to fund alternate coupons for six years. The second consolidated to fund all of their coupons for that period. The holders of common stock are to pay six dollars per share into the treasury of the road, and the preferred stockholders three dollars per share.

It is claimed that the parties in interest on the other side have assented to the proposition, and that the board of directors have sanctioned the agreement. It is believed that the company can be organized by the first of January, and the property taken out of the hands of the receiver.

Chicago and Northwestern Railway.

The earnings of this road for the years ending May 31, 1875 and 1876, were as follows:

	1874-'75.	1875-'76.
From passengers ..	$3,205,059 68	$3,145,749 63

Balance of income account May 31, 1876		$3,817,829 53

The number of miles of railroad is as follows: The Consolidated Chicago and Northwestern Railway and branches, 1,059.30 miles; Chicago and Milwaukee Railway, owned but not consolidated, 85 miles; Chicago, Iowa and Nebraska Railroad, and Cedar Rapids and Missouri River Railroad in Iowa, under perpetual lease, 356.60 miles—total 1,500.90 miles. The Proprietary Lines are: Winona and St. Peter Railroad and Mankato Branch, 360.75 miles; La Crosse, Trempeleau and Prescott Railroad, 29 miles; Northwestern Union Railroad, 62.63 miles; Iowa Midland Railroad, 68.80 miles—total, 491.18 miles. There has been no change in the number of miles of railroad since the last report, but a correction in the distance of the old line between Belvidere and Madison increases the total by 1.30 miles, making the whole number of miles 1,992.08.

Comparing the operating of the 1,500.90 miles of the Chicago and Northwestern Railway and branches with those of the previous year shows an increase in the gross earnings of $65,984 84, with a decrease in expenses of $575,836 56, making the increase in net earnings $641,821 40. The percentage of expenses to earnings, exclusive of taxes, in 1875-'76, was 55.38; same for preceding year, 59.47. Per cent inclusive of taxes, 58; same for preceding year, 62.83.

The gross receipts of the Chicago and Northwestern Railway proper, and of the Proprietary lines—1,992.08 miles—for the year ending May 31, 1876, were $14,013,731 97, against $13,786,303 08 for the year ending May 31, 1875, an increase of $227,428 89. Of this increase, 29 per cent came from the Chicago and Northwestern Railway, and 71 per cent from the Proprietary roads. The President in his report says:

The gross earnings of the fiscal year furnish no adequate indication of the amount of traffic as compared with the previous year. They rather show the constant progress and increasing development of the country tributary to our lines. Additional business has come in to more than make up for any deficiencies occasioned by the prevailing low rates of transportation. The descending scale in prices during the year was met by an ascending volume of traffic, and by greatly reduced operating expenses, producing results which have added to the net profits of the company, and are encouraging for the future of the property.

Had the prices of the year previous been obtained on the business of the last year, the gross earnings would have been $942,048 88 greater than they were, of which earnings, $209,248 08 would have accrued from passengers and $732,800 80 from freight.

A gratifying feature is the improvement which has taken place in the business of the newer lines. The proprietary roads, as a class, have increased their traffic in much more rapid ratio than the parent road, although a steady and healthy growth has continued with the latter.

The increase in tonnage carried one mile on the Chicago and North Western Railway was 10.08 per cent.; on the Winona and St Peter, 18.88 per cent.; on the La Crosse, Trempeleau and Prescott, 18 67 per cent.; on the North Western Union, 24.55 per cent.; and on the Iowa Midland Railway, 26.95 per cent.

The aggregate number of tons carried during the year was.....	3,471,927
And for the previous year.	3,153,315
Increase, 10.10 per cent.	
The earnings per ton of freight were...	$2 83
And for the previous year.....	3 03
Decrease, 6.60 per cent.	
The total tons carried one mile were.	503,132,389
And for the previous year.....	454,546,468
Increase, 10.69 per cent.	
The earnings per ton per mile were...	1.95 cents.
And for the previous year.....	2.10 "
Decrease, 7.14 per cent.	

The whole number of passengers on all the lines was 3,527,143, against 3,407,620 in the previous year, an increase of 3.51 per cent.

The number carried one mile was.....	122,281,308
And for the previous year.....	116,775,854
Increase, 4.71 per cent.	
The earnings per passenger were...	98.77 cents.
And the earnings for previous year.	1.03.48 "
Decrease, 4.55 per cent.	
The earnings per passenger per mile were.....	2.85 cents.
And for the previous year.....	3.02 "
Decrease, 5.63 per cent.	

The operating expenses and taxes of the whole road, (1,992.08 miles,) compared with same items in the preceding year, were as follows:

For year ending May 31, 1875.	$8,781,267 13
" " " 31, 1876.....	8,274,289 90
Decrease.....	$506,977 23

The saving, thus effected, has not been made at the expense of the property, but is the result of careful efforts extending through every department of operating, and is the fruit of better facilities afforded by the completion of the new shops, by steel track, and important improvements in permanent way.

The road and rolling stock have been fully maintained, and are in good condition at the close of the year. Besides the renewals with steel rails, extensive repairs and improvements have

been made in the track, bridges, culverts and roadway.

At Rock River, near Sterling, the bridge has been replaced by three spans of 120 feet each, of combination truss; the bridge over Cedar River, in Iowa, has also been renewed with two spans of same construction, of 150 feet each, and a Howe truss, of two spans, has been built over the Boyer River.

The Mississippi River Bridge at Winona has been improved by the construction of three spans of Howe truss, of 142 feet each, extending over the bottoms and back channels east of the main channel, in place of the original pile bridging, to afford additional water way.

At Rockford, the railroad bridge over Main street has been lengthened, and rebuilt of iron, with two new abutments.

During the year, the sum of $45,525 38 was expended for new equipment, including the cost of fifty new stock cars, forty ditching cars, one tool car, and for other items of safety trucks, Westinghouse Air Brakes, and similar improvements.

Seven first class passenger cars, two baggage, two pay cars, twenty-eight box, eight stock, twenty five flat and thirty-six caboose cars have been rebuilt in the shops.

Six locomotives have been rebuilt, and two rebuilt and changed from wood to coal burners, and 79 locomotives improved with extra renewals and repairs, in addition to the usual repairs of engines.

There has been expended upon the company's new shop improvements, including buildings, machinery, appurtenances, and shop ground (comprising 240 acres) at West Chicago during the past year, the sum of $289,484 61, and upon the property from the beginning in 1873, up to the close of the fiscal year, the sum of $1,196,241 62. The works are of great extent and of the most durable character, and have been conveniently and carefully constructed, with due regard to promoting economy of labor, and providing facilities which shall be ample for the growing wants of the company in this important department of its service.

Nine new and substantial shop buildings of brick and stone, of various classes, covering nearly 8¼ acres, have been erected during the year, viz:

A two story shop, for wood working machinery, engine room, 21×38; boiler room, 28×36; tank, 24 feet diameter and 16 feet deep.	80×308 ft.
A blacksmith's shop for car work and working tools	80×308 ft.
Two buildings, with transfer table between, for building and setting up cars, each	80×302 ft.
One shop, with transfer table, for painting cars	80×302 ft.
A general warehouse of two stories, for storage of materials and supplies	50×300 ft.
A two story oil house	50×50 ft.

These buildings are all heated by steam, are supplied with water tanks, steam pumps, hydrants and pipes connected with local Artesian wells and with the city mains, for greater security against fire.

A round house of brick, containing 18 stalls for engines, with boiler and engine room, water station, &c., has been erected at Harvard, at a cost of $24,775 36.

New passenger stations have been built at Highland Park and East Rockford, and a station building at Bangor, and water stations at various other points along the road.

The sum of $54,059 97 has been expended in the permanent improvement at Root River, Racine, where a new bridge of two fixed spans, and a draw bridge on stone masonry has been erected, and 100,000 cubic yards of embankment been made from material mostly obtained by cutting down the heavy grades in the road about 8 miles north of the bridge.

Among other general expenditures, the amount of $151,661 76 has been paid for depot grounds, rights of way, gravel pits, station facilities and other valuable property acquired for the uses of the company.

A new breakwater of 1,500 feet in length has been constructed at Milwaukee for the greater protection of the track of the North Western Union Railway, along the lake shore; and other construction expenditures for depot grounds and right of way on the lake front, and for side tracks, ballasting and other purposes, have been made for account of this railway, amounting, in the aggregate, to $77,835 12.

As one of the indispensable conditions of prosperity, the company is actively engaged in reconstructing its principal tracks with steel rails, and the work is progressing as fast as renewals of the present track are required, and it can be done with economy in the operation of the road.

The number of miles laid during the year was 116.85 making a total of 440.20 miles of steel track in use at the close of the last fiscal year.

Contracts for 15,000 tons American steel rails, payable with one ton of old rails for each ton of steel, and the balance in cash, were made last winter for summer and fall delivery; these rails will be laid as received, during the present year.

The capital stock of the Chicago and North Western Railway Company on the 31st of May last was as follows:

Common stock and scrip	$15,011,180 40
Preferred " " "	21,502,233 42
Total	$36,513,413 82

During the year there was issued $16,580 of common stock, and the same amount of preferred stock, for account of Peninsula bonds converted, and for small amounts of fractional scrip surrendered in adjustment of old dividends.

Of the various issues of bonds, the following have been taken up and cancelled during the past year:

Preferred sinking fund bonds, $1,100; General first mortgage, $9 500; Appleton Extension, $6,000; Green Bay Extension, $1,000; Funded coupon, $2,900; Galena and Chicago Union second mortgage, $40,000; Elgin and State Line, $1,500; Mississippi River Bridge bonds, $4,000; Beloit and Madison, $13,000; Peninsula bonds, $34,000; and Milwaukee and Chicago R. R. second mortgage bonds, $2,000. Total, $115,000 cancelled.

Consolidated sinking fund currency bonds, amounting to $113,000, due in 1915, have been issued therefor, pursuant to the terms of the mortgage, which provides for such substitution. The amount of General consolidated gold bonds, issued for new equipment, steel rails and for the great works of the new shops and other construction items, which aggregated $1,300,981 17, was $825,000.

Since the last annual report, the important cases in which this company is interested, involving the question of the right of the State to compel the company to render services at any rates which the State may see fit to prescribe, have been argued before the United States Supreme Court at Washington, and a decision may be expected during the term which begins in October next.

The first case is that of John D. Blake vs. The Winona and St. Peter Railroad Company, which was appealed from the Supreme Court of the State of Minnesota. The only questions in this case are, whether the State of Minnesota has the right to fix and enforce specific rates of compensation for the transportation of freight and passengers; and, whether the fact that the legislature has fixed such rates, is conclusive that such rates are reasonable.

Another and more important case is that of William F. Piek et al. vs. The Railroad Commissioners of the State of Wisconsin, which was appealed from the Circuit Court of the United States for the Northern District of Wisconsin. This is a suit brought by bondholders in Europe and in this country to test the constitutionality of the law known as the Potter Law of Wisconsin. There is still another suit in all respects similar, against the same commissioners, brought by certain stockholders of the company.

The chief point of difference between the Minnesota and Wisconsin cases arises from the circumstance that the constitution of Wisconsin provides that the legislature may alter or repeal the charters of corporations. The constitution of Minnesota, under which the charter of the Winona and St. Peter Railroad was granted, contained no such provision.

Cases very similar in principle have been taken to the Supreme Court from the States of Iowa and Illinois by the Chicago, Burlington and Quincy Railroad Company, and from the State of Wisconsin by the Chicago, Milwaukee and St. Paul Railway Company; and it is believed that all the questions growing out of the Potter Law in Wisconsin, and similar laws in other States, will be settled by these decisions.

It should be stated, however, that the law of Minnesota, fixing rates of fare and freight, has been repealed, and the Potter Law in Wisconsin superseded by an act restoring to the railroads the right to charge the maximum rates which were in force by tariffs of the Milwaukee and St. Paul Railroad in 1872. The rates charged under this act are for the most part lower than the maximum, and are generally satisfactory.

The financial affairs of the company, as well as the material condition of the property, have been much improved by the operations of the last fiscal year.

The floating debt has been reduced $1,087,701 26, and the diminished amount which appears on the balance sheet at the close of the year, in excess of the ordinary monthly accounts for working the road, will be rapidly liquidated.

There was a very considerable increase in the amount of business done over that of former years, and the revenue resulting therefrom was sufficient to augment the gross earnings on all the lines; while, at the same time, there was a reduction in working expenses of a little more than a million of dollars, accomplished without detriment to the service, or deterioration of the property.

The net income for the year, after deducting all charges, was $1,179,716 89, against $518,266 38 the preceding year, and is equivalent to five and one half per cent. on the preferred stock of the company. This result, obtained during a year of general depression in business and low prices for transportation, may be regarded as propitious to the interests of stockholders, and encouraging for the future.

The equipment of the Chicago and Northwestern Railway (whole road, 1,992.08 miles) on the 31st of May, 1876, consisted of 342 locomotives, and 8,200 cars, viz: 142 first-class and 29 second-class passenger cars, 65 baggage and express cars, 15 mail cars, 140 caboose and way cars, 4 paymasters', directors', officers', and business cars, 18 boarding cars, 4,273 box freight, 1,025 platform, 354 stock, 26 dump, 1,957 iron ore, 40 ditching, and 12 pile driving, wrecking, etc., cars. And of the Winona and St. Peter Railroad, 27 locomotives, and 1,037 cars, as follows: 7 first class passenger, 2 baggage, mail and express, 2 caboose, 893 box freight, and 133 platform cars. Total number of engines, 369; total number of cars, 9,237.

The number of miles run by locomotives on the whole road for the fiscal year ending May 31, 1876, were: passenger, 2,573,777; freight, 4,636,517; wood train, 77,777; gravel train, 640,214; switch, 1,992,870—total, 9,921,155, against 9,572,894 for the preceding year—an increase of 348,261, or 3.64 per cent.

Number of miles run by passenger trains, 2,573,777; average distance run by each passenger train, 100.08 miles; average number of passengers carried on each passenger train per mile run,

47.51; average number of miles each passenger was carried, 34.67.

Number of miles run by freight trains, including switching, 6,630,977; average distance run by each freight train, 201.99 miles; average number of tons of freight hauled in each freight train per mile run, 75.88; average number of miles each ton of freight was carried, 144.91.

Average earnings per mile run: by passenger trains, $1 62; by freight and switching, $1 48; by passenger and freight trains, $1 52. Average cost of running above trains one mile, including taxes, 89.82 cents. Average net earnings on each mile run by above trains, 62.43 cents.

The number of acres of lands sold and conveyed during the year ending May 31, 1876, was as follows:

	acres.
Of lands in Michigan	8,810 64
Of lands in Wisconsin	1,646.26
Total acres sold	10,456.90

The average price received for the whole, was $2 96 per acre.

A summary of the land grant lands, remaining unsold on the same date, is as follows:

	Acres
Lands in Michigan	633,491.63
Lands in Wisconsin	362,551 88
Lands in Minnesota and Dakota	1,159,517.39
Total lands unsold	2,155,560.90

GENERAL BALANCE SHEET, May 31, 1876.

Old construction:		
Cost of consolidated road, equipment and property		$39,658,302 62
New construction since June 1, 1864:		
Amount to May 31, 1875	$19,228,528 78	
Amount expended for year ending May 31, 1876	1,255,455 79	
		20,483,984 57

A Canadian Invention for Shifting Car Trucks.

A correspondent of the N. Y. Times thus describes the Ramsey Car Truck Shifting Apparatus, an invention patented so recently as the 14th of March last by Mr. R. H. Ramsey, of Cobourg, Canada, and now on exhibition by him in the Canadian section of the Centennial Exhibition at Philadelphia:

This apparatus has for its object the transfer of cars from one set of trucks to another without the use of jack screws or anything apt to strain the bed timbers or joints of the cars, in case of a defective or injured truck, worn wheels, &c. The action is very simple, the main feature being a double track with certain depressions at certain points, the agents being auxiliary trucks running on rails laid outside the rails of the regular track. In the first place, the car is run on a piece of level track at a point where the outer rails carrying the auxiliary trucks have a slight decline. Strong cross beams being laid across the auxiliary trucks, under the bed of the car, both sets of cars are moved forward till the auxiliary trucks are on a level with the others and the car lies plump on the cross beams. On being further moved forward, the middle rails or regular track decline into a pit, the old trucks are released from the car by the withdrawal of the king bolt, and run, of their own weight, down the declivity, leaving the car firmly seated on the auxiliary trucks, standing on the level; new trucks are brought up the declivity of the pit, the king bolt is dropped in, the car is backed to the point of declination of the outside rails, and is, after a few moments' delay only, ready for a journey of any length. This operation can be carried out as easily with loaded freight or passenger cars as with empty cars, and seems to me as simple a means of carrying out the desired object as can well be devised.

The York (Penn.) Car Works.

The enterprising car building firm of Billmeyer & Smalls will to day load for shipment two of the most elegant and substantial first class passenger cars ever built in America. They are for the Denver and Rio Grande Railroad, and in beauty of design and finish are not surpassed by anything now running upon our lines. They are named respectively "El Moro" and "La Veta."

These cars are narrow gauge, and have a length of 38 feet 6 inches in the body, and 43 feet 6 inches over all; they are eight feet in width, with a comfortable carrying capacity of 46 passengers, or with the stoves removed of 50. The body of the car is in design similar to the first class coaches now in use on the Pennsylvania Railroad; the frame work is of the best southern yellow pine, braced, strengthened, and put together in such a manner as to secure symmetry and grace, combined with the utmost endurance, and protection to the passenger in case of accident. It is a perfect model of strength and beauty, and gives evidence of artistic skill, as well as mechanical ability in the builders.

On the outside the finest quality of poplar is used, which is nicely finished and so delicately painted and varnished, as to remind us of the Japanese lacquer work which we have seen in our travels in the far East.

The body is painted in a finely toned wine color, paneled, and banded, and ornamented with yellow. The windows are, on the upper part, in the form of a double eliptic, and carry with their form an air of lightness and strength.

Upon the upper part of each car is lettered "Denver and Rio Grande," and the name of the car is placed in a tasteful lozenge in the centre. There is just enough of the ornamental to preserve artistic taste, and please the eye, without giving that sense of gaudiness which so detracts from true beauty.

The inside is finished in such a manner as to remind one of the beauties of a lady's boudoir, and not of the stern, hard uses of travel. It has the Buntin patent seat, upholstered in crimson and green plush velvet, the arm-rests are silver plated, and are highly finished. The finish of the inside of the car is black walnut and bird's eye maple, the mouldings are of cherry, and are richly gilt, while the head lining is beautifully decorated. All the ornamental painting, etc., is by the Messrs. Watt of this place, and reflects the greatest credit upon them as artists. The cars have retiring saloons, water coolers, two of Spear's patent stoves, each, and are lighted by two very fine fire-gilt center lamps. They are furnished with silver plated hat and coat hooks, and are ventilated by Cramer's ventilators.

The Westinghouse air brakes are furnished to the cars, the bumpers and platforms are Miller's, and, perhaps best of all, the cars are mounted upon the Billmeyer & Smalls' patent car truck, which has given such perfect satisfaction everywhere. The fact that these superb cars, perfect in all their appointments, magnificent in design and finish, unexcelled in any point by any specimen of car building now extant, were contracted for with a York firm, built entirely by York mechanics, and will go forth perfect specimens of York handiwork, speaks volumes, and is a matter of just pride to us as a community.

It is no wonder that even in these times of commercial depression, orders are coming in upon this firm; turning out the finest quality of work, they are conscientious in their use of materials, employ the best of skilled labor, and in their car-building, the railroads can rest assured that they will find satisfaction. Their prosperity is a part of the prosperity of York.—*Dispatch, Aug.* 16.

Street Dummy Engines.

The new dummy-engine that has been running on the Market street railroad for about two weeks is stated to be satisfactory. It is said to be convenient, noiseless, and economical. The dummy that was in operation previous to the use of the present one, and which was brought from Boston, was found to be too large by the managers of the railway company, and it was returned. That now in use is an experimental engine made by the Baldwin Locomotive Company, the machinery being adapted to any ordinary street car. The engine is located beneath the front portion of the car, and the engineer only occupies a small semi-circular box on the front platform, which, for purposes of safety, is closed from passengers. It was built in November last, and was placed on one of the Brooklyn railways for experimentation when the city authorities refused to permit its use in this city last winter.

Whether it will be kept at work here much longer is not yet known, a request having been received by the Baldwin Company to transfer it for trial to Pittsburg as soon as convenient. There are building now at the Baldwin works two new dummies, one intended for Havana, Cuba, and the other ordered by the Citizens' Passenger Railway Company of Baltimore. The former will be completed about the latter part of next week, and the other within two weeks. These, however, are built upon a different plan, the engine occupying a separate truck from the other car, and being attached therewith by means of the ordinary couplings. In size they are about one-third the length of the car.

As regards the relative cost of these dummies, it is practically estimated that it is no greater than the price of a street car and the seven or eight horses that are necessary to run it each day. Its maximum power is estimated to be equal to about that of eight horses.

The Baldwin Company has been filling quite a number of orders for locomotives for South America since December, when twelve hundred additional men were employed. This work having been completed, it became necessary to discharge about six hundred of the employes within the past few weeks. In the fall season the firm looks for a revival in their business, and they hope to reinstate every one of these hands.—*Phila. Ledger.*

Commerce of New York.

The foreign imports at New York for the month of July, 1876, are officially stated as follows:

	1875.	1876.
Entered for consumpt'n.	$12,029,470	$9,833,959
Do. for warehousing	8,285,645	4,943,729
Free goods	5,990,042	4,846,431
Specie and bullion	813,981	418,960
Total entered at port...	$27,119,138	$20,033,079
Withdrawn fr. wareh'use	8,365,912	5,707,543

The foreign imports at New York for seven months from January 1, were:

	1875.	1876.
Entered for consumpt'n	$91,324,852	$75,099,075
Do. for warehousing...	63,465,169	52,684,809
Free goods	56,226,549	47,916,136
Specie and bullion.....	8,354,958	2,670,245
Total entered at port..	$219,371,528	$178,370,265
Withdrawn fr. wareh'se	57,026,868	47,464,939

The duties received at New York for seven months ending with July, were:

	1875.	1876.
January.....	$8,072,846 12	$8,160,728 44
February.....	11,811,046 95	9,478,003 56
March.....	10,323,619 78	10,237,275 36
April	9,603,087 82	7,764,457 04
May.....	7,474,171 61	7,575,997 28
June.....	6,656,462 06	6,619,735 25
July	9,273,546 61	7,497,199 39
Total.....	$62,214,780 95	$57,328,396 32

The exports from New York to foreign ports in the month of July, were:

	1875.	1876.
Domestic produce	$23,681,774	$24,313,669
Foreign free goods	140,754	325,934
Do. dutiable.....	623,941	534,958
Specie and bullion.....	5,968,301	8,203,787
Total exports.....	$30,414,770	$33,378,348
Do. exclusive of specie.	24,446,469	25,174,561

The exports from New York to foreign ports for seven months from January 1, were:

	1875.	1876.
Domestic produce	$140,870,688	$143,124,386
Foreign free goods	1 441,011	1,976,693
Do. dutiable	3,652,338	4,130,811
Specie and bullion.....	56,323,639	36,830,120
Total exports	$202,287,676	$186,062,010
Do. exclusive of specie.	145,964,037	149,231,890

☞ The first three miles of the Coney Island Branch of the New York, Bay Ridge and Jamaica Railroad was formally opened on the 19th inst. The route is by steamer from New York to Bay Ridge, and thence by train to a connection with the Brooklyn, Bath and Coney Island Railroad, and thence over the latter road to Coney Island, a distance of 6¼ miles. The time from New York is about 35 minutes. The line will eventually be extended to East New York, and thence to Jamaica. The construction of the railway was begun in April last. Thus far $140,000 have been expended by the company, whose capital is $300,000. The road will not be equipped until it is completed to Jamaica. The Brooklyn, Bath and Coney Island Company will run regular trains over the road to Coney Island.

☞ In the Court of Common Pleas, on the 15th inst., Judge Van Hoesen rendered a decision authorizing the Greenwich street Elevated railway to continue its extension through Ninth avenue.

NEW BOOKS.

Memoranda concerning Government Bonds, for the information of Investors: Fisk & Hatch, Bankers, Publishers, 5 Nassau street, New York.

The rapid growth of public debts in the United States during the past fifteen years has been among the most striking of the many important events that have occurred in that period. There is scarcely one among our people who would, in 1860, have believed that our present aggregate of public indebtedness could have been possible. Our public obligations have grown up so irregularly, have taken such various forms, and have been so unlike in the rates of interest paid upon them—so uncertain in the periods of payment—that it has not been easy to follow them in all these matters. And this must continue to be the case until the work of funding, which is now in progress, shall have become complete. It is fortunate, therefore, that a house standing so high in financial circles as that of Fisk & Hatch, should have put forth the valuable little pamphlet which is now before us. It treats of coupon and registered bonds; those bearing interest in gold, and in currency; those put upon the market and sold to raise money to meet current expenses of the Government, and those issued to the Pacific Railroads, or for other specified purposes. Rarely has a work of thirteen pages contained so much valuable information, as this presents to parties dealing in or holding securities of the United States. It gives full details of each issue, the law of ownership as relates to innocent holders, the manner of transferring registered bonds, and the rules of the U. S. Treasury respecting what are termed "called bonds,"—that is, those issues which have been called in for payment and canceling. Many other matters of interest are touched upon, and all dealers in or holders of these securities should not fail to avail themselves of the information thus presented.

☞ The report of Gen. Newton and Col. Adams to the directors of the Brooklyn Elevated Railroad Company favors the single rail plan of Roy Stone. The rail consists of a triangular trestle work, and the car is saddle-shaped. One of the advantages secured by this arrangement is the impossibility of a car or engine leaving the track, except by being lifted a considerable distance. Placed on single posts on the side of the street, it is estimated that a road constructed on this plan would cost $100,000 a mile, while the cost would be $130,000 per mile if the road was to span the street.

☞ In the United States Circuit Court at St. Louis, Mo., on the 21st inst., U. S. Attorney Bliss filed a suit against the Pacific Railroad mortgage trustees and receivers, for taxes from 1864 to 1872, under the old income law. The tax, interest and penalties aggregate $200,000. Judge Dillon has granted an order for the retention of enough of the proceeds of the forthcoming sale of the road, September 6th, to satisfy the claims of the United States, if established.

☞ The Brookville Jeffersonian says that the Rochester and State Line Railroad will be finished to Salamanca by the 1st of January, 1877, and next spring it will be pushed on towards the coal basin of Jefferson county.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

Asterick (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."
